P R E S E N T,

The KING's Most Excellent Majesty in Council.

But it is nevertheless His Majesty's Pleasure, that nothing herein contained shall extend, or be construed to extend, to any of His Majesty's Ships of War, or any other Ships or Vessels or Boats in the Service of His Majesty, or employed or freighted by His Majesty's Board of

Ordinance, or by the Commissioners of His Majesty's Navy; nor to prevent any Ship or Vessel from taking or having on board such Quantities of Naval Stores as may be necessary for the Use of such Ship or Vessel during the Course of her intended Voyage, or by Licence from the Lord High Admiral of Great Britain, or the Commissioners of the Admiralty for the Time being; nor to the Exportation of the said several Articles to Ireland, or to His Majesty's Yards or Garrisons, or to His Majesty's Colonies and Plantations in America or the West Indies, or to Newfoundland, or to His Majesty's Forts and Settlements on the Coast of Africa, or to the Island of St. Helena, or to the British Settlements or Factories in the East Indies: Provided that upon the Exportation of any of the said Articles for the Purpose of Trade to Ireland, or to His Majesty's Yards and Garrisons, or to His Majesty's Colonies and Plantations in America or the West Indies, or to the Island of Newfoundland, or to His Majesty's Forts and Settlements on the Coast of Africa, or to the Island of St. Helena, or to the British Settlements or Factories in the East Indies, the Exporters of such Articles do first make Oath of the true Destination of the same to the Places for which they shall be entered outwards, before the Entry of the same shall be made, and do give full and sufficient Security, by Bond, (except as hereinafter excepted,) to the Satisfaction of the Commissioners of His Majesty's Customs, to carry the said Articles to the Places for which they are so entered outwards, and for the Purposes specified, and none other; and such Bond shall not be cancelled or delivered up until Proof be made to the Satisfaction of the said Commissioners, by the Production, within a Time to be fixed by the said Commissioners, and specified in the Bond, of a Certificate or Certificates, in such Form and Manner as shall be directed by the said Commissioners, shewing that the said Articles have been all duly landed at the Places for which they were entered outwards: But it is His Majesty's Pleasure, nevertheless, that the following Articles, viz. Bar-Iron, White and Tarr'd Rope, Tallow or Mill Grease, Tarpaulins for Waggon-Covers, Pitch, Tar, and Turpentine, shall be permitted to be exported, upon Payment of the proper Duties, without Bond being entered into by the Merchant Exporter, to

any of the British Plantations in the West Indies, or to any of His Majesty's Settlements in South America; provided the Merchant Exporter shall first verify, upon Oath, that the Articles so exported are intended for the Use of a particular Plantation or Settlement, to be named in the Entry Outwards, and not for Sale; and that the said Plantation or Settlement has not before been furnished with any Supply of the said Articles during the same Season; and provided also that the Exportation of the said Articles shall, in no Case, exceed the Value of Fifty Pounds Sterling for any given Plantation or Settlement, whether by one or more Shipments within the same Season: And the Right Honourable the Lords Commissioners of His Majesty's Treasury, the Commissioners for executing the Office of Lord High Admiral of Great Britain, and the Lord Warden of the Cinque Ports, are to give the necessary Directions herein as to them may respectively appertain.

County of Buckingham, occupied by Mr. John Smith; and adjoining to an uninhabited Dwelling-House, was discovered to be on Fire, and that the same was entirely burnt down; and whereas in the Night of the following Wednesday the 4th Instant, about Twelve o'Clock, the said Dwelling-House was discovered to be on Fire, by which it was nearly consumed, and that there is every Reason to suppose the same were wilfully and maliciously set on Fire;

His Majesty, for the better apprehending and bringing to Justice the Persons concerned in the Felonies above-mentioned, is hereby pleased to promise His most gracious Pardon to any one of them (except the Person who actually set Fire to the said Barn and Dwelling-House) who shall discover his or their Accomplice or Accomplices therein, so that he, she, or they may be apprehended and convicted thereof. R. RYDER.

