NOTICE TO MARINERS.

(No. 110.)—FRANCE.—NORTH COAST.

Flashing Light on Les Roche Douvres.

With reference to Notice to Mariners, No. 77, dated 15th August 1868, the French Government has given notice that, from the 15th day of December 1868, the light would be exhibited from the lighthouse on the Plateau des Roche Douvres, North Coast of France.

The light is a *flashing* white light, the eclipses succeeding each other *every five seconds*; it is elevated 144 feet above high water, and in clear weather should be seen from a distance of 14 miles.

The tower is iron, painted white, and 148 feet high; its position is in lat. 49° 6' 28" N., long. 2° 48' 54" West of Greenwich.

In consequence of the state of the weather the lighthouse has not been completed to its proposed height, and it is intended in the course of next year to raise the focus of the light to 180 feet above high water, when a more powerful illuminating apparatus will be substituted for the one at present in use.

By Command of their Lordships,

GEO. HENRY RICHARDS, Hydrographer.

Hydrographic Office, Admiralty, London,  
19th December 1868.

This Notice affects the following Admiralty Charts;—English Channel, Nos. 1598 and 2675*b*; North Coast of France, Sheet IX., No. 2668; and Thames to the Mediterranean, No. 1. Also, Channel Pilot, Part II., page 372.

NOTICE TO MARINERS.

(No. 111.)—MEDITERRANEAN.—DARDANELLES.

Buoys on Shoal off Chanak.

Information has been received that two *red* buoys have been placed to mark the position of a shoal lying in the bay to the north of Chanak, Dardanelles narrows.

The buoys are about 1½ cables from the shore, one off the Pratique Office, and the other 1½ cables further to the north-east.

Within these buoys there is but 8 feet water and a dangerous eddy current.

By Command of their Lordships,

GEO. HENRY RICHARDS, Hydrographer.

Hydrographic Office, Admiralty, London,

19th December 1868.

This Notice affects the following Admiralty Charts:—Dardanelles narrows, No. 2429; and Dardanelles entrance, No. 1608.
