From Monday October 12. to Thursday October 17. 1689

Madrid, Sept. 27.

THE 22 Instant arrived here from *Lubonne* Signior *Durazzo*, who is, to reside at this Court in quality of the Pope's Nuncio in the place of Cardinal *Mellini*. The Count *Maximilian de Prising*, Envoy Extraordinary from the Elector of *Bavaria* to Notifie his Electoral Highnesses Marriage with the Archduchess the Emperor's Daughter, had the 25th his first Audience of the King. The Count *de Humez* is made President of the *Hazienda* in the place of Don *Fuax de Corral*, upon whom the King has conferred the Presidentship of the Chamber of *Castilla*. We have advice from the *West Indies* that some Ships fitted out by order of the Viceroy of *Peru*, had taken three Vessels from the Pyrates in the *South-Sea*.

Cracow, Sept. 26. The 30th Instant the Forces of this Crown departed from *Oucze*, and marched to meet those of *Lithuania*, and having joyned with them the whole Army marched towards the River *Pruth*, near which they were encamped on the 30th Instant, the Generals being resolved to advance towards *Czukaw* to fight the Ham of *Tartary*, who they had advice was marching with a great Body of Tartars to put 3000 Wagons laden with Provisions and Ammunition into *Caminice*. What was said of the Enemies having about three weeks ago plentifully supplied that place with all the necessary for the subsistence of the Garrison, is since contradicted, and we are assured that the Convoy they then put into the place consisted only in 30 Wagons, and that without the supply that's farther designed for them, the Turks there will be in a great want this Winter. The King of *Poland* was the 18th of this month at *Pielascowitz* in his Journey towards *Russia*; He had sent orders to several Troops, which have not yet joyned the Army, to hasten their march thither, and it's said his Majesty intends to go and command the Army in Person, and that a great many of the Nobility and other Persons of quality have put themselves in a readiness to attend him; but the weather grows so cold, beyond what it uses to be at this time of the year, accompanied with continual Raines, that its believed the Army will not be able to keep the Field much longer, but will be obliged to betake themselves to their Winter-quarters. We have advice that the Cossacks have defeated a great party of Tartars near *Braclaw*, and that they have taken a Vessel in the *Black Sea*, in which were two Bassas who were going as Ambassadors with a great Sum of Money to the Grim Tartars to encourage them to joyn with the

Ottoman Forces, to make head against the Army of this Crown; That the two Bassas were killed in defending the said Vessel, but that the Money and their Letters of Credence with all their other Papers were taken, and that the latter were sent to the King of *Poland*. The Serasquier *Solzman* accorded upon last advices, had not with him above 12000 Turk, and these were in a great Contentment having heard of the defeat of their Army in the way and of the taking of *Nembeski*.

Vienna, Octob. 4. On Sunday 13th there the Elector of *Palatin*. On the 10th the Archduke was christened by the Pope's Nuncio, being named *Joseph Wenzelau*, *Balthazar*, *Ferdinand*. We have had no Letters from *London* since the account we gave you in our last, that the Town of *Casibaw* had sent Deputies to General *Schultz*. The Duke of *Lorraine* continues encamped near the River *Gran*, to reinforce as there may be occasion the Detachements that have been already sent to *Upper Hungary* and *Agria*. We have Letters from the Imperial Army in *Croatia* of the 28th of the last month, which was then still encamped near *Turanowitz*; They tell us that the Governour of *Sarelsadt* had made a great Incurtion into the Enemies Territories; That he had burnt several Castles and Villages, and was returned with a great deal of Booty; That the Turks had put strong Garisons into *Peribin*, *Orowitza*, *Valpo*, and *Esseck*, while the *Bassa of Bosnia* kept the Field with the Forces under his Command to observe the Imperialists; but it was believed the ill weather would very quickly oblige both sides to go into their Winter-Quarters. The Baron *de Mercy* is before *Agria*, and has we hear done great execution with his Bombs; In his march thither he possessed himself of *Zatmar*, and put a Garrison into that place. The Emperor has sent the *Sieur Mayorshem* to the Elector of *Cologne* to make a farther Treaty with him concerning his Troops which are now in his Imperial Majesties service.

Vienna, Octob. 7. Last night arrived here an Express from the Imperial Camp, being sent by the Duke of *Lorraine* to give the Emperor an account that he had received advice from *Upper Hungary* that *Tockav* and *Onotz* had surrendered upon Articles; and that he was expecting to hear that *Casibaw* had done the like. That the Baron *de Mercy* having in his march towards *Agria* found *Zatmar* abandoned by the Enemy, he had put a good Garrison into that place; That upon his coming before *Agria* he was informed by some Prisoners he took that the Garrison as well as the Inhabitants were in a very great disorder and consternation, they little expecting such a

