*Board of Trade, Whitehall,  
Marine Department, August 29, 1854.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, from Her Majesty's Acting Consul at Rotterdam, the following translations of Notices to Mariners, issued by the Netherland Minister of Marine, relative to certain changes that have taken place in the positions of buoys on the Dutch Coast.

#### NOTICE TO MARINERS.

THE Minister of Marine gives notice, that two separately visible Beacons have been placed on the outer side of the Banjaard; viz:—

1st. An anchor buoy-shaped Beacon of the largest size, at about four cable lengths outside, or to the north-west of the steep point of the Banjaard, painted white, with a red top, and bearing

one ell above the same a half-round black-painted basket, in the following directions and soundings:—

The Beacon Light on the north side of Schonwen, in the centre of the Down of the Wester Doodkist; veere free of the Downs at the Schans; in the line of the Beacon Light of the Revolving Light of Schonwen E.S.E. rather E.; the Steeple of West Kapelle, S.S.W.  $\frac{1}{2}$  W., in ten fathoms or seventeen ells depth at low water.

2d. A similar Beacon about half a German mile W.S.W. of the other, likewise painted white, with a red top, and bearing one ell above the same, a perfectly round red-painted ball, in soundings thus:—

The Light Beacon of the Revolving Light of Schonwen E. by S. rather South; the Steeple of West Kapelle S.S.W.  $\frac{1}{4}$  W., in eight fathoms or 13.5 ells depth at low water.

The buoys are constantly floating; the tops are three, and the baskets fully four ells above the surface of the water, and with ordinary atmosphere are visible fully at a distance of one German mile, when they have the appearance of a small sailing-vessel with a flag at the top-mast.

By these objects, in connection with the Wreck Buoy outside of the Sea Gat of Bronwershaven, which has been exchanged for one of a larger size, together with the black anchor buoy-shaped Beacon with basket, lying at the western point of the Ooster, the dangerous point of the Banjaard and of the Ooster are pointed out by four very distinct large beacons, in regard to which it has to be observed that at which ever of the same observations be taken, by keeping an E.N.E. course, the dangers of the above bank will be avoided.

The compass marks are unadjusted.

The Hague, 19th August 1854.

The Minister aforesaid,  
(Signed) T. ENSLIE.
