In Respect Whereof

THOS. E. G. SINCLAIR, Solicitor,
Town Hall, Cupar,
Pursuers' Agent.

CONDESCENDENCE

1. The boundaries of the Royal Burgh of Cupar were last extended with effect from 9th February 1894, and the areas within the present boundaries of the said Burgh are shown coloured blue and green on the map produced herewith.

2. The Pursuers are desirous that the boundaries of the said Burgh should be extended to include the areas shown coloured pink on the said map, and that, for convenience, the two small areas shown coloured green on the said map and included within the present boundaries of the said Burgh should be excluded therefrom.

3. For several years past, the built up area of the said Burgh has spread beyond the present boundaries thereof, and in the said areas shown coloured pink on the said map, water, drainage and cleansing services are provided by the Pursuers.

4. In recent years there has been a strong desire by private individuals and building firms to build houses within the said Burgh but almost all the sites available for house-building on an economical scale have already been used for that purpose, or have been reserved for industrial, educational or other purposes.

5. The said Royal Burgh of Cupar is the County Town and is the professional, business and shopping centre for a large section of East Fife, and because suitable houses cannot be obtained many professional and business people and persons employed within the said Burgh are unable to obtain housing accommodation within the said Burgh and are accordingly compelled to reside elsewhere and to travel daily to their places of business or employment.

6. In 1931, the population of the said Burgh was 4,595; by 1951 the figure had risen to 5,686, and it is expected that the census of 1961 will show a further increase in the population of the said Burgh.

7. The present area of ground within the boundaries of the said Burgh is 533 acres, and, if the boundaries of the said Burgh were altered and extended as craved, the net increase in area would be 149.3 acres, making a total revised area of 682.3 acres.

PLEA-IN-LAW

1. The proposed alteration and extension of boundaries, being reasonable and necessary, should be granted as craved.
