Admiralty-Office, April 4, 1814.

LIEUTENANT Collins, Flag-Lieutenant to Rear-Admiral Penrose, arrived here this morning, with a letter from Admiral Lord Keith to John Wilson Croker, Esq. transmitting one to his Lordship from the Rear-Admiral, dated in the Gironde, Point of Talmout, E. S. E. about three miles, the 27th of March, giving an account of his having that day entered the river, and proceeded up to that anchorage with His Majesty's ship *Egmont*, the *Andromache* and *Belle Poule* frigates, and some smaller vessels, after receiving the fire of some forts and batteries at the mouth of the river, but without sustaining any loss from it.

On approaching Point Coubre, the enemy's line of battle ship *Regulus*, with three brigs of war, and some *chasse marées*, were discovered preparing

to weigh from off Royan. The squadron gave chase to those vessels as high as the shoal of Tal-mont, where the Regulus and the brigs passed up through the very narrow channel to the north, apparently buoyed for the purpose, under protection of the strong batteries on each side the bay of Tal-mont; and the British squadron anchored outside the shoal.

The Rear-Admiral highly commends the exertions of the officers under his orders, in successfully passing through the dangers of the navigation.

Admiralty-Office, April 5, 1814.

THE following are the Articles of Capitulation, referred to in Captain Hoste's letter, which appeared in the Gazette of the 2d instant.

(Translation.)

I, General of Brigade, Baron of the Empire, commanding the troops of His Majesty Napoleon, Emperor of the French, King of Italy, &c. in garrison at Cattaro, wishing to treat with the Commander of the troops of His Britannic Majesty, besieging this place, have appointed for that purpose, (conformably with the 112th article of the 4th chapter of the State of Siege,) Messrs. Fousche, Captain, commanding the artillery, and Rameaux, my Aide-de-Camp, to propose to the said Commander the following articles for the surrender of the place, viz.

Art. I. The place of Cattaro and fort St. John shall be given up to the troops of His Britannic Majesty on the 10th of the present month of January.

Answer—The place of Cattaro and fort St. John shall be given up to the troops of His Britannic Majesty on the 8th of the present month of January.

Art. II. The troops of His Majesty the Emperor Napoleon, forming the garrison of Cattaro, shall march out of the place through the Marine Gate, with military honours, arms, and baggage. The officers will keep their arms.

Answer—The troops of the garrison of Cattaro shall march out of the place through the Marine Gate, with all military honours, arms, baggage, (the officers will keep their's,) and shall be embarked on board transport vessels, provided for the purpose, and conveyed to a port in Italy, to be considered as prisoners of war, and not to serve against Great Britain, or her Allies, until regularly exchanged.

Art. III. The troops of the garrison shall be embarked on board His Britannic Majesty's ships of war, and conveyed to Venice or Ancona, or any other part of the kingdom of Italy, at the expence of the British Government.

Answer—Ancona and Venice, being in a state of siege, the garrison cannot be landed there, but the General may choose some other port between Ancona and Brindisi.

(The garrison is to be conveyed to Fermo.)

Art. IV. The sick who may be fit for removal, shall be embarked on board the same vessels as the garrison.

Those who may remain in the Hospital, shall be treated with care and humanity; they are recommended to the generosity of the British Government: and as soon as they shall recover, they shall be conveyed to Venice or Ancona, at the expence of the British Government.

Answer—Granted in every respect: when recovered they shall share the fate of the garrison.

Art. V. The military and the employés, whether of the land or naval services, subjects of His Majesty the Emperor Napoleon, taken either at Castel Novo, Perasto, Isle St. George, Budua, or Fort Trinity, or in the armed vessels, and who are still in the province of Cattaro, shall be united with the garrison and share its fate.

Answer—Granted.

Art. VI. The subalterus and soldiers shall keep their knapsacks; and the officers their effects, which shall be put on board the same vessels with themselves. The trunks, chests, and portmanteaus, shall not be visited.

Answer—Granted; with an understanding that no breach of private property or the Government magazines, shall be committed.

Art. VII. The public functionaries and civil and military employés, who may follow the garrison, shall be treated in the same manner, and according to their rank and employment.

Answer—Granted.

Art. VIII. All the accountable employés of the different administrations, whether civil or military, shall carry away their registers and papers of accounts.

Answer—Granted.

Art. IX. The wives, children, and servants belonging to the military, the public functionaries, and the employés, shall accompany them.

Answer—Granted.

Art. X. The individuals of the country who may have filled situations under the Government, as well as any others, who wish to follow the garrison alone, or with their families, shall be allowed to do so without molestation; they shall be treated according to their rank and employment; their relations and their properties shall be respected.

