Ordnance, or by the Commissioners of His Majesty's Navy; nor to prevent any Ship or Vessel from taking or having on board such Quantities of Naval Stores as may be necessary for the Use of such Ship or Vessel during the Course of her intended Voyage, or by Licence from the Lord High Admiral of Great Britain, or the Commissioners of the Admiralty for the Time being; nor to the Exportation of the said several Articles to Ireland, or to His Majesty's Yards or Garrisons, or to His Majesty's Colonies and Plantations in America or the West Indies, or to Newfoundland, or to His Majesty's Forts and Settlements on the Coast of Africa, or to the Island of St. Helena, or to the British Settlements or Factories in the East Indies: Provided that upon the Exportation of any of the said Articles for the Purpose of Trade to Ireland, or to His Majesty's Yards and Garrisons, or to His Majesty's Colonies and Plantations in America or the West Indies, or to the Island of Newfoundland, or to His Majesty's Forts and Settlements on the Coast of Africa, or to the Island of St. Helena, or to the British Settlements or Factories in the East Indies, the Exporters of such Articles do first make Oath of the true Destination of the same to the Places for which they shall be entered outwards, before the Entry of the same shall be made, and do give full and sufficient Security, by Bond, (except as hereinafter excepted,) to the Satisfaction of the Commissioners of His Majesty's Customs, to carry the said Articles to the Places for which they are so entered outwards, and for the Purposes specified, and none other; and such Bond shall not be cancelled or delivered up until Proof be made to the Satisfaction of the said Commissioners, by the Production, within a Time to be fixed by the said Commissioners, and specified in the Bond, of a Certificate or Certificates, in such Form and Manner as shall be directed by the said Commissioners, shewing that the said Articles have been all duly landed at the Places for which they were entered outwards: But it is His Majesty's Pleasure, nevertheless, that the following Articles, viz. Bar-Iron, White and Tanned Rope, Tallow or Mill Grease, Tarpaulins for Waggon-Covers, Pitch, Tar, and Turpentine, shall be permitted to be exported, upon Payment of the proper Duties, without Bond being entered into by the Merchant Exporter, to

any of the British Plantations in the West Indies, or to any of His Majesty's Settlements in South America; provided the Merchant Exporter shall first verify, upon Oath, that the Articles so exported are intended for the Use of a particular Plantation or Settlement, to be named in the Entry Outwards, and not for Sale; and that the said Plantation or Settlement has not before been furnished with any Supply of the said Articles during the same Season; and provided also that the Exportation of the said Articles shall, in no Case, exceed the Value of Fifty Pounds Sterling for any given Plantation or Settlement, whether by one or more Shipments within the same Season: And the Right Honourable the Lords Commissioners of His Majesty's Treasury, the Commissioners for executing the Office of Lord High Admiral of Great Britain, and the Lord Warden of the Cinque Ports, are to give the necessary Directions herein as to them may respectively appertain.

AT the Court at the *Queen's Palace*, the 16th of May 1810,

P R E S E N T,

The KING's Most Excellent Majesty in Council.

WHEREAS the Time limited by His Majesty's Order in Council of the Twenty-second Day of November last, for prohibiting the Exportation out of this Kingdom, or carrying Coastwise, Gunpowder or Salt-Petre, or any Sort of Arms or Ammunition, will expire upon the Sixth Day of June next: And whereas it is judged expedient for His Majesty's Service, and the Safety of this Kingdom, that the said Prohibition should be continued for some Time longer, His Majesty doth therefore, by and with the Advice of His Privy Council, hereby order, require, prohibit, and command, that no Person or Persons whatsoever, (except the Master-General of the Ordnance for His Majesty's Service,) do at any Time, during the Space of Six Months, to commence from the said Sixth Day of June next, presume to transport into any Parts out of this Kingdom, or carry Coastwise, any Gunpowder or Salt-Petre, or any Sort of Arms or Ammunition, or ship or lade any Gunpowder or Salt-Petre, or any Sort of Arms or Ammunition, on board any Ship or Vessel, in order to transporting the same into any Parts beyond the Seas, or carrying the same Coastwise, without Leave or Permission in that Behalf first obtained from His Majesty or His Privy Council, upon Pain of incurring and suffering the respective Forfeitures and Penalties inflicted by an Act, passed in the Twenty-ninth Year of His late Majesty's Reign, intituled "An Act to empower His Majesty to prohibit the Exportation of Salt-Petre, and to enforce the Law for empowering His Majesty to prohibit the Exportation of Gunpowder, or any Sort of Arms or Ammunition; and also to empower His Majesty to restrain the carrying Coastwise of Salt-Petre, Gunpowder, or any Sort of Arms or Ammunition:"—And the Right Honorable the Lords Commissioners of His Majesty's Treasury, the Commissioners for executing the Office of Lord High Admiral of Great Britain, the Lord Warden of the Cinque Ports, the Master-General and the rest of the principal Officers of the Ordnance, and His Majesty's Secretary at War, are to give the necessary Directions herein, as to them may respectively appertain.

