Whitehall, 11th September 1918.

The KING has been pleased to award the Albert Medal to Private George Bennett, of the 12th Lancers in recognition of his gallantry in saving life in France in February last. The circumstances are as follows:—

On the 25th February 1918, at a railway station in France a woman who was crossing the line in front of a troop train, to reach a passenger train, was caught by the buffer of the engine. Private Bennett, hearing the woman's screams and seeing her position, rushed to help her and pulled her into the six-foot way between

the two trains. Unfortunately a basket which the woman was carrying was struck by the troop train and knocked Bennett against the passenger train, with the result that he was badly injured and has suffered the amputation of both his legs. Had it not been for his presence of mind and courage the woman would probably have been killed.

ARMY COUNCIL ORDER.

THE WOOLLEN AND WORSTED (CONSOLIDATION)
AMENDMENT No. 3 ORDER, 1918.

Whereas by the Woollen and Worsted (Consolidation) Order, 1917, as amended by Orders made by the Army Council on the 23rd day of March, 17th day of May, and 2nd day of August 1918, the Army Council regulated upon certain conditions the production of goods of which Wool or any derivative thereof, or Mohair, Alpaca, Cashmere, or Camel-hair is a constituent part.

And whereas it is expedient that the said Order should be amended:

Now, therefore, the Army Council, in pursuance of the powers conferred upon them by the Defence of the Realm Regulations, hereby order that the Woollen and Worsted (Consolidation) Order, 1917, shall be amended as follows:—

(1) In Clause 4 the word "Noils" shall be inserted after the word "Tops."

(2) The following Clause shall be inserted next following after Clause 6:—

"(7) No person, the business carried on by whom consists wholly or partly in the production of goods of which wool or any derivative thereof or Mohair, Alpaca, Cashmere, or Camel-hair is a constituent part shall, except under permit issued by or on behalf of the Director of Wool Textile Production, put into manufacture at any time after the 30th day of November 1918 any Noils made from Merino, British or Colonial, Crossbred or Persian Wools otherwise than for any purpose referred to in Clause 3 hereof."

And the said Order may be printed with the remaining Clauses of the said Order numbered consecutively from Clause 8 to Clause 23 respectively.

(3) The following clauses shall be inserted next following after Clause 8 of Schedule "A" annexed to the said Order.

"(9) The basis of distribution as between individual manufacturers of wool felt hats shall be the consumption for civil orders in 1916 and the average number of forming cards effecting such consumption. The requirements of machinery engaged on Government work in each period shall be deducted."

"(10) The basis of distribution as between individual manufacturers of felt other than that required for wool felt hats shall be the consumption for civil orders in 1916 and the average number of inches in the carding sets effecting such consumption. The requirements of machinery engaged on Government work in each period shall be deducted."

(4) The following Clause shall be inserted next following after Sub-Section (d) of Clause 13 of the said Schedule:—

Delivery certificates and monthly returns of deliveries will not be re-

quired from merchants in respect of hand-knitting and mending yarns."

ADMIRALTY NOTICE TO MARINERS.

No. 1065 of the year 1918.

SPECIAL INSTRUCTIONS TO MERCHANT
VESSELS.

Former Notice.—No. 872 of 1918; hereby cancelled.

(1) INFORMATION RESPECTING WAR INSTRUCTIONS
FOR MERCHANT VESSELS.

Notice is hereby given that, under the Defence of the Realm (Consolidation) Regulations, 1914, the following Order has been made by the Lords Commissioners of the Admiralty and is now in force:—

The Orders contained in Admiralty War Instructions for British Merchant Ships or in any instructions or advice, confidential or otherwise, issued or given to Masters of vessels by British or Allied Naval Officers, or by other duly authorised Officers or Officials, as to routes to be taken and other precautions to be observed to avoid capture or destruction by the enemy, are to be observed even when they are in conflict with the provisions of the Regulations for preventing Collisions at Sea, and every vessel observing such regulations, instructions or advice shall be deemed to be taking measures to meet "special circumstances" within the meaning of Article 27 of the Regulations for preventing Collisions at Sea.

