

Most Gracious Sovereign,

WE, your Majesty's dutiful and loyal Subjects, the Protestant Dissenting Ministers in and about the Cities of London and Westminster, approach your Royal Presence with profound Respect to testify the Gratitude and Satisfaction which we feel on the Termination of the Calamities of War, and on the Restoration of Peace, not only to your Majesty's Dominions but to Europe in general.

We participate the Joy which your Majesty must have experienced on the present happy Occasion; and we are thankful for the Result of those Operations and Counsels which have produced Effects so interesting to our Country and the World.

We beg Leave to express our cordial Wishes that the Blessing of Peace may be uninterrupted; and that it may conduce to the Stability of your Majesty's Throne, to the Permanence of the British Constitution, and to the increasing Prosperity of every Part of the British Empire.

May your Majesty long enjoy the Satisfaction of witnessing the Union and Welfare of the Dominions over which you preside, and the Prevalence of true Religion and social Order, under the Influence of your salutary Counsels, through the various Nations of the Globe!

It is our earnest Wish that the Blessings which we possess under your Majesty's Administration may be preserved, by your Protection, to a distant Period, and transmitted with every Security and Increase of which they are capable to future Generations.

While it shall be our unremitting Endeavour to extend the Influence of the Gospel of Peace and Charity, both by our Instruction and Example, and thus to maintain the Attachment of those of your Majesty's Subjects with whom we are immediately connected to your Majesty's Person, Family, and Government, it will be our unfeigned and fervent Prayer that your valuable Life may be long continued; that when Providence removes you hence you may exchange an earthly for a celestial Crown; and that the Blessings which you have perpetuated may descend, in the illustrious Line of your Family, to the remotest Posterity.
