FRIDAY, SEPTEMBER 1, 1854.

ADMIRALTY, August 28, 1854,

DESPATCHES, of which the following are Copies or Extracts, have been received from Vice-Admiral Sir Charles Napier, K.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Baltic :—

No. 380.

*Bulldog, off Bomarsund,
August 19, 1854.*

I BEG to inclose a letter from Rear-Admiral Plumridge, who was stationed with the Hecla and the French steamer Cocyte (commanded by Lieutenant de Vaisseau A. Georgette du Buisson), on the north side of Bomarsund.

2. I had intended to have brought his squadron through the Presto Channel to have shelled the north side of Bomarsund, but when the breaching batteries were placed he could not take that station without endangering the men in the French batteries; he therefore very wisely took up a position so that he had the Presto Tower and Bomarsund in a line, and did good service against the Presto Tower, which I afterwards examined. He was rather too close, being within range of the enemy's fire, and received some damage, but no one was hurt.

3. The ships I stationed to the southward were out of range of the enemy's guns, and received no damage; but the shot and shells from the 10-inch guns, together with the fire from the four French mortars, which never missed, and the excellent fire from Captain Pelham's battery, together with the preparations the enemy saw in progress, I presume expedited the surrender.

4. Had the enemy held out till the following morning, when the breaching battery, judiciously placed by the French Engineer (General Niel) within 400 yards of the rear of the fort, and the ships the French and English Admirals intended to place in their flank, the fortress would have been reduced to ashes.

5. I have the honour of enclosing lists of the whole British Force landed, and of casualties, together with a list of prisoners and guns captured, being no less than 112 mounted, 3 mortars, 7 field pieces, and 79 not mounted.

6. The Commissioners are now taking an account of the stores, and they are preparing plans not only of the batteries in existence but of those in progress, which I shall send home as soon as possible.

7. This has been a most arduous and laborious service, and I have great reason to be satisfied

with the great exertions of all the officers, seamen, and marines, and their orderly conduct.

8. General Jones speaks in the highest terms of the conduct of Colonel Graham and his marines. The firing of the seamen and marines and marine artillery, under Captain Ramsay, was most precise; he himself was slightly wounded.

9. The shells thrown by the ships were most destructive, and had the fortress resisted till the following day, when all was ready on shore, they would have been irresistible.

I have, &c.,

CHAS. NAPIER,

Vice-Admiral and Commander-in-Chief.

The Secretary of the Admiralty.

No. 10.

RESPECTING OPERATIONS AT BOMARSUND.

*Her Majesty's Ship Blenheim, Bomarsund,
August 17, 1854.*

SIR,

It is with great pleasure that I have to report to you, for the information of the Commander-in-Chief, the exceeding good conduct and gallantry displayed by the officers and men under my command on shore at Blenheim Battery, during the attack on Bomarsund on the 15th and 16th instant, when under a very heavy fire of shell and shot during the greater part of this period.

All deserve the highest praise, and I name in the margin* the two officers and captain of gun.

I have, &c.,

FREDK. PELHAM,

Captain.

Rear-Admiral Henry D. Chads, C.B.

*Edinburgh, off Bomarsund,
August 18, 1854.*

Submitted for the consideration of the Commander-in-Chief.

H. D. CHADS,

Rear-Admiral.

Vice-Admiral Sir Charles Napier, K.C.B.

*Leopard, at Bomarsund,
August 17, 1854.*

SIR,

OBSERVING on the 16th instant the Presto Tower's fire was harassing the constructors of General Jones's battery, I moved (in obedience

* Fras. A. Close, Lieutenant; Leveson Wildman, Acting Mate; John Farrell, Chief Boats Mate and Captain of Gun.

to your orders) the Leopard, Hecla, and French steamer Cocyte into a delightful sequestered position, screened from observation by the trees on the neck of land to the eastward of the tower, having the great Bomarsund Fort and it in one, so that our over shot and shell should fall to the lot of Bomarsund.