(2) CAUTION AS TO OBEYING ORDERS RECEIVED
FROM H.M. SHIPS, &c.

The attention of all Masters or other persons in command or charge of vessels is directed to the duty of obeying promptly and strictly all orders, whether by way of signal or otherwise, given by any Officer in Command of any of His Majesty's Ships or by any Naval or Military Officer engaged in the defence of the coast. Cases have been reported to the Admiralty in which British Merchant Vessels have wilfully disregarded the Orders given by Patrol Boats, &c., and it is therefore considered necessary to

remind all persons concerned of the penalties provided for such acts of disobedience.

Where vessels neglect to obey Orders so given the person in charge is liable to prosecution under the Defence of the Realm (Consolidation) Regulations, 1914, and upon conviction to be fined £100 or imprisoned for six months or, where the disobedience was of an aggravated kind, to suffer both penalties.

It should also be noted that failure to obey orders may necessitate the seizure and detention of the vessel, when found in any port of the United Kingdom subsequently to the time at which the act of disobedience was committed.

(3) PROCEDURE FOR VISIT AND SEARCH OF VESSELS BY H.M. SHIPS.

In view of the danger of H.M. Ships closing vessels, apparently Neutral, British, or Allied traders, but which are in reality German raiding cruisers, it is necessary to adopt a special Boarding procedure as a measure of precaution.

When it is desired to put into force the special Boarding procedure it will be as follows:—

A red pendant of a specially large size will be hoisted by the man-of-war exercising the right of visit and search. The hoisting of this pendant will be accompanied by the firing of a rocket. This will signify that the merchant ship is to close the boat lowered by the man-of-war, whether the man-of-war remains in the vicinity of the boat or not.

(4) REGULATIONS WITH REGARD TO VESSELS' LIGHTS.

Notice is hereby given that, under the Defence of the Realm (Consolidation) Regulations, 1914, the following Order has been made by the Lords Commissioners of the Admiralty, and is now in force:—

(a) In areas in which submarines and / or raiders are likely to be met, which areas are defined in war instructions for British merchant ships or within such limits as may be defined by officers responsible for the issue of route instructions at home or abroad, and

(b) In areas other than those above mentioned, whenever information is received by war warnings, or otherwise, that submarines and / or raiders are operating.

(1) Vessels are to be carefully darkened from sunset to sunrise. No light of any description shall be exposed in any vessel so as to be visible outboard or to reflect upwards, other than navigation lights at such times and in such circumstances as they are authorised to be shown by this Order, and lights which are necessary for signalling purposes.

Any Naval Officer whom the Senior Naval Officer of the Port may appoint for the purpose, may board any vessel entering the port to inspect the means provided for the screening and shading of lights as this Order requires. The Master of such vessel shall give facilities for such inspection and shall, if the Inspecting Officer so requires, sign a certificate to the effect that adequate means of screening lights are provided on board.

(2) *Navigation lights* must be dimmed to a visibility not exceeding two miles.

Subject to any directions given under paragraph 8 hereof, they are only to be exhibited (a) for avoiding collision, in which case they are

to be extinguished as soon as the danger of collision is past; (b) when exceptional circumstances make their use absolutely necessary.

They must be so arranged that they can be instantly shown when required to be exhibited.

(3) *Masthead Lights*.—No masthead light of a brilliancy exceeding $2\frac{1}{2}$ candle power at its source is to be exhibited. Dioptric lenses and reflectors are to be removed from the lanterns, and lights are to be shaded with plain opal glass.

One masthead light only is to be used, and this light is never to be used unless the Master considers it absolutely necessary.

The use of masthead lights is to be discontinued until provision has been made for their being reduced in accordance with this Order.

(4) *Side Lights*.—No side light of a brilliancy exceeding eight candle power at its source shall be exhibited. Dioptric lenses and reflectors are to be removed from the lanterns, and the lights are to be shaded with plain coloured glass.

