

In the matter of letters patent granted to George Lowe, of Brick-lane, Old-street, in the county of Middlesex, civil engineer, for an invention for increasing the illuminating power of such coal gas as is usually produced in gas works, also for converting the refuse products from the manufacture of coal gas into an article of commerce not heretofore produced therefrom, and also of a new mode of conducting the process of condensation in the manufacture of gas for illumination, which letters patent, respectively, bear the following dates, that is to say, for England, Wales, and Berwick-upon-Tweed the 9th day of June 1832, for Ireland the 14th day of November in the same year, and for Scotland the 6th day of December in the same year.

NOTICE is hereby given, that the Right Honourable the Lords of the Judicial Committee of Her Majesty's Privy Council have ordered, that the matter of the petition of the said George Lowe, the patentee, for a prolongation of his term of sole using and vending his said invention under the said letters patent, shall be heard before the said Committee on Friday the 3d day of April next, at ten o'clock in the forenoon.—Dated this 16th day of March 1846.

Sutton, Ewens, Ommanney, and Prudence,
Agents for the said George Lowe.

In the matter of letters patent granted to Thomas Griffiths, of Birmingham, in the county of Warwick, tin plate worker, for "an improvement in the manufacture of tea kettles and other articles then usually made of copper, copper tinned or plated, iron tinned, or any other metal or metals," bearing date the 15th day of February 1834.

NOTICE is hereby given, that, under and by virtue and in pursuance of an Act of Parliament, made and passed in the session of Parliament held in the fifth and sixth years of His late Majesty's reign, intituled "An Act to amend the law touching letters patent for inventions," a petition has been presented to Her Majesty's Attorney General by the above-named Thomas Griffiths, praying that he may be at liberty to enter, with the Clerk of the Letters Patent of England, a disclaimer and memorandum of alteration as to parts of the title and specification of his above-mentioned letters patent, in the following manner, or to the following purport or effect (that is to say);

A disclaimer of the words "or plated," and also of the words "or any other metal or metals," in the said title.

A disclaimer of the words "and other articles hereinafter mentioned," which occur at the commencement of the describing part of the specification, immediately after the words "my improvement in tea kettles."

A disclaimer of the words "or article," being the eleventh and twelfth words further on in the same sentence, in the said specification.

A disclaimer of the words "of rolled copper plate, copper tinned or plated, or iron plate," which occur soon afterwards in the said specification, there being one hundred and twenty words, or thereabouts, between them and the said words "or article," lastly disclaimed.

A disclaimer of the words "and other articles," which form part of a sentence further on in the said specification, commencing, "and respecting the other mode hereinbefore mentioned of manufacturing tea kettles and other articles according to my said improvement, by making the body of the tea kettle out of two pieces of metal," and so forth.

A disclaimer of the words "and plate of other rolled and laminated metals," and also of the words "such as brass," which respectively occur in the following sentence further on in the said specification, "and also the aforesaid mode of making such articles in two halves by so stamping and burnishing is applicable to rolled iron plate, and plate of other rolled and laminated metals which are of a less ductile quality than copper, such as brass," and so forth.

An alteration in the title of the said invention, by adding the word "certain," after the word "and," and before the words "other articles."

An alteration in the said title, by adding the more limited words "iron plate or tin plate," after the words "iron tinned," and in lieu of the more capacious words "or any other metal or metals," hereinbefore disclaimed.

An alteration in the specification of the said invention, by inserting the words "several of them," between the sixteenth and seventeenth words of the following sentence therein, "all which articles have been hitherto usually made out of a great number of pieces, and with a greater number and extent of brazed joints than are required according to my said improvement."

An alteration in the said specification, by inserting the words "and tin plate," in lieu of the words "and plate of other rolled and laminated metals," sixthly hereinbefore disclaimed.

An alteration in the said specification, by adding the words "or of tin plate," between the twenty-second and twenty-third words of the following sentence therein, "the lids for tea kettles or saucepans may be made of iron, or of iron tinned, in the mode hereinbefore described, as well as of copper."

An alteration in the said specification, in the claiming part thereof at the conclusion, by adding the words "or tin plate," immediately before the words "with fewer pieces and fewer seams than heretofore required."—Dated the 16th day of March 1846.

Stevens and Satchell, Solicitors, 6, Queen-street, Cheapside.
