

The States of the Lowr Saxony, at their last meeting at *Erunsvick*, resolved to send a Deputation on their part to *Nimeguen*, to take care of whatever may concern the particular interests of that Circle.

*Strasbourg, May 21.* The *Sieur de Monclat* having assembled what Troops he could, the 18th instant they marched with several pieces of Canon, under the command of the *Sieur de Li Roque*, towards *Lorrain*, to reinforce the *Mareschal de Crequi* who, as we are told, assembles a Body of Troops near *St. Diey*, and has at present in *Lorrain* an Army of about 20000 men. The Troops of the Circles that are to act in these parts, move very slowly, and, in all appearance, it will be the latter end of the next month before they are in a Body. *Saverin*, as we told you in our last, is now entirely demolished, and the *French* are retired from thence to *Schleisslast* and *Brisc*.

*Cologne, May 25.* The Country people quit their habitations, and retire with what they can take with them into places of strength, upon the march of the *Munster* Troops, whose disorderly way of living, puts all places they come near in great fear. The *Osnabrug* Troops do not yet stir. The *Marquis de los Balbases*, first Ambassador of *Spain*, is past through *Frankfort* on his way to *Nimeguen*; whether, it is said, the *Pope's Nuncio* that is here means likewise to repair.

*Amberden, May 28.* We have not as yet any account from the *Sieur Binches* of the Action at *Tobago*; but by the way of *England* we have the following List, as well of ours as of the *French* Ships that were in that Engagement, and of the loss sustained in it.

*List of the French Ships, commanded by the Count d'Estrees.*

It is added, that the two *French* Ships which are said to be taken, being extremely disabled, drove ashoar; and that the *Sieur Binche* thereupon sent off several Chaloups to take possession of them. The certainty of all we must expect to hear from the *Sieur Binche* himself.

*Hague, May 28.* The *Count de Horn*, General of the Artillery, having seen the Train of Artillery, consisting in 30 whole and half Cannon, together with the Amunition requisite, shipped at *Delfe*, is gone to the Army, which continues quartered as formerly. The *Positionary Fagel*, and the *Sieur Van Beverning*, are expected back here to morrow or next day, having

been to confer with his Highness at his quarters at *Boorum*. The Men of War that are sitting at *Amsterdam* for the *Baltick*, are ready to pass the *Pampus*; Lieutenant Admiral *Tromp* is returned by Land towards *Denmark*, his presence being necessary there in order to the halting the Men of War that are sitting at *Copenhagen*. Yesterday arrived here the *Sieur Geldermalsen* from *Ruermont*, whither he had been sent on part of the State, to confer with Lieutenant General *Spaen*, concerning the Body of an Army which is to be assembled in that Neighbourhood. Several *Brandenburgh* Regiments, and some of this State, are already arrived there; and those the Duke of *Neuburg*, the Bishop of *Osnaburg* and *Munster* are to send thither, are daily expected. Since our last, we have nothing new concerning the Duke of *Lorrain*.

*Sedan, May 26.* From *Meiz* of the 23. they write, that the Duke of *Lorrain* having repassed the *Moselle* at *Wasserbillich*, had encamped at *Taverne*; that afterwards he had likewise repassed the *Saar* at *Consrbruck*, where he joynd 6000 *Imperial* Troops, and with them advanced towards the Castles of *Serne* and *Dilling*; that the main Body of the *Imperial* Army advanced towards *Sarbruck* to joynd the Duke. That the *Mareschal de Crequi* very narrowly observed the motions of the Enemy, his Forces encamping from *Bongonville* as far as *Fouille*, his head quarter being within four miles of *Meiz*.

*Paris, May 29.* His Majesty having taken a review of his Forces, and given his orders for the operations of this Campagne, parted the 27th instant from the Army, which was then encamped at *Thulin*, and would from thence march to *Gembours* and *Picton*. The 28 his Majesty intended to be at *Cambrai*, the 29 at *Chaulnes*, the 30 at *Liancourt*, and the 31 at *Versailles*. Yesterday *Te Deum* was sung in our Cathedral Church for the Victory obtained by the Count d'Estrees over the Dutch at *Tobago* in the *West Indies*.

*Whitball, May 21.* This morning the Two Houses of Parliament met again at *Westminster*, pursuant to their late Adjournment.
