

CONDITIONS

1. All landings of cattle shall be in accordance with the provisions of the Importation of Animals Order 1977 and with the following provisions of this licence.
2. On landing in Great Britain, the cattle shall immediately be taken to an approved reception centre linked with the airport/port as specified below:

<i>Port of Landing</i>	<i>Linked reception centre</i>
Cairnryan	Cairnryan Lairage, Cairnryan
Stranraer	Wigtownshire

Cattle for Breeding or Production

3. (a) Each consignment of cattle shall be accompanied by the following certificates signed by a veterinary officer appointed by the Government of the Republic of Ireland.
 - (i) a certificate in accordance with Annex F, Model I of the EEC Directive 64/432 (as amended).
 - (ii) a certificate as in the attached Annex.
- (b) Cattle from OBF herds and over 12 months of age must have passed the serum agglutination test (SAT) for brucellosis (at less than 30 IU's) within 30 days prior to loading. (See NOTE below regarding castrates).
- (c) Cattle from BF herds must have passed the SAT for brucellosis (at less than 30 IU's) within 30 days prior to loading, and in the case of females
 - (i) be unvaccinated against brucellosis
 - (ii) be non pregnant
 - (iii) show no erupted permanent incisor teeth.
- (d) Cattle from herds of neither OBF nor BF status must
 - (i) be intended for meat production (further fattening)
 - (ii) be under 30 months old
 - (iii) be entire males or castrates (see note regarding castrates)
 - (iv) if over 30 days old have passed the SAT for brucellosis (at less than 30 IU's) within 30 days prior to loading (see the NOTE below regarding castrates).
- (e) Cattle must derive from an officially tuberculosis free herd and if over 6 weeks old must have reacted negatively to the single intradermal tuberculin test using bovine tuberculin within 30 days prior to loading and interpreted in accordance with Annex B of Directive 64/432.

Cattle for Slaughter

4. (a) Each consignment of cattle shall be accompanied by a certificate in accordance with Annex F, Model II of the EEC Directive 64/432 and signed by a veterinary officer appointed by the Government of the Republic of Ireland.
- (b) Cattle from herds of neither OBF nor BF status and over the age of 4 months, must have passed the SAT for brucellosis (at less than 30 IU's) within 30 days prior to loading (see note below regarding castrates).
- (c) Cattle from herds not officially tuberculosis free and over the age of 4 months must within 30 days prior to loading have reacted negatively to the single intradermal tuberculin test using bovine tuberculin and interpreted in accordance with Annex B of Directive 64/432.
5. The cattle in the categories described at paragraphs 4(b) and 4(c) must be shipped direct from ROI to Great Britain.
6. Officially brucellosis free (OBF) and brucellosis free (BF) cattle must be kept separate from each other and must not come into contact with other animals not similarly certified. Failure to observe this requirement will result in all the animals being classified in the lowest status.
7. Any person wishing to land animals in Great Britain under the terms of this licence must make arrangements for accommodation of the animals in advance with the person in charge of the reception centre to which the animals are to be taken after landing.
8. The carrier of imported animals must notify the person in charge of the reception centre of the proposed time of landing, the number of animals and their description.

NOTE: Male cattle castrated before the age of 4 months are exempt from the SAT (at less than 30 IU's) unless they are over 12 months old and from an OBF herd and are destined to join an OBF herd in Great Britain.

ANNEX

DEPARTMENT OF AGRICULTURE DUBLIN 2 IRELAND
EXPORT OF CATTLE TO UNITED KINGDOM
(GREAT BRITAIN)
ADDITIONAL CERTIFICATE FOR CATTLE INTENDED
FOR BREEDING OR PRODUCTION
TO BE PERMANENTLY ATTACHED TO THE MODEL
CERTIFICATE

I, a duly authorised Veterinary Officer of the Department of Agriculture, hereby certify in respect of cattle detailed on EEC Certificate number the following:—

- (a) A certificate from an approved Veterinary Surgeon has been received to the effect that in tuberculin test referred to at Point V(c) of the EEC Certificate, negative results have been determined in accordance with paragraph 33 of Annex B of Directive 64/432/EC.
- * (b) The cattle are derived from Officially Brucellosis Free herds.
- * (c) The cattle are derived from Brucellosis Free herds. As far as can be determined and to the best of my knowledge and belief the female cattle to be exported have not been vaccinated against brucellosis (see note).
- (d) The cattle were examined by a Veterinary Officer at the time of loading and the female showed no erupted incisor teeth.
- (e) A certificate from an approved Veterinary Surgeon has been received to the effect that cattle are non-pregnant.
- * (f) The cattle are not derived from Officially Brucellosis Free nor Brucellosis Free herds and are intended for further fattening. They were examined by a Veterinary Officer within 30 days of loading who certified that they were under 30 months of age and were:
 - (i) castrates or
 - (ii) entire males and those of which are over 30 days old have passed the SAT for brucellosis (at less than 30 IU's).
- (g) notwithstanding Point V(d) of the EEC Certificate, males castrated before the age of 4 months have not been subjected to a serum agglutination test for brucellosis.

Date

Signed
Veterinary Officer of
Agriculture.

* Delete as appropriate.

NOTE: To be certified also for bulls consigned to Great Britain via Northern Ireland.

Grahame Ritchie,
(Officer of the Department of
Agriculture and Fisheries for
Scotland).

Date: 1st March 1984.