And, as a further Encouragement, a Reward of ONE HUNDRED POUNDS is hereby offered to any Person making such Discovery as aforesaid, (except as is before excepted,) to be paid on the Conviction of any one or more of the Offenders, by Messrs. Grover and Smith, Solicitors, at Hemel Hempstead.

Navy-Office, June 25, 1810.

THE Principal Officers and Commissioners of His Majesty's Navy hereby give Notice, that a Plan of Education has been established, at the Royal Naval College at His Majesty's Dock-Yard at Portsmouth, for a Superior Class of Apprentices to Shipwrights.

That the Number of Students in the Superior Class of Shipwrights' Apprentices shall, in the first Instance, be limited to Twelve, but will gradually be increased to Twenty-five. The period of Apprenticeship shall be Seven Years, but for a Student who may have previously served in the Inferior Class of Apprentices in His Majesty's Yards for the Space of Two Years, it shall be only Six Years, and only Five Years for a Student who may have previously served in the said Class for the Space of Three Years.

An Instructor in the Theory of Naval Architecture will be added to the present Establishment of the Royal Naval College, to assist particularly in the Instruction of this Class of Apprentices.

The Candidates for Admission must produce Certificates from two respectable Physicians or Surgeons that they are of sound Health and Constitution, and likewise Proof from the Register of the Parish in which they were born, of their being at least Fifteen, and not more than Seventeen Years of Age, excepting Candidates from among the Shipwrights' Apprentices of the Yard, who may be admitted if they shall not have served more than Three Years of their Time. Candidates shall be examined on the first Wednesday in November in each Year, by the Professor of the Royal Naval College, assisted by the Instructor in the Theory of Naval Architecture, in the Presence of the Commissioner of the Yard, the Lieutenant Governor of the College, and Master Shipwright, who shall jointly report the Result of the Examination to the Lords Commissioners of the Admiralty, carefully inserting the Names of the Candidates in Succession according to their respective Merits.

The following shall be the Subjects of Examination, with which every successful Candidate must be perfectly acquainted.

- 1st. Reading English, and writing it with Facility from Dictation.
- 2d. The first Four Rules of Arithmetic, and the Rule of Three in whole Numbers, and also in Vulgar and Decimal Fractions.
- 3d. The first Three Books of Euclid's Elements by R. Simson; with the Exception of Propositions 42, 44, 45, Book I. and of Propositions 8, 9, 10, 11, 14, Book II. In this Part of the Examinations, besides giving the most precise Demonstrations, the Candidates will be expected to make the Constructions in a practical Manner with Compasses and a Ruler.
- 4th. The French Language, a Knowledge of which, although not absolutely required in the Candidates who may present themselves at the first Examination which is to be held, will nevertheless give a Preference to those, who are in all other Respects equally qualified; at all subsequent Examinations, however, the Candidates will be required to read and translate French with Facility.

After Admission into the Superior Class, the Apprentices shall attend at the Royal Naval College Three or Four Hours on the Mornings of every Day in the Week, except Sunday and the established Holidays, where they shall be instructed in such Parts of the following Subjects as shall appear to the Professor of the College to be best adapted to the Object of the Establishment, viz. the Formation of able and useful Ship Builders :

Geometry	Fluxions
Algebra	Theory of Naval Architecture.
Plane Trigonometry	Drawing
Mechanics	The French Language.
Hydrostatics.	

On Mondays, Tuesdays, and Wednesdays, the Apprentices shall be employed at the College during the Hours above-mentioned, in the Study of Mathematics, under the Professor or the Instructor; on Thursday and Friday Mornings in Drawing, under the Drawing Master, the Art of Perspective being most particularly applied in drawing the different Parts of a Ship; and the Morning of Saturday shall be appropriated to the Study of such Books and Exercises in the French Language, under the French Master, as may perfect them therein, and at the same Time advance their professional Knowledge. This Division of Time allotted for their Studies, is, however, to be subject to such Alterations as shall appear to the Professor best calculated for promoting the Object of the Institution.

