NOTICE TO MARINERS.

(No. 6.)—AUSTRALIA.—EAST COAST.

Light Vessel in Fitzroy River, Queensland.

The Port Master of the Colony of Queensland has given notice that, from the 31st day of October 1866, a light would be exhibited from a light vessel placed within and near the entrance of Fitzroy River, port of Rockhampton, Keppel Bay.

The light is a *fixed white* light, elevated 44 feet above the level of the sea, and in clear weather should be visible from a distance of 8 miles.

The vessel is moored in 7 fathoms water, and from her the Elbow buoy bears N.N.E. $\frac{1}{4}$ E., distant $4\frac{1}{2}$ cables.

Directions.—Vessels entering the port at night should bring this light to bear to the southward of S.S.W. before getting the two red lights at the pilot station in one (the light being visible from

the Timandra bank), which done, haul up to round the Timandra bank buoy. After passing Sea Hill point, steer to pass within a cable to the eastward of the light vessel; haul up close round to the southward of her and steer west (northerly), thus leaving the black buoy and the black beacon off Raglan point on the port hand, and passing about a cable to the southward of the large Mangrove island.

By passing to the southward of the light vessel, as above directed, not less than 15 feet depth of water will be found in the channel at low water springs.

Fixed Light on Lady Elliot Island.

Also that, from the 10th day of November 1866, a temporary light would be exhibited on Lady Elliot island, in Curtis Channel.

The light is a *fixed white* light, elevated 67 feet above the level of the sea, and in clear weather should be visible from a distance of 9 or 10 miles.

Fixed Lights at Pilot Stations.

The Superintendent of Pilots, Lights, and Harbours of New South Wales has given notice that, from the 1st day of December 1866, fixed lights would be exhibited from the Pilot stations at the following ports on the coast of New South Wales:—

- 1st. A *fixed white* light at Richmond river.
- 2d. A *fixed red* light at Clarence river.
- 3d. A *fixed white* light at Manning river.

These lights are placed in the vicinity of the stations in positions to give the greatest range to seaward.

They are visible from a distance of 6 to 8 miles.

[All bearings are magnetic. Variation $8^{\circ} 30'$ East, in 1867.]
