

- 1.1 the cattle originate from herds which are Officially Brucellosis Free; Officially Tuberculosis Free and Leukosis Free in accordance with Council Directive 64/432/EEC (as amended);
- 1.2 during the 30 days immediately prior to export all cattle except those for immediate slaughter have passed a comparative intradermal tuberculin test carried out in accordance with the provisions of Annex B of Directive 64/432/EEC;
- 1.3 during the 30 days immediately prior to export all cattle, other than steers and cattle for immediate slaughter were subjected to the serum agglutination test for brucellosis (*B.abortus* antigen) with negative results (negative is a titre of less than 30 iu/ml);
- 1.4 the cattle were examined by the certifying veterinarian at the time of shipment to Great Britain and showed no evidence of infectious or contagious disease, including warble fly, and were fit to travel.
- 1.5 conditions of 1.2 above do not apply to cattle under 42 days of age;
- 1.6 conditions of 1.3 above do not apply to cattle under 12 months of age.
2. After consignment from their premises of origin the cattle must be kept separate from animals not similarly certified.
3. The importer shall give 24 hours advance notification of expected time of arrival to the local DVO.
4. Shipment must be direct from Northern Ireland to Scotland.
5. The cattle, having landed at the port/airport, shall immediately be taken to their final destination.
6. The appropriate health certification should accompany the consignment to its final destination and be retained for a minimum period of 12 months for presentation to an inspector on request.

Note:

In the event of the consignment being delayed or postponed please advise the Animal Health Office responsible for the destination.
