1. THE Secretary of State for Energy is prepared to receive applications in accordance with the Petroleum (Production) Regulations 1982 (SI 1982 No. 1000) for petroleum production licences in respect of the blocks to which the numbers specified in Schedules I and II to this Notice have been assigned on a map deposited in the Library at the Department of Energy, Thames House South, Millbank, London SW1P 4QJ. The map may be inspected by prior appointment (Telephone No. 01-211 3394) between 0915 and 1645 hours Monday to Friday until 31 December 1982. Consideration and Conditions of Licences

2. In addition to a royalty (described in Clauses 7 to 10 of Schedule 5 of the Petroleum (Production) Regulations 1982) at the rate of 12½%, the consideration required for production licences granted as a result of this invitation will be:
 - (i) *in respect of all blocks listed in the Schedules:*
 - (a) at the time the offer of a licence is accepted an initial payment of £300 for each square kilometre comprised in the licensed area;
 - (b) on the sixth anniversary of the date of commencement of the licence term (and on exercise of the option to continue as to the remaining period of the licence) the sum of £360 for each square kilometre in the continuing part; on the seventh anniversary £720 and similarly rising by annual increments of £360 until an annual sum of £5,400 will be payable for each square kilometre comprised in the licensed area;
 - (ii) *in respect only of blocks listed in Schedule II, an additional initial payment for each such block (payable at the time and in the manner set out in paragraphs 11 to 15 below).*
3. Licensees will be required, on the day the licence is granted, to enter into an Agreement under seal with the Secretary of State and the British National Oil Corporation (BNOC) which will provide that BNOC will, if the Secretary of State so wishes, have the option to take at market price up to 51% of the petroleum (other than natural gas) produced from the licensed area. The percentage will be calculated after taking into account any petroleum required to be delivered to the Secretary of State as royalty in kind. The Agreement (excluding the Schedules referred to therein) will be in the form of Schedule III to this Notice and will provide that in specified circumstances the licensee, if so requested by the Secretary of State, will:

- (i) execute a Deed of Assignment assigning the licence from the Licensee to the Licensee and BNOG jointly; and will
 - (ii) enter into a further agreement containing provisions under which BNOG will take the petroleum. The text of the Schedules to the Agreement giving the provisions relating to BNOG's rights and the limitation of those rights will be made available on request from the Department of Energy.
4. Licences may be granted subject to special conditions governing the notice required for, and the timing and circumstances of operations carried out thereunder. It should also be noted that on certain blocks, designated by an asterisk in Schedule I, the areas within which drilling may take place will be restricted.

Method of Application

5. Paragraphs 6 to 10 below apply to applications for blocks listed in Schedule I. Paragraphs 11 to 15 apply to applications for blocks listed in Schedule II.

Applications for Blocks Listed in Schedule I

6. In respect of blocks listed in Schedule I:
- (i) applications should be made on a standard application form available from the Department of Energy. Applicants should note that the Secretary of State will entertain applications only for blocks specifically identified in the application and drawn from those listed in Schedule I;
 - (ii) applications should be delivered between 0930 and 1645 hours on Friday 14 January 1983 or between 0930 and 1200 hours on Monday 17 January 1983 to the Petroleum Production Division of the Department of Energy at Thames House South, Millbank, London SW1P 4QJ, together with a remittance in respect of the appropriate application fee calculated in accordance with Regulation 11(2) of the Petroleum (Production) Regulations 1982;
 - (iii) no applications will be accepted after 1200 hours on 17 January 1983;
 - (iv) applicants should indicate any preference they attach to the blocks to which the application relates and should also indicate if blocks are applied for as alternatives;
 - (v) applications should be accompanied by details of the work programme the applicant proposes to carry out if awarded a licence.
7. Applicants will be judged against the background of the continuing need for expeditious, thorough and efficient exploration to identify oil and gas resources of the UK Continental Shelf and the following factors in particular will be borne in mind when examining applications:
- (a) technical competence to undertake a programme of exploration and production;
 - (b) capability to produce funds commensurate with work programme obligations in respect of initial exploration and the extent of access to adequate funds in the event of a commercial discovery being made;
 - (c) where the applicant already holds or has held a licence, his overall performance to date in meeting licence obligations. In cases where the applicant holds a petroleum production licence, especial consideration will be given to the applicant's performance in thoroughly exploring and where appropriate appraising his licensed area, and to his intentions on further exploration and appraisal of that area;
 - (d) exploration already done by or on behalf of the applicant which is relevant to the areas applied for;
 - (e) the extent of the contribution which the applicant has made or is planning to make to the economy of the UK including the strengthening of the UK balance of payments, the growth of industry and employment and the involvement of UK organisations in research into new concepts, and in the design and demonstration of associated techniques and equipment, for application on the UKCS;
 - (f) where a body incorporated in a country outside the UK applies for a licence or holds a controlling interest in the applicant, how far equitable treatment is afforded in such other country;
 - (g) whether the applicant subscribes to the Memorandum of Understanding to ensure that full and fair opportunity is provided to UK industry to compete for orders of goods and services. Where the applicant is, or has been, a licensee, his

past performance in providing full and fair opportunity to UK industry will be taken fully into account;

- (h) whether the applicant subscribes to the Memorandum of Understanding to grant reasonable access to representatives of independent trade unions to his offshore installations; and
 - (i) the applicant's record in respect of training for employment on offshore installations.

