For the purpose of securing the observance of the requirements of this Act as to cleanliness in every factory and workshop, all the inside walls of the rooms of a factory or workshop, and all the ceilings or tops of such rooms (whether such walls, ceilings, or tops be plastered or not), and all the passages and staircases of a factory or workshop, if they have not been painted with oil or varnished once at least within seven years, shall be limewashed once at least within every fourteen months, to date from the period when last limewashed; and if they have been so painted or varnished, shall be washed with hot water and soap once at least within every fourteen months, to date from the period when last washed:
