19 .

THE SECOND SCHEDULE.

(Article 18.)

*Prescriptions for Sheep-Dips approved by the Board for Sheep-Scab.*

(Quantities for 100 gallons of bath.)

1. Lime and Sulphur.

Mix 25 lb. of flowers of sulphur with 12½ lb. of good quick-lime. Triturate the mixture with water until a smooth cream without lumps is obtained. Transfer this to a boiler capable of boiling 20 gallons, bring the volume of the cream to 20 gallons by the addition of water, boil and stir during half an hour. The liquid should now be of a dark red colour; if yellowish, continue the boiling until the dark red colour is obtained, keeping the volume at 20 gallons. After the liquid has cooled, decant it from any small quantity of insoluble residue, and make up the volume to 100 gallons with water.

2. Carbolic Acid and Soft Soap.

Dissolve 5 lb. of good soft soap, with gentle warming, in 3 quarts of liquid carbolic acid (containing not less than 97 per cent. of real tar acid). Mix the liquid with enough water to make 100 gallons.

3. Tobacco and Sulphur.

Steep 35 lb. of finely-ground tobacco (offal tobacco) in 21 gallons of water for four days. Strain off the liquid, and remove the last portions of the extract by pressing the residual tobacco. Mix the whole extract, and to it add 10 lb. of flowers of sulphur. Stir the mixture well to secure an even admixture, and make up the total bulk to 100 gallons with water.

Note.—The period of immersion in these dips should not be less than half a minute.

THE THIRD SCHEDULE.

(Article 22.)

*Order Revoked.*

No.	Date.	Short Title.
5847	1898. 13th September .	The Sheep-Scab Order of 1898.

Copies of the above Order can be obtained on application to the Secretary, Board of Agriculture and Fisheries, 4 Whitehall Place, London, S. W.