W. Lawkener.

THE following Address has been transmitted to His Majesty's Principal Secretary of State for the Home Department, and has been presented by him to the King; His Majesty was pleased to receive it in the most gracious Manner.

To the KING's Most Excellent Majesty.

May it please Your Majesty,

WE, Your Majesty's most dutiful and loyal Subjects, the Mayor, Justice, Recorder, Vicar, Burgesses, and other Inhabitants of the Town, Borough, and Parish of Okehampton, cannot omit the Opportunity, which the present Situation of foreign and domestic Politics affords, of humbly approaching Your Majesty with our sincere and heartfelt Assurances of Loyalty and Attachment to Your Majesty's Person and Family.

We cannot observe, without the utmost Concern and Indignation, the Attempts of mischievous and misguided Men to bring the Decisions of the Legislature into Contempt, which, by sapping the Foundation of the happy System of Legislation, which cost our Ancestors such Exertions and so much Blood to erect, may eventually enable them to effect the overthrow of that splendid Fabric of human Policy, the British Constitution; which is not only the purest Form of Government that ever existed, and the most fortunate to live under, but far surpasses any Thing which the Ingenuity of individual Invention could have conceived, or the most sanguine Friend of rational Freedom could ever hope to see realized.

Under the specious Pretext of defending our Liberties, we are called upon to sanction such Innovations upon the Constitution as would endanger our Religion, our Liberties, and our Laws.—We trust, however, that the good Sense of the British Nation will enable them clearly to see through these Designs, and that by giving their decided Support to the Constitution as by Law established, they will effectually protect it from the Attacks of foreign as well as domestic Enemies.

We beg, therefore, to assure Your Majesty, that we feel perfect Confidence in the Wisdom of Parliament, and in the recent Assurance that Your Majesty will not be wanting in the Discharge of Your Duty to preserve domestic Peace and Tranquillity under the Protection of the Law.

That the Blessings of the British Constitution may be transmitted unimpaired to Posterity, and that Your Majesty and Your illustrious Descendants, imitating Your Virtues, may long continue to reign over this happy and free People will ever be the Prayer of Your Majesty's most dutiful and loyal Subjects.

Navy-Office, June 25, 1810.

THE Principal Officers and Commissioners of His Majesty's Navy hereby give Notice, that a Plan of Education has been established, at the Royal Naval College at His Majesty's Dock-Yard at Portsmouth, for a Superior Class of Apprentices to Shipwrights.

That the Number of Students in the Superior Class of Shipwrights' Apprentices shall, in the first Instance, be limited to Twelve, but will gradually be increased to Twenty-five. The period of Apprenticeship shall be Seven Years, but for a Student who may have previously served in the Inferior Class of Apprentices in His Majesty's Yards for the Space of Two Years, it shall be only Six Years, and only Five Years for a Student who may have previously served in the said Class for the Space of Three Years.

An Instructor in the Theory of Naval Architecture will be added to the present Establishment of the Royal Naval College, to assist particularly in the Instruction of this Class of Apprentices.