8. Following examination of all the applications the Secretary of State will select the applicants to whom he is prepared to award licences. If there are two or more applicants for a block who would be equally acceptable to the Secretary of State as licensees for that block he may suggest that the licence should be held jointly by some or all of such applicants.

9. The selected applicants will be offered licences on condition that within 14 working days of the date on which the Secretary of State makes the offer of an award:

- (a) they confirm acceptance of a work programme proposed by the Secretary of State following discussion with the applicants concerned;
- (b) they remit to the Secretary of State the appropriate payment referred to in paragraph 2(i) above; and
- (c) they confirm in writing that they are prepared to enter into the Agreement described in paragraph 3 above.

10. Unsuccessful applicants will be notified in writing.

Applications for Blocks Listed in Schedule II

11. In respect of the blocks listed in Schedule II:

- (i) application should be by way of tender submitted on a special tender form enclosed in a plain envelope having a special label and delivered by hand to the Petroleum Production Division of the Department of Energy, Thames House South, Millbank, London between 1000 and 1200 hours on Monday 17 January 1983. Copies of the special tender form and label are available from the Department of Energy;
- (ii) no tenders will be accepted after 1200 hours on 17 January 1983;
- (iii) the tender form should quote separately in respect of each block applied for the amount in sterling of the additional initial payment tendered (referred to in paragraph 2(ii) above). Applicants should note that the Secretary of State will entertain applications only for blocks specifically identified in the application and drawn from those listed in Schedule II;
- (iv) tenders transferable between blocks will not be accepted;
- (v) the envelope enclosing the tender should also contain:
 - (a) a deposit in sterling equivalent to ten per cent of the additional initial payment tendered in the form of a cheque or a bank draft made payable to the Department of Energy and drawn on a bank which is a member of the Committee of London Clearing Bankers or the Committee of Scottish Clearing Bankers or the Northern Ireland Bankers' Association and each such cheque or draft will be paid into the bank account of the Department; and
 - (b) a separate payment in the form of a cheque made payable to the Department of Energy in respect of the appropriate application fee calculated in accordance with Regulation 11(2) of the Petroleum (Production) Regulations 1982;
- (vi) no specific work programme need be stated in the application but information on the technical competence and financial capability of applicants will be required.

12. The Secretary of State reserves the right to reject the highest or any other tender, on all or any of the following grounds:

- (a) if he is not satisfied that the tenderer has at his disposal the necessary technical resources to carry out an effective programme of exploration;
- (b) if he is not satisfied that the tenderer has access to the necessary financial resources to carry out an effective programme of exploration;
- (c) where the tenderer has not observed all or any of the provisions of paragraph 11;

- (d) for any other reason, which will be disclosed to the tenderer on request.

202/17, 202/18, 202/19, 202/20.
209/18, 209/25, 209/27.
210/26, 210/27, 210/28.

13. Subject to the Secretary of State's right in accordance with the provisions described in paragraph 12 above to accept or reject any tender, licences will be awarded to the highest tenderer. Each successful tenderer will be informed of the acceptance of his tender by the Secretary of State by letter sent by recorded delivery post to the tenderer at the address given in the tender form. Within 14 working days of the date upon which the Secretary of State's letter of acceptance is posted the tenderer shall:-

- (a) pay the balance of the additional initial payment tendered together with the appropriate initial payment referred to in paragraph 2(i) above; and
(b) confirm in writing his willingness to enter into the Agreement referred to in paragraph 3 above.

In the event that the successful tenderer fails to fulfil either of these conditions by the due date, his deposit will be forfeited to the Secretary of State. Thereafter the Secretary of State may, subject to paragraph 12, award a licence for the block to any other tenderer for that block, and the provisions of this paragraph shall apply in relation to any such tenderer in the same manner as they applied in relation to the defaulting tenderer.

14. In the event of two or more acceptable tenders for a block being of equal amount, the Secretary of State may propose that a licence for that block be awarded to such tenderers jointly, each tenderer being required to contribute an equal share of the amount tendered. Such tenderers will be informed of the proposal by the Secretary of State by letter sent by recorded delivery post to the tenderers at the addresses given in the tender forms. If within 14 working days of the date on which the Secretary of State's letter was posted, all the tenderers concerned have not:

- (a) paid their shares of the balance of the additional payment tendered; and
(b) confirmed in writing their willingness to enter into the Agreement referred to in paragraph 3 above;

then the Secretary of State's proposal shall be deemed to have been withdrawn but the tenderers' deposits shall not be forfeited. Thereafter the Secretary of State may award a licence for that block to any tenderer for that block and the provisions of paragraph 13 shall apply in relation to any such tenderer.

15. Tenderers who are not offered licences will be notified by post. Deposits for such unsuccessful tenders will be returned without interest as soon as possible after the successful tenderers have accepted their licence awards and in any case not later than 31 March 1983.
