To the PUBLICK.

Bruton-street, July 18, 1760.

THE Right Hon. the Lord Barrington, Secretary at War, having been pleased to communicate to me the following extract of a letter, I think it my duty to make it publick, for the sake of the inhabitants of very hot climates; and of those surgeons, and those committed to their care; and of those commanders and surgeons on board trading vessels, that are already furnished with my powder.—For the future proper instructions will be given in the printed directions.

If every one, to whom the care of my powder has been committed by their superiors, had been as diligent in observing, as judicious in applying, and as attentive to His Majesty's service as Mr. Browne, no doubt but some thousands of brave fellows might have survived to serve their King and country, that are now no more; a consideration of no small moment in this tedious and destructive war, perhaps rendered more so by the neglect of those, whom their superiors had furnished with every advantage to enable them to do their duty with effect.

R. JAMES.

To Doctor JAMES.

War-Office, July 17, 1760.

SIR,

I Send you inclosed the copy of an extract of a letter from Mr. Henry Browne, Surgeon to Colonel Coote's battalion; which I think it right to communicate to you, as it shews the great efficacy of your medicines, and as it may assist you in giving directions for accommodating the doses to very hot cli-

mates.—You are at liberty to make what use you please of this extract, which may be depended on as authentic. I am, Sir,  
Your most obedient, and  
most humble servant,  
BARRINGTON.

Extract of a letter from Mr. Henry Browne, surgeon of Colonel Coote's battalion, dated at Madras the 4th of Nov. 1759.

With the six companies that went out with us, we lost eighteen in the voyage, fifteen of them died of fevers. We had above forty fevers in the ship I was in. I used James's Powders with great success; we had but one died. When we were within twelve Degrees of the Line, or less, it was impracticable to use them as James, the evacuations were so great, that the patient could not bear them: I gave four or five grains, every three hours, which proved a powerful sudorific; the first dose generally vomited, or purged two or three times; By this treatment the fever left them in two or three days.

**DR. JAMES'S Powder for FEVERS,**  
and other Inflammatory Distempers, published by Virtue of His MAJESTY'S ROYAL LETTERS PATENT, will remove (as has been experienced in many thousand Cases) any continual acute Fever in a few Hours, though attended with Convulsions, Light-headedness, and the worst Symptoms: But if taken in the Beginning of a Fever, one Dose is generally sufficient to perform a Cure.

It is likewise a most effectual Remedy for all internal Inflammation, Pleurifies, Quincies, acute Rheumatisms, and the Lowness of Spirits, and Uneasinesses proceeding from slow and latent Fevers, which are generally mistaken for Vapours and Hysterics; it is extremely effectual in the Small Pox, Measles, and St. Anthony's Fire; and a single Dose remarkably stops the Progress of a Cold, and certainly prevents the ill Consequences arising from that very common Disorder, the Source of almost all Distempers.

This Powder (which is a very safe and pleasant Medicine to take) is sold by J. Newbery at the Bible and Sun in St. Paul's Church-yard, London; and by J. Hony, jun. in Skinner Row, Dublin; at 2s. 6d. the two Doses, with good Allowance to those who buy it for charitable Uses, or to sell again.

\* See a Dissertation on Fevers, and other Inflammatory Distempers, sold at the Places above-mentioned. Price 6d.