In the remaining Part of the Day, when not attending at the College, they shall be employed under the Master Shipwright or Instructor of Naval Architecture, in the Mould Loft, in the various Kinds of manual Labour connected with Ship-building; in the Acquirement of a complete Knowledge of the different Parts of a Ship, and of the Method of constructing and fastening the same, as well as in discriminating her different Properties deducible from theoretical Calculations; also in the Management and Conversion of Timber, and generally, in such other Manner as the Master Shipwright may consider as best adapted to make them fully acquainted with all the Detail of the Duties of a practical Shipwright.

To ensure the Punishment of Offences committed

by them during their Attendance at the College, a Book shall be kept by the Instructor, in which such Offences shall be entered; and at the End of each Week, or oftener if there be Occasion, this Book shall be sent to the Office of the Commissioner, who will order such Punishment to be inflicted, as may be conformable to the usual Treatment of Apprentices in the Dock-Yard.

And at the End of each Year, a Public Examination shall take place, in the Presence of the Officers mentioned in the 3d Article, and a general Statement of the Improvement of the respective Apprentices in the theoretical Part of their Profession, shall be transmitted by the Professor of the College, and of their Progress in the practical Part by the Master Shipwright, through the Commissioner of the Dock-Yard, to the Admiralty Office; to the End that, if it shall appear that an Apprentice has particularly distinguished himself in any of the Departments of his Profession, the Lords Commissioners of the Admiralty may confer on him such Mark of their Approbation, as their Lordships may deem expedient.

The last Year of their Apprenticeship, or such Part thereof as the Lords Commissioners of the Admiralty may think proper, shall be served at Sea, in such of His Majesty's Ships as their Lordships shall direct, with a view of obtaining some practical Knowledge in the steering, sailing, trimming, and ballasting of a Ship, in making Remarks on the Motion and working of a Ship, in all her Parts, in bad Weather, and on a high Sea, the standing and straining of the Masts and Yards under such Circumstances, the placing of the fixed Blocks, with a view to the proper leading of Ropes, &c. and, generally, in obtaining such Information, as the Captain, Carpenter, and other Officers of the Ship may, by their Experience, communicate, and such as their own Observations may suggest.

During the Time that such an Apprentice shall be on board a Ship, he will be required to keep a Journal of his Remarks and Observations, arranged under distinct Heads, noting such Improvements in any Part of the Ship, or any Thing connected therewith, as may suggest themselves to him, from a minute Attention to the Circumstances by which a Ship is affected at Sea; a Copy of which Journal is to be transmitted to the Admiralty.

A Cabin or Berth will be allotted to him in the Gun-Room, or in some other suitable Part of the Ship; he shall mess with some of the Officers, and be treated in all respects as a Gentleman.

*Salaries to be allowed Apprentices of the Superior Class.*

If the Apprentice shall not have served Two Years in the Inferior Class.	If the Apprentice shall have served Two Years in that Class.	If the Apprentice shall have served Three Years in that Class.	Sum.
1st Year			60
2d Year	1st Year		70
3d Year	2d Year	1st Year	80
4th Year	3d Year	2d Year	90
5th Year	4th Year	3d Year	100
6th Year	5th Year	4th Year	110
7th Year	6th Year	5th Year	130

Upon their Return from Sea, until they can be appointed Officers in consequence of Vacancies having occurred, they shall be employed as Overseers of

Ships building, in assisting the Master Shipwrights in the different Yards, and their Assistants or Foremen; in the Mould Loft, under the Timber Master, or in any other Situation in which the Master Shipwright may have Occasion to employ them, with the Approbation of the Commissioner; during that Interval they shall have 15ol. per Annum, and if such Vacancies should not happen for Three Years after their Return, they shall then have 18ol. per Annum until they be provided for.

In order that the Services of young Men, whose Education has been obtained at a considerable Expence to Government, may not be lost on the Expiration of their Apprenticeship, they shall each of them, previously to their Entry in the Yard, be required to find two Sureties, to enter into Bond to the Amount of 500l. and in the Event of an Apprentice being discharged for Misconduct, the Amount of the Bond, or so much of it as may indemnify Government for the Expence incurred in his Education, shall be forfeited.