visit; That having posted his Troops, and plasted his Mortars, the Enemy made a Sally, but quickly retired again; That the Imperialists presently after began to shoot their Bombs, which caused a great Fire in the Town, but the Turks encouraged by their Balla quenched it, though not till after several Houses were laid in Ashes. We have Letters from *Turanowitz* in *Croatia* of the 19th of the last month, which tell us that the Serafquier *Ibrahim* was arrived at *Mohatz*, where he intended to stay about 15 days to give the necessary Orders about supplying *Canizza* with Provisions and Ammunition, that they may be in a condition to subsist in case they should be blockt up this Winter; And that a Letter had been intercepted which a Country Fellow was carrying to *Canizza*, by which it appeared that the Enemy were drawing what Forces they could together on the side of *Croatia*, with a resolution to fight the Imperialists commanded at present by the Count *de Lavergne*; who we hear are removed from their Camp at *Turanowitz* nearer to their Bridge on the *Drave*, upon the advice their Lieutenant General had received that the Turks had a design to attack it. Prince *Waldeck* and the other general Officers that are here have daily Conferences with the President of the Council of War, and some other of the Emperor's Ministers about the Winter-Quarters, which are not yet finally settled. The Troops of *Luzenburgh* will return home; But we shall not know how those of *Cologne* will be disposed of till we have an account of what the Sieur *Mayerheim*, whom the Emperor has sent to that Elector, has Negotiated with his Electoral Highness. His Imperial Majesty we are told desires they should Winter in *Hungary*, and in consideration of their remaining in his Service a Sum of Money is offered his Electoral Highness. It is said at Court that the Elector of *Brandenburg* has declared that he will assist the Emperor the next Summer with 20000 Men; And that the Elector of *Saxony* will likewise assist his Imperial Majesty with a Body of 4000 Men. The Marschal *de Coningmark* has made, we are told, an agreement with the Ambassador of *Venice* about his entering into the Service of that Republick, whose Forces he is to Command next to the Captain General. On *Thursday* last were presented to the Emperor the six Standards taken by Count *Herberstein* in the late Incur-sion he made into the Province of *Licca*.

Ratibonne, *Octob.* 11. We continue to receive very good News from *Hungary*. General *Caprara* has reduced *Tockay*, *Onorb*, and some other Castles to the Emperor's Obedience, but we have not yet any certain advice of the surrender of *Caschau*. The Imperial Forces before *Agria* have laid part of the Town in ashes, and though they do not intend formally to besiege the place, yet they hope with their Bombs to oblige the Inhabitants to surrender. They write from *Croatia* that the Turks had formed a design to attack the Bridge the Imperialists have on the *Drave*, but that they had been disappointed by the Count *de Lavergne's* sending a Detachment to reinforce the Troops that were appointed for the guard of it. The Letters from *Poland* give an account of the Conjunction of the Forces of *Lithuania* with those of *Poland*; That the Army had afterwards passed the *Niester*, and advanced into *Moldavia* with a resolution to fight the Enemy, so that we expect to hear of some considerable action from that side. The States of *Franconia* and *Suabia* are, it's said, unwilling to let their Troops

Winter in *Eurgaty*, which is desired by the Emperor that they may be the readier for the next Campaign: The Sieur *Bestran* is arrived here to reside at the Dyet as second Deputy from the Elector of *Menix*.

Coogne, *Octob.* 12. On *Tuesday* and *Wednesday* last the Sindick *Gulick* was again examined before the Imperial Sub Commissioners, and its probable we shall in few days hear farther of him. The two other Prisoners *Sacks* and *Meckorius* will be likewise examined before the said Commissioners; Who are still expecting farther orders from *Vienna*. The Letters from *Strasbourg* of the 7th Instant tell us, that the Marquis *de Courtenvaux* was arrived there, and that having viewed the Fortifications, and taken a review of the Troops of that place, he would go and visit in like manner *Schiefflar*, *Brisfac*, *Fribourg* and *Hunningen*, and that in his return he would pass through *Zawene*, *Phaltsbourg*, *Nancy*, *Metz* and *Luxembourg*.

Hague, *Octob.* 19. The Sieur *de Monreau de Vertelly*, Envoy Extraordinary from the King of *Poland*, had the 16th Instant Audience of the States General. The Heer *Goes* is going in the same Quality from this State to the King of *Denmark*, and will in few days begin his Journey. The Treaty between the Crown of *Sueden* and this State, which is now ready to expire, will, it's believed, be renewed. We have an account by the last Letters from *Vienna* that *Tockay*, *Onorb*, and *Serentz* were surrendered to the Imperialists; That *Caschau* did Capitulate; And that one of Count *Teckley's* chief Officers had deserted him, and had put himself with 200 Men into the Emperor's Service. They write from *Poland* that the Army of that Crown was entred into *Moldavia*, and was within two hours march of the Enemy, commanded by the Serafquier *Solyman*.

Brussels, *Octob.* 19. The Letters we received by the last Spanish Ordinary told us that his Excellency Don *Francisco Antonio d'Agurto* will be continued in this Government. Don *Juan de Leyseca* Superintendent of the Military Justice parted from hence this day for *Madrid*, being called by his Catholick Majesty to his Station in that Court. We gave you an account in one of our last, that one *Taylor*, who was in the late Rebellion in *England*, had been seized at *Malines*; This morning Captain *Stanford* was sent from hence with part of his Troop to conduct the Prisoner to *Offend*, where a Yacht is arrived to carry him for *England*.

Advertisements.
