FRIDAY, DECEMBER 23, 1904.

At the Court at Buckingham Palace, the 12th day of December 1904.

PRESENT,

The KING's Most Excellent Majesty in Council.

WHEREAS by section 8 of "The Weights and Measures Act, 1878," it is provided that the Board of Trade shall, from time to time, cause such new denominations of standards, being either equivalents to or multiples or aliquot parts of the imperial weights and measures, ascertained by the said Act, as appears to them to be required in addition to those mentioned in the Second Schedule to the said Act, to be made and duly verified, and that those new denominations of standards, when approved by His Majesty in Council, shall be Board of Trade Standards in like manner as if they were mentioned in the said schedule.

And whereas by "The Weights and Measures (Metric System) Act, 1897," it is provided that the Board of Trade Standards which may be made under section 8 of the Weights and Measures Act, 1878, shall include metric standards derived from the iridio-platinum linear standard metre deposited with the Board of Trade and numbered 16.

And whereas it has been made to appear to the Board of Trade that a new denomination of standard measure of length of twenty metres, being a multiple of the standard metre aforesaid, is required, and they have caused the same to be made and duly verified.

Now, therefore, His Majesty, by virtue of the power vested in Him by the said Acts, by and with the advice of His Privy Council, is pleased to approve of the measure of length of twenty metres

as a new denomination of standard, and doth direct that the same shall be a Board of Trade standard in like manner as if it was mentioned in the Second Schedule to "The Weights and Measures Act, 1878."

A. W. FIRZROY.
