

mile; from the Sunken Rock called the Nuri, S. S. W. $\frac{3}{4}$ W. distant 15 miles; and from the Islands of Stack and Skerry, W. S. W. the former 28, and the latter 30 miles distant. This light will be known to Mariners as a revolving light, exhibiting from one and the same lantern a light of the natural appearance, alternating or changing with one tinged red; which two kinds of light successively attain their most luminous effect every two minutes, and thereafter becoming gradually less luminous, are to a distant observer totally eclipsed for a short time. The lantern light-room is elevated 400 feet above the medium level of the sea. The light of the natural appearance will, in clear weather, be seen like a star of the first magnitude, at the distance of eight or nine leagues, and at lesser distances, according to the state of the atmosphere; but the red light being somewhat obscured by the coloured shades, will not be seen at so great a distance.

By order of the Commissioners of the Northern Light-houses,
C. Cuninghame, Secretary.
Edinburgh, 10th November 1828.

N. B. The Light-houses now erecting upon Tarbetness, in Cromartyshire, and Mull of Galloway, in Wigtonshire, will be lighted in 1829, of which due notice will be given.
