CHAPTER I. THE DISCOVERY OF AMERICA.

The history of the United States begins with the discovery of America by Christopher Columbus in 1492. This event marked the beginning of European exploration and settlement in the Americas. The continent was named after Amerigo Vesputi, an Italian explorer who sailed with Columbus. The discovery led to the establishment of colonies and the eventual formation of the United States. The early years of the nation were characterized by westward expansion and the search for new lands and resources. The American Revolution in 1776 led to the birth of a new nation, and the subsequent years saw the growth and development of the United States as a major world power.