Answer—Granted.

Art. XI. No individual, whether of the province of Cattaro or of Montenegro, shall be allowed to approach the place of Cattaro, nor come on board any vessel in the port, before all the garrison shall be embarked on board the ships designated by Art. III. and shall be at a distance from the place.

Answer—Granted.

Art. XII. The English Commander engages and promises to cause the persons and property of the military, public functionaries, employés, &c. who quit the place, to be respected, during the whole time that the vessels in which they are embarked may remain in the channel of the mouths of Cattaro, and until they shall have arrived at their destination.

Answer—Granted.

Art. XIII. The inhabitants of the town of Cattaro, of whatsoever rank or condition, shall be

respected, together with their property: those who have filled employments under the French Government shall not be molested; they shall not suffer any ill treatment on account either of their past conduct, or of their political opinions.

Answer—Granted.

Art. XIV. The title-deeds and other papers in the records of the courts of justice, and those relating to the several branches of administration, shall be respected and preserved.

Answer—Granted.

Art. XV. Officers shall be appointed on each side for the delivering up of the magazines and artillery of the place and fort.

Answer—Granted: but an English Officer shall be received to-morrow morning to make, in concert with a French Officer, an inventory of the magazines and artillery of the place and fort.

Art. XVI. If from the present time to the 10th of this month, the period fixed by the first article for the surrender of the place, the troops of His Majesty the Emperor Napoleon should approach it to raise the blockade, the present convention shall be considered as null and of no effect.

Answer—Answered in the first article. In the event of the troops of His Majesty the Emperor Napoleon approaching the garrison before the 8th instant to raise the blockade, then the present convention shall be considered as void and of no effect.

K. FRANCKEN, First Marshal.

By His Majesty's Royal Patent.

ANTI-ATTRITION.

THE Patent Anti-Attrition Composition is the cheapest and best thing ever yet discovered for ships' bottoms, instead of copper; to preserve cables from being rubbed in the hawse-holes, instead of a plat, service, or rounding; the rigging of ships from the weather, and from being chafed, instead of tar, "parcelline, and service;" for the slides and carriages of gins; to render leather and canvas water-proof; and to prevent the effects of friction in steam-engines, mills, sugar-mills, threshing-mills (or other implements of husbandry generally used by farmers), carriages, coaches, waggon, carts, and machinery of every description. It is also the best thing to preserve the blades of swords, and all kind of polished steel articles, from rust. It will likewise preserve iron hoops, water butts, casks, tubs, spouts, posts, rails, gates, park paling; barn floorings, and every kind of wood and wooden building, from the weather, worm, and dry rot, either in the East or West Indies, or in any climate; and it will not only preserve iron rail-ways from corroding and wearing out, but also render the draught so light, that one horse will do the work of two.

One priming of the composition is, in some cases, equal to one hundred applications of oil, tallow, or any other kind of grease, paint, or tar, and the public save by its use from three hundred to four thousand per cent., exclusive of preventing the wear and tear in machinery, wheels, &c. &c., which is a saving of expence more than that of saving nine parts out of ten, and nothing can be so clean in its working, or give so little trouble.

Sold, for the patentees, at No. 40, Charing-Cross, near the Admiralty, London; and by their appointment, at most ship-chandlers, printers, booksellers, libraries, stationers, druggists, medicine warehouses, perfumers, ironmongers, cutlers, coachmakers, lunkepers, coach and waggon offices, oil and colour shops, saddlers, and shopkeepers, in the United Kingdom, in boxes, price 2s. 6d.; 5s. 6d.; 10s. 6d.; one guinea, and two guineas each.

The smallest size box contains a quantity sufficient to prime a four-wheel carriage four times, with which it will run upwards of six thousand miles, without applying any thing else to the axletrees, and one half-guinea box contains a sufficient quantity for a stage-waggon to travel thirty-three thousand miles; and it will work with wood axletrees, or with common boxes and axletrees of any kind. The most satisfactory proofs of the merits of this discovery may be seen at the Patentees' Office, and also at their Agents.

* * * The Public must be on their guard against a spurious composition, which is sometimes attempted to be foisted upon them, to prevent the effects of friction, instead of which it is injurious to machinery, &c. and none is genuine but that for which a patent has been obtained. To prevent imposition, the directions given with each box are signed W. D. Bellamy, and have the King's Arms on them—to counterfeit which is forgery; and any person making use of a composition, by which the patentees are defrauded, will be prosecuted, one hundred guineas reward having been offered by them to detect brands on the patent right.