The Candidates for Admission must produce Certificates from two respectable Physicians or Surgeons that they are of sound Health and Constitution, and likewise Proof from the Register of the Parish in which they were born, of their being at least Fifteen, and not more than Seventeen Years of Age, excepting Candidates from among the Shipwrights' Apprentices of the Yard, who may be admitted if they shall not have served more than Three Years of their Time. Candidates shall be examined on the first Wednesday in November in each Year, by the Professor of the Royal Naval College, assisted by the Instructor in the Theory of Naval Architecture, in the Presence of the Commissioner of the Yard, the Lieutenant Governor of the College, and Master Shipwright, who shall jointly report the Result of the Examination to the Lords Commissioners of the Admiralty, carefully inserting the Names of the Candidates in Succession according to their respective Merits.

The following shall be the Subjects of Examination, with which every successful Candidate must be perfectly acquainted.

1st. Reading English, and writing it with Facility from Dictation.

2d. The first Four Rules of Arithmetic; and the

Rule of Three in whole Numbers, and also in Vulgar and Decimal Fractions.

3d. The first Three Books of Euclid's Elements by R. Simson, with the Exception of Propositions 42, 44, 45, Book I. and of Propositions 8, 9, 10, 11, 14, Book II. In this Part of the Examinations, besides giving the most precise Demonstrations, the Candidates will be expected to make the Constructions in a practical Manner with Compasses and a Ruler.

4th. The French Language, a Knowledge of which, although not absolutely required in the Candidates who may present themselves at the first Examination which is to be held, will nevertheless give a Preference to those who are in all other Respects equally qualified; at all subsequent Examinations, however, the Candidates will be required to read and translate French with Facility.

After Admission into the Superior Class, the Apprentices shall attend at the Royal Naval College Three or Four Hours on the Mornings of every Day in the Week, except Sunday and the established Holidays, where they shall be instructed in such Parts of the following Subjects as shall appear to the Professor of the College to be best adapted to the Object of the Establishment, viz. the Formation of able and useful Ship Builders:

Geometry	Fluxions
Algebra	Theory of Naval Architecture.
Plane Trigonometry	Drawing
Mechanics	The French Language.
Hydrostatics.	

On Mondays, Tuesdays, and Wednesdays, the Apprentices shall be employed at the College during the Hours above-mentioned, in the Study of Mathematics, under the Professor or the Instructor; on Thursday and Friday Mornings in Drawing, under the Drawing Master, the Art of Perspective being most particularly applied in drawing the different Parts of a Ship; and the Morning of Saturday shall be appropriated to the Study of such Books and Exercises in the French Language, under the French Master, as may perfect them therein, and at the same Time advance their professional Knowledge. This Division of Time allotted for their Studies, is, however, to be subject to such Alterations as shall

appear to the Professor best calculated for promoting the Object of the Institution.

In the remaining Part of the Day, when not attending at the College, they shall be employed under the Master Shipwright or Instructor of Naval Architecture, in the Mould Loft, in the various Kinds of manual Labour connected with Ship-building; in the Acquirement of a complete Knowledge of the different Parts of a Ship, and of the Method of constructing and fastening the same, as well as in discriminating her different Properties deducible from theoretical Calculations; also in the Management and Conversion of Timber, and generally, in such other Manner as the Master Shipwright may consider as best adapted to make them fully acquainted with all the Detail of the Duties of a practical Shipwright.

To ensure the Punishment of Offences committed by them during their Attendance at the College, a Book shall be kept by the Instructor, in which such Offences shall be entered; and at the End of each Week, or oftener if there be Occasion, this Book shall be sent to the Office of the Commissioner, who will order such Punishment to be inflicted, as may be conformable to the usual Treatment of Apprentices in the Dock-Yard.

And at the End of each Year, a Public Examination shall take place, in the Presence of the Officers mentioned in the 3d Article, and a general Statement of the Improvement of the respective Apprentices in the theoretical Part of their Profession, shall be transmitted by the Professor of the College, and of their Progress in the practical Part by the Master Shipwright, through the Commissioner of the Dock-Yard, to the Admiralty-Office; to the End that, if it shall appear that an Apprentice has particularly distinguished himself in any of the Departments of his Profession, the Lords Commissioners of the Admiralty may confer on him such Mark of their Approbation, as their Lordships may deem expedient.