The simultaneous opening fire from the three broadsides was the first intimation the tower inmates had of our movements, and I had the satisfaction of seeing (at times from aloft) the steadiness and precision with which the shot and shell were delivered from each vessel. I only regret that the trees alluded to obscured us all from your view, as I feel almost assured this bit of service would have been deemed worthy of better notice than it becomes me to give at so short a distance from your flag. It is however, Sir, my most gratifying duty to state, on behalf of the whole of the officers and ships' companies, that I entertain the most lively admiration of their exertions, as well as of the exemplary animation exhibited by Captains Hall and Giffard, and Lieutenant de Vaisseau A. Georgette de Buisson, of His Imperial Majesty's steam-vessel Cocyte.

I have &c.,

HANWAY PLUMRIDGE,
Rear-Admiral of the White.

*Vice-Admiral Sir Charles Napier, K.C.B.,
Commander-in-Chief, &c. &c. &c.*

*In Camp, Bomarsund, Aland Islands,
August 18, 1854.*

SIR,

I HAVE the honour to acquaint you that in compliance with your directions I landed at Bomarsund on the 8th instant, in command of a battalion of Royal Marines, and placed myself under the orders of Brigadier-General Jones, R. E., the general officer commanding the brigade.

The brigadier-general having, by a brigade order of yesterday's date, thanked the officers, non-commissioned officers and men of the Royal Marines under my command for their good conduct during the period they have been employed on shore, as also for the cheerful and willing manner in which they have performed the very laborious duties they were called upon to perform, and which has contributed so greatly to the successful results which have been obtained, I have only to bear my testimony to their zeal and steadiness in the performance of every duty allotted to them.

The artillery companies of the corps under the direction of Captain Ramsay, R. N., with Lieutenants Mawbey, Poore, and Hewett, R. M. A., performed their part well. The exactness and precision of their fire from the battery reflected great credit on the officers in command of the several guns.

The divisional companies were repeatedly exposed to a heavy fire of round and grape, as well as from the Minnie rifle; the casualties have been few, for which we have to be thankful to a Divine Providence.

I beg to bring to your favourable notice the zeal and energetic conduct of the two officers appointed by brigade orders of the 9th instant, to perform the duties of field officers, viz.—Major Nolloth and Captain Heriot, R. M.,—of my Brigade Major Captain W. C. P. Elliott, whose exertions in support of my orders call forth my warmest

I beg also to assure you that the captains of companies, subalterns, non-commissioned officers, and men did their duties in a manner highly satisfactory to me.

Lieutenant Fraser, R. M., acted as the adjutant, and Lieutenant Lennox as my orderly officer, and I have great pleasure in bringing them both under your favourable consideration as deserving officers, together with Assistant-Surgeon Daniel John Duigan, and the other medical officers employed under my orders, who evinced the greatest willingness and promptitude in the execution of their duties.

I have, &c.,

F. GRAHAM,
Colonel, Royal Marines, A.D.C., in
command of Brigade in Camp.

*Vice-Admiral Sir Charles Napier, K.C.B.,
&c., &c., Commander-in-Chief.*

*Head-Quarters, Bomarsund,
August 19, 1854.*

SIR,

I BEG leave to enclose a copy of a Brigade order which I directed to be issued previous to the seamen and marines who have been employed on shore returning to their respective ships, and it affords me great satisfaction to state that the discipline observed merits my warmest approbation; not a single complaint has been addressed to me on the part of the inhabitants against any individual of the force employed on shore under my orders.

I beg leave to bring to your notice the valuable assistance I have received from my Naval Aide-de-Camp the Honourable Ernest Cochrane, who has been most zealous and active in the discharge of the duties required of him, many of which have, in consequence of Lieut. Cowell's absence, from his wounds, partaken more of the military character.

Mr Cochrane is a young officer of great intelligence, and I beg leave to recommend him most strongly to your favourable notice, and to express a hope, should a force be again employed on shore, that I may have the benefit of his assistance.

I have, &c.,

HARRY D. JONES,
Brigadier-General.

*Vice-Admiral Sir Charles Napier,
&c. &c. &c.*

No. 396.

*Bulldog, off Bomarsund,
August 22, 1854.*

SIR,

I BEG to transmit their Lordships the enclosed letter I have received from General Baraguay d'Hilliers, expressing his satisfaction at the zealous manner in which Commander the Hon. Arthur Cochrane performed his duties during the time he was attached to the General's Staff.

