

refuse, or other matter or thing, is kept, so as to be a nuisance to, or injurious to the health of any person, or,

Where, upon any such premises (being a building used wholly or in part as a dwelling-house) or being premises underneath any such building, any animal is kept so as to be a nuisance or injurious to the health of any person ;

In each of the above recited cases, the owner or occupier, and persons having the care or ordering of such dwelling-house, or of the premises where the nuisance or matter injurious to health may be, shall cleanse, whitewash, or otherwise purify, as the case may require, such dwelling-house or building ; or abate or remove the nuisance or matter injurious to health as aforesaid, with all reasonable speed after the publication of these our Directions and Regulations, or after the nuisance or matter injurious to health shall have arisen.

VI. In case, by reason of poverty or otherwise, the occupier of any such dwelling-house or premises is unable to perform any works required by these Directions or Regulations ; such occupier shall give notice of such his inability to the Guardians of the Union or Parish comprising the place wherein the premises shall be situated.

VII. We authorize and require the Guardians aforesaid by themselves or by officers by them authorized in this behalf ;

To see to the execution of the Directions hereinbefore contained for the cleansing and purifying of dwelling-houses, and for the abatement and removal of nuisances and matters injurious to health, in every case in which there shall not be a Council or other Governing Body of a City or Borough, or Commissioners having jurisdiction for the removal of nuisances, or where such Council, Governing Body, or Commissioners, shall not cause to be effectually executed, such Directions ; and for that purpose,

To visit, from time to time, or cause to be visited, the several dwellings and places where there may be ground for believing that necessity will arise for executing such Directions :

VIII. And in every case in which, from the poverty of occupiers or otherwise, there may be default or delay in the cleansing or purifying of any such dwelling-house, or in the abatement or removal of any such nuisance or matter injurious to health, and the Medical Officer, or other person duly authorized as aforesaid, shall certify that the same requires immediate attention ; and in every case in which, from want of co-operation of the owners or occupiers, there is any default or delay in cleansing any such drain, ditch, watercourse, or gutter into which several dwellings or tenements may drain ;

We authorize and require such Guardians to cause such dwelling-houses to be cleansed and purified, and such drain, ditch, watercourse, or gutter, to be frequently and effectually cleansed, and such nuisance or matter injurious to health to be abated and removed respectively, and to do all acts, and provide all matters, and things, necessary for that purpose.

IX. And we do further authorize and require the Guardians to direct their Clerk to make out from the Register of Deaths or from the District Medical Relief Books, and from any public books or other sources from which information may be obtained within the Union, a list of places where epidemic, endemic, and contagious diseases have of late been frequent.

X. And we authorize and require such Guardians

to cause the Medical Officers employed by them, or specially appointed for the purpose, to visit the places, of which a list shall be made out as aforesaid, and all such neighbouring and other places within such Union or Parish as shall appear to such Medical Officers (from being under like circumstances with the places included in such list or otherwise) to require visitation or examination ;

XI. And each such Medical Officer shall, where it may be necessary, certify in writing to the Board of Guardians, and to the surveyors, trustees, occupiers, or others required to execute these Directions and Regulations, all such places as are in a state dangerous to health, or need frequent and effectual cleansing by way of preservation against disease, and such dwelling-houses as are in a filthy and unwholesome condition, and all such nuisances and matters injurious to health as ought to be abated, cleansed, and removed under these Regulations.

XII. And each such Medical Officer shall forthwith, upon any case of Cholera, or of Typhus, or other epidemic, endemic, and contagious diseases becoming known to him within the Parish, Union, or district under his visitation, report the same to the Board of Guardians.

XIII. And where it shall be certified to the Guardians by their Medical Officer or Officers, or where it shall otherwise sufficiently appear to such Guardians, that extraordinary medical aid is required for persons attacked or threatened by Cholera, or epidemic, endemic, or contagious disease, we authorize and require such Guardians to provide sufficient Medical aid, and in suitable places, such medicines as may be required within their respective Unions or Parishes for necessitous persons attacked by Cholera, or by premonitory symptoms, and to make arrangements for the distribution of notices, stating the places where aid and medicines shall have been provided.

XIV. Whereas it has heretofore been found impracticable to ensure proper treatment in their own houses to many of the poorer classes, we authorize and require the said Guardians, where it shall appear that such extraordinary aid is required, to provide suitable rooms or places, capable of accommodating necessitous cases, to which persons attacked by Cholera, who cannot be properly treated in their own houses, may be conveyed.

XV. And we also authorize and require the said Guardians, where it shall appear needful, to provide rooms or places of refuge to which may be removed the families of such necessitous persons as have been attacked with Cholera, and also such necessitous persons living under the same roof with, or in the vicinity of, persons so attacked, as the Medical Officers acting under the authority of the said Guardians may deem it necessary to remove ; and the houses, rooms, or dwellings, from which persons may have been so removed to the houses of refuge, shall be cleansed and purified by the owners or persons having the care or ordering thereof, or, in their default, by the said Guardians.

XVI. And on the occurrence of any case of Cholera or other epidemic, endemic, or contagious disease, in any room occupied by one family or more, we hereby authorize and require the Medical Officer to remove, or cause to be removed, either the patient, or so many of the occupants of such room as he shall consider would, unless removed, tend to prevent the recovery of the patient, or endanger the spreading of the disease.

XVII. And in case of death by Cholera, or any other epidemic, endemic, or contagious disease, we hereby authorize and require the last medical attendant upon the person of the deceased, or in case
