PEDOMETRICAL WATCH.

WHEREAS by the King's Royal Letters Patent, dated June 17, 1783, His Majesty has been graciously pleased to grant to John Fischer, of St. Martin's-lane, Middlesex, the sole Power of vending and selling a Geometrical and Pedometrical Watch, invented by the said John Fischer; This is to acquaint the Public, that John Fischer has, for a valuable Consideration, made over the said Letters Patent, together with all Rights and Titles in the said Patent, to Ralph Gout, of Norman-street, St. Luke's, Old-street, Watch-maker, where only they are to be had. If has appeared lately, that some unprincipled Person or Persons have imitated the said Watch and vended the same, to the great Detriment of the said Ralph Gout, this is to inform such Person or Persons, that if he or they presume to take such unjust Advantages, they shall be prosecuted to the utmost Severity of the Law. The superior Excellency of the Pedometrical Watch, exclusive of its Elegance and Size; consists in not only answering the Purposes of a common Watch, but points out also on the same Dial-plate what Number of Steps any Gentleman who wears it makes; and measures correctly the Distance he has travelled from one Place to another; and the Machinery of the Pedometer is entirely unconnected with the Watch, so that each Part moves without the Interference of the other. In short, by Means of this Watch a Gentleman may be able to measure any Bridge, Meadow, Forest, and his own Estate, merely by his Walking: It is of peculiar Utility to the Military Profession.
