**NOTICE UNDER SECTION 11(2) OF THE ELECTRICITY ACT 1989**

The Gas and Electricity Markets Authority ("the Authority") hereby gives notice pursuant to section 11(2) of the Electricity Act 1989 ("the Act") as follows:

1. The Authority proposes to modify conditions of the transmission licence granted to The National Grid Company

- plc ("NGC") under section 6(1)(b) of the Act by amending Licence Conditions 1, 1A, 1B, 4, 4A, 4B, 4C, 4E and 4F and Schedule 3 and introducing new conditions to have the effect specified below.
2. The reasons why the Authority proposes to make these licence modifications and their effect were published by the Authority in four documents:
    - (a) *September 2000* - The transmission price control review of the National Grid Company from 2001: transmission asset owner - Final proposals ("the September 2000 Document"); and
    - (b) *August 2000* - Initial proposals for NGC's system operator incentive scheme under NETA - A consultation document and proposed licence modifications ("the August 2000 Document"); and
    - (c) *December 2000* - NGC system operator price control and incentives schemes under NETA - Final proposals ("the December 2000 Document"); and
    - (d) *February 2001* - The results of consultation papers on: Manifest Errors in the Balancing Mechanism Transactions, October 2000; and Special Provisions for Computing Systems Failures, November 2000; and The Treatment of Black Start Events Under the BSC, December 2000 - Conclusions paper ("the February 2001 document").
  3. In summary, the effect of the proposed licence modifications is as follows:
    - (a) to effect a split of the transmission business price control between the transmission asset owner ("TO") and system operator ("SO") functions of NGC (see the September 2000 Document, the August 2000 Document and the December 2000 Document);
    - (b) to introduce new price controls with effect from 1st April 2001 (see the September 2000 Document and the December 2000 Document);
    - (c) to introduce new incentives for the SO as part of the New Electricity Trading Arrangements ("NETA") (see August 2000 Document and December 2000 Document);
    - (d) to introduce new conditions on Financial Ringfencing (see September 2000 Document); and
    - (e) introduce new provisions relating to the treatment of manifest errors and special provisions in light of the consultation responses in the February 2001 Document.
  4. Currently, all the internal costs of NGC's transmission business are regulated by a single price control covering both the SO and TO role. In addition to the current price control, there are a series of incentive schemes on NGC relating to the external SO costs (e.g. contracts for ancillary services) that are incurred in operating the electricity system. Under each of these incentive schemes, a target level of costs is set. If actual costs are above/below the target, NGC pays/keeps a proportion of any difference.
  5. Under the current arrangements, NGC has four separate incentive schemes:
    - transmission services uplift (consisting of the cost of transmission constraints, response and reserve, black start and Ancillary Services Business overheads);
    - energy uplift (consisting of a number of costs including those associated with errors in demand forecasts, plant failures and shortfalls);
    - reactive power uplift (covering the costs of purchasing ancillary services required to maintain the security of the transmission system); and
    - the volume of transmission losses at a fixed reference price.
  6. The existing incentive schemes on external costs terminate when NETA is introduced. They cannot be extended when NETA comes in without being modified.
  7. Ofgem has proposed in the documents specified in paragraph 2 above that it would be desirable to limit the scope of the transmission business price control to the TO function, and to create separate incentives on the TO and SO costs. These new arrangements are designed to provide NGC with stronger incentives to operate both the TO and SO functions efficiently.
  8. In relation to the new proposals on manifest errors and special provisions, Ofgem has today published on its website a paper to further explain these modifications.
  9. A copy of the proposed licence modifications and other documents referred to in this notice are available (free of charge) from the Ofgem Library (Telephone 020-7901-1600) or on the Ofgem website (www.ofgem.gov.uk).
  10. Any representations or objections to the proposed licence modifications may be made on or before 19th March 2001 to: Justin Coombs Director, Transportation Regulation, Ofgem, 9 Millbank, London SW1P 3GE or by e-mail: justin.coombs@ofgem.gov.uk

The effect of this is that paragraphs 6 and 7 of Schedule 5 to the Act will apply to the trust deed. Briefly, this has the effect of restricting the rights of non-acceding creditors to do diligence (ie

to enforce court decrees for unpaid debts) against the debtor and confers certain protection upon the trust deed from being superseded by the sequestration of the debtor's estate.

**Bankruptcy (Scotland) Act 1985: Schedule 5, Paragraph 5(3)  
Trust Deed for Creditors by**

**CRYSTIN SLADE**

A Trust Deed has been granted by Crystin Slade, residing at 111 Haugh Road, Flat 2/2, Kelvingrove, Glasgow, G3 8TX conveying (to the extent specified in Section 5(4A) of the Bankruptcy (Scotland) Act 1985) her estate to me, Peter C Dean, Mazars Neville Russell, 90 St Vincent Street, Glasgow G2 5UB, as Trustee for the benefit of her creditors generally.

If a creditor wishes to object to the trust deed for the purposes of preventing it becoming a protected trust deed (see notes below on the objections required for that purpose) notification of such objection must be delivered in writing to the Trustee within 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette*.

Notes: The trust deed will become a protected trust deed unless within the period of 5 weeks of the date of publication of this Notice in *The Edinburgh Gazette* a majority in number or not less than one third in value of the creditors notify the Trustee in writing that they object to the trust deed and do not wish to accede to it. The effect of this is that paragraphs 6 and 7 of Schedule 5 to the Act will apply to the trust deed. Briefly, this has the effect of restricting the rights of non-acceding creditors to do diligence (ie to enforce court decrees for unpaid debts) against the debtor and confers certain protection upon the trust deed from being superseded by the sequestration of the debtor's estate.
