Case of Lawrence Curtis, who was cured of a violent FEVER by taking Dr. JAMES'S POWDER.

S I R,

I Was led providentially with a Friend the 16th Instant, to Comb-hill, in the Parish of Leigh, about Seven Miles from Gloucester, where I called upon one Lawrence Curtis, an Innholder of that Place, who had been seized several Days before with a violent Fever. He was quite delirious, and was afflicted with such a violent Pain in his Bowels, that a Mortification must have been the Consequence in a short Time. As he had taken many Medicines from an Apothecary without Relief, I offered to give him Dr. James's Powders, which he readily accepted, and accordingly the next Day he took half a Paper, but that not having the desired Effect, he took another half Paper, which in an Hour's Time gave him three or four gentle Stools; and afterwards threw him into a strong Perspiration, particularly about his Bowels, where his Complaint chiefly lay; on the same Night he had a most refreshing Sleep for several Hours, which he had not before experienced for nine Days and Nights. On the 19th he took another half Paper, which brought on a profuse Perspiration, and he slept finely all Night. On the 21st I went to enquire how he was, when I was most agreeably surprized to hear that he was so strong and well as to ride to Tewkesbury (about four Miles from his own House) in order to buy some fresh Meat to eat, to which he had not the least Inclination a Fortnight before; and on the 23rd Instant, I called on the poor Man, and found him so well as to be able to go to Work.

I must, therefore, beg the Favour of you to publish the above Account; for the Benefit of Mankind; and I am, Sir,

Your most humble Servant,

HENRY WINDOVE,
Vicar of Staverton and Bodington.

Staverton, Aug. 31.

DR. JAMES'S Powder for FEVERS;
The Small Pox, Measles, Pleurisies, Quinsies, acute Rheumatisms, Colds, and all inflammatory Disorders, as well as for those which are called Nervous, Hypochondriac, and Hysteric, Price 2s. 6d. the Paper; with good Allowance to those who buy it for charitable Uses, or to sell again.

Experience having taught, that this Medicine, which is a safe and certain Cure for the above Disorders, is better prepared for Sea Service (and more convenient) in Bottles, than made up as usual in Marble Paper, the Commissioners, who have the Direction of the Medicines employed in the Navy, have ordered this Powder to be so preferred for the Use of all His Majesty's Ships of War, and a large Quantity is also made up in the same Manner for Merchants and Captains of Trading Ships, as well as for those who are any way concerned in Voyages, or the Sea Service.

This Medicine is sold only by J. Newbery, at the Bible and Sun in St. Paul's Church Yard; and by those who are empowered by him to sell it in the several Towns of Great Britain, Ireland, and the Colonies.

Of whom may he had,

Dr. James's Mild Powder for the Disorders above-mentioned, which is prepared from the same Materials as the other Powder, but so contrived as to have little or no sensible Operation, and upon that Account is the more proper for Women under certain Circumstances, Infants, and those whose Constitutions are extremely delicate. And it is more than probable that this Powder, by taking off the Arrimens, will prevent Pitting in the Small Pox. Price 2s. 6d.

This Day was published,

(Elegantly printed in Quarto, on a Royal Paper,
Price 5s. sewed)

A DISSERTATION on the PRINCIPLES of ELOQUENCE; with a particular Regard to the Style and Composition of the NEW TESTAMENT, in which the Right Rev. the Lord Bishop of GLOUCESTER'S OBSERVATIONS on this Subject, in his late Discourse on the DOCTRINE of GRACE, are distinctly considered; being the Substance of several Lectures read in the Oratory School of Trinity College, Dublin.