Commander Cochrane was in the batteries throughout the operations of the siege of Bomarsund, and General Baraguay d'Hilliers has spoken to me in the highest terms of his conduct.

I have, &c.,

CHARLES NAPIER,
Vice-Admiral and Commander-in-Chief.

The Secretary of the Admiralty.

Bomarsund, le 20 Aout, 1854.

No. 380. **Brigade Orders.**
Camp, Bomarsund, August 17, 1854.

THE Brigadier-General cannot allow the force which he has had the honour to command during the operations against the forts of Bomarsund to re-embark without requesting the officers, seamen, non-commissioned officers and privates of the Royal Sappers and Miners and Royal Marines, to accept his thanks for their good conduct during the period they have been employed on shore, as also for the cheerful and willing manner in which they performed the very laborious duties which they were called upon to perform, and which has contributed so greatly to the successful results which have been obtained.

The excellence and precision of the fire from the two batteries was the admiration of every one who witnessed it, and reflects great credit upon the officers in command of the several guns.

Captain Ramsay, R.N., and Colonel Graham, Royal Marines, are requested to accept the Brigadier-General's thanks for the very able assistance they have afforded him during the period he has had the honour to have them under his command.

SIR,

*Bulldog, of Bomarsund,
August 19, 1854.*

I HAVE received their Lordships' letter of the 7th instant, approving of all my proceedings and their satisfaction at Admiral Plumridge's activity and judiciousness.

2. I owe much to Admiral Plumridge for the manner he placed his squadron to prevent re-inforcements being thrown in; and I am informed two Russian Admirals were sent among the islands to see if it were possible to pass the blockading squadron, and returned in despair.

Rear-Admiral Plumridge, as second in command, I have removed into the Neptune; Rear-Admiral Martin will hoist his flag on board the Leopard, and take charge of the Gulf of Bothnia, during the rest of the season, which will not be long.

*Board of Trade, Whitehall,
Marine Department, August 29, 1854.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, from Her Majesty's Acting Consul at Rotterdam, the following translations of Notices to Mariners, issued by the Netherland Minister of Marine, relative to certain changes that have taken place in the positions of buoys on the Dutch Coast.

(Copy.)

NOTICE TO MARINERS.

THE Minister of Marine gives notice, that two separately visible Beacons have been placed on the outer side of the Banjaard; viz:—

1st. An anchor buoy-shaped Beacon of the largest size, at about four cable lengths outside, or to the north-west of the steep point of the Banjaard, painted white, with a red top, and bearing

one ell above the same a half-round black-painted basket, in the following directions and soundings:—

The Beacon Light on the north side of Schonwen, in the centre of the Down of the Wester Doodkist; veere free of the Downs at the Schans; in the line of the Beacon Light of the Revolving Light of Schonwen E.S.E. rather E.; the Steeple of West Kapelle, S.S.W. $\frac{1}{2}$ W., in ten fathoms or seventeen ells depth at low water.

2d. A similar Beacon about half a German mile W.S.W. of the other, likewise painted white, with a red top, and bearing one ell above the same, a perfectly round red-painted ball, in soundings thus:—

The Light Beacon of the Revolving Light of Schonwen E. by S. rather South; the Steeple of West Kapelle S.S.W. $\frac{1}{4}$ W., in eight fathoms or 13.5 ells depth at low water.

The buoys are constantly floating; the tops are three, and the baskets fully four ells above the surface of the water, and with ordinary atmosphere are visible fully at a distance of one German mile, when they have the appearance of a small sailing-vessel with a flag at the top-mast.

By these objects, in connection with the Wreck Buoy outside of the Sea Gat of Bronwershaven, which has been exchanged for one of a larger size, together with the black anchor buoy-shaped Beacon with basket, lying at the western point of the Ooster, the dangerous point of the Banjaard and of the Ooster are pointed out by four very distinct large beacons, in regard to which it has to be observed that at which ever of the same observations be taken, by keeping an E.N.E. course, the dangers of the above bank will be avoided.

The compass marks are unadjusted.