Ships with electric lamps are to carry five candle power bulbs for use when specially ordered.

Oil side lamps are only to be exhibited if electric lights are not available.

(5) *Stern Lights*.—No stern light of a brilliancy exceeding $2\frac{1}{2}$ candle power at its source shall be exhibited. Dioptric lenses and reflectors are to be removed from the lanterns, and lights are to be shaded with plain opal glass.

Stern lights are to be electric where electric light is installed, and are to be controlled from the bridge.

In vessels where electric light is not installed, an oil lamp or electric torch of equivalent brilliancy may be substituted.

Stern lights are not to be exhibited when navigation lights are ordered to be shown unless stern lights are definitely mentioned in the order.

Stern lights are only to be exhibited (a) for the purpose of avoiding a collision, in which case they are to be extinguished as soon as the danger of collision is passed, or (b) in accordance with any directions given under paragraph 8 hereof.

Ships in convoy when ordered to exhibit a stern light are only to show a blue stern light, screened so as to show not more than three points from right astern on each quarter. The shade of blue to be that known as Admiralty Pattern No. 79.

(6) *Dimmers*.—In ships fitted with dimmers, bulbs of a higher candle power may be used, but lights are not to be shown of a brilliancy exceeding that stated in this Order, except in special circumstances, such as imminent danger of collision, thick weather, or while navigating in and entering or leaving any harbour; such ships are to be supplied with bulbs of the prescribed candle power, which are to be inserted and used in the lamps should the dimmers fail from any cause.

(7) *Anchor Lights*.—The visibility of anchor lights is not to exceed one mile.

No electrically lit lanterns are to be used as anchor lights, except in vessels carrying volatile oil or spirits in bulk.

All anchor lanterns are to be fitted with overhead screens, so arranged as to cut off the light at an angle of between 20 and 25 degrees above the horizontal.

NOTE.—Specimen screens can be viewed at the Board of Trade Surveyors' Offices at Leith,

North Shields, Hull, Plymouth, Cardiff, Liverpool, Glasgow, and Dublin.

(8) Notwithstanding the foregoing provisions of this Order, the Senior Naval Officer or Naval Officer in Charge at any port of the United Kingdom may give instructions either general or special for the showing of such navigation, anchor or other lights in waters within his jurisdiction, as he may consider necessary for the safety of shipping in such waters.

In waters other than those last mentioned, the Senior Naval Officer present on board any of H.M. ships or any Naval Officer appointed for the purpose may give directions either general or special for the exhibition of any lights he may require to be shown.

(9) The owner of every vessel shall provide for fitting and maintaining on board the vessel the equipment of lights prescribed hereby, including adequate means of controlling, shading and screening navigation and anchor lights and all other lights on board which require to be screened to enable the vessel to be thoroughly darkened, and if any owner fails so to provide, he shall be guilty of an offence against the Defence of the Realm Regulations.

The Master, Officer, member of the crew, passenger or any other person on board any vessel who is affected by any of the provisions of this Order and fails to comply therewith shall likewise be guilty of an offence.

(10) This Order shall apply to vessels of every description other than H.M. ships or hospital ships, except that it shall not apply to a vessel not being a British vessel where the non-compliance with this Order takes place on the high seas outside the territorial waters adjacent to the United Kingdom.

Note.

This Notice is a revision of the former Notice quoted above.

CAUTION.

Sections (1) and (4) of this Admiralty Notice to Mariners are issued under the provisions of the Defence of the Realm (Consolidation) Regulations, 1914, and failure to comply strictly with the directions contained in them will constitute an offence against those Regulations.

Any person found guilty of such an offence is liable to severe penalties both of imprisonment and fine.

Any person aiding or abetting the commission of such an offence is himself guilty of an offence against the Regulations.

Attention is also drawn to the fact that any infringement of the directions contained in sections (1) and (4) of this Admiralty Notice to Mariners is liable to result in the detention of the ship or vessel.