The last Year of their Apprenticeship, or such Part thereof as the Lords Commissioners of the Admiralty may think proper, shall be served at Sea, in such of His Majesty's Ships as their Lordships shall direct, with a view of obtaining some practical Knowledge in the steering, sailing, trimming, and ballasting of a Ship, in making Remarks on the Motion and working of a Ship, in all her Parts, in bad Weather, and on a high Sea, the standing and straining of the Masts and Yards under such Circumstances, the placing of the fixed Blocks, with a view to the proper leading of Ropes, &c. and, generally, in obtaining such Information, as the Captain, Carpenter, and other Officers of the Ship may, by their Experience, communicate, and such as their own Observations may suggest.

During the Time that such an Apprentice shall be on board a Ship, he will be required to keep a Journal of his Remarks and Observations, arranged under distinct Heads, noting such Improvements in any Part of the Ship, or any Thing connected therewith, as may suggest themselves to him, from a minute Attention to the Circumstances by which a Ship is affected at Sea; a Copy of which Journal is to be transmitted to the Admiralty.

A Cabin or Berth will be allotted to him in the Gun Room, or in some other suitable Part of the Ship; he shall mess with some of the Officers, and be treated in all respects as a Gentleman,

Salaries to be allowed Apprentices of the Superior Class.

If the Apprentice shall not have served Two Years in the Inferior Class.	If the Apprentice shall have served Two Years in that Class.	If the Apprentice shall have served Three Years in that Class.	Sum

2d Year	1st Year		70

Upon their Return from Sea, until they can be appointed Officers in consequence of Vacancies having occurred, they shall be employed as Overseers of Ships building, in assisting the Master Shipwrights in the different Yards, and their Assistants or Foremen; in the Mould Loft, under the Timber Master, or in any other Situation in which the Master Shipwright may have Occasion to employ them, with the Approbation of the Commissioner; during that Interval they shall have 150l. per Annum, and if such Vacancies should not happen for Three Years after their Return, they shall then have 180l. per Annum until they be provided for.

In order that the Services of young Men, whose Education has been obtained at a considerable Expence to Government, may not be lost on the Expiration of their Apprenticeship, they shall each of them, previously to their Entry in the Yard, be required to find two Sureties, to enter into Bond to the Amount of 500l. and in the Event of an Apprentice being discharged for Misconduct, the Amount of the Bond, or so much of it as may indemnify Government for the Expence incurred in his Education, shall be forfeited.

The Object of this Institution is to improve the Qualifications of the Shipwrights in the Dock-Yards, and thereby to ensure a Succession of Artificers, from among whom Officers of the Description of Master Measurers, Foremen, &c. will be selected, and from those the Appointments of the Superior Officers in His Majesty's Dock-Yards, and Surveyors of the Navy, will ultimately be made.

The Day of Examination is fixed for the First Wednesday in November next (7th November 1810). A certain Number of Apprentices now in the Dock-Yards are to be excused from manual Labour, to prepare themselves for the Examination; and this public Notice of the Qualifications expected from those who intend to become Candidates, and of the Day on which such Candidates will be examined, is given, in order that the Number to be entered in the Superior Class of Apprentices (which in the First Year is to be limited to Twelve) may be selected from those best qualified, whether belonging to the Dock Yard or not.

Such Persons of the Description before mentioned, who may be desirous of becoming Candidates for Admission to the Superior Class of Apprentices to belong to His Majesty's Dock-Yard at Portsmouth, are therefore hereby informed, that they will be required to send Notice of their Intention to the Navy Board, or the Commissioner of His Majesty's Dock Yard at Portsmouth, on the 24th of October 1810, and they must be prepared with every Document and Qualification mentioned in this Advertisement, and be at Portsmouth Dock-Yard at Eight o'Clock on the Morning of the

Day of Examination, viz. 7th November 1810, and wait for further Directions from the Commissioner for their Proceedings.
