

*Hamburg, Jan. 7.* They write from *Stockholm* of the 2<sup>d</sup> part, that the Count *de Nostitz*, Envoy Extraordinary from the Emperor, was arrived there, and had had a Private Audience of the King of *Sueden*. The Troops of *Hanover* which served in *Hungary* the last Campaign, have taken their Quarters in the Counties of *Pinebourg* and *Teckenbourg*. The Electoral Prince and Princes of *Brandenburgh* having passed three or four days at *Hanover*, are returned to *Berlin*; from whence we have an account, that the Elector of *Brandenburgh* is going to raise several new Regiments.

*Cologne, Jan. 12.* The Imperial Sub-Commissioners are now employed in examining the Complaints against the late Magistrates, *Gulick*, *Sacks*, and *Machovius*, at present Prisoners at *Dusseldorpe*, are ordered to be removed to *Musheim*. The last Letters from *Hungary* confirm the News we gave you in our last of the defeat of 6000 *Turks*, who were drawn together to conduct a Convoy of Provisions and Ammunition from *Arach* to *Gyula*; which is a great Victory, not so much for the Number of the Enemy that were slain, though that is very considerable, as for that it has in all likelihood secured the *Imperialists* from any farther disturbance in their Winter-quarters on that side, and has deprived the *Garisons* of *Gyula* and *Great Waradin*, which will doubtless suffer very much by the loss of this Convoy of the means of supplying themselves with Provisions from *Transylvania* by the way of *Arach*. They write from *Vienna*, that the Emperor has appointed the Count *de Starembergh* to command his Forces in *Croatia*, where his Imperial Majesty intends to have a very good Army the next Campaign.

*Hague, Jan. 14.* The Heer *Van Starembergh* Ambassador Extraordinary from this State at the Court of *France*, has leave to return home for a short time to look after his private affairs. The States of *Holland* are now again assembled. The Council of State had yesterday a long Conference with the Deputies of the States General. The Heer *Van Beuningen* one of the Burgomasters of the City of *Amsterdam* does it's said with much earnestness desire leave to resign that Office, and to retire from publick business, but has not yet been able to obtain it. The Elector of *Brandenburgh* we are told has written to the Emperor on the behalf of the young Counts of *Benthem*, to whose determination that matter is submitted as the only proper Judge thereof. The Heer *Van Guldenstolpe* the *Suedish* Minister, has had several Conferences with the Deputies of the States General about renewing the defensive Alliance between the King of *Sueden* and this State.

*Brussels, Jan. 18.* This Evening arrived the *Spanish* Ordinary with the News of his Excellencies being confirmed in this Government, which is received here with a great deal of joy. His Catholic Majesty has given him the Title of Marquis, and has commanded him to remove from the House where he now is, to the Palace; And we are assured that a considerable Sum of Money will be remitted hither from *Spain* by the next Ordinary. The Prince *de Faudemont* is much better, so that we have great hopes of his Recovery. Yesterday was kept here the Annual Feast of *St. Anthony*, the Prince *de la Tour*, the Provost, giving the Entertainment, which was very splendid, his Excellency, and all the Persons of the chiefest Quality here were present at it, and chose the Count *d'Archinto* Provost for the next year. The Letters from *Vienna* of the 6th Instant, confirm the Defeat of the *Turks*, whereof we gave you an account in our last, with this addition, that not above 60 of them

escaped to *Lippa*. Daily Consultations are held at *Vienna* concerning the Operations of the next Campaign, which it's believed will be opened with the Siege of *Agria* and *Alba Regalis* at the same time; by the taking of the first of these Places will be completed the entire Conquest of the *Upper Hungary*, and by the latter the Country of *Rabau*, and the other Imperial Territories on that side will be secured against the Incurfions of the *Turks*. The last Letters from *Upper Hungary* told us, that the rainy weather kept General *Czprara* from attacking *Montatz*, which he was resolv'd to do with the first Frost, and in all likelihood that place will not hold out long, when once the *Imperialists* can bring their Cannon and Mortars against it. In the *Lower Hungary* there is a great want of Provisions, and therefore Magazines are providing for the subsistence of the Imperial Forces, which we are assured from all hands will be very early in the Field. The truth of the report about the *Seraskiers* being strangled at *Belgrade*, is much doubted.

*Paris, Jan. 19.* The Bishop of *Strasbourg* arrived here the last week from *Liege*. The Marquis *de Monclar* Lieutenant General of the King's Armies is lately dead. The Dutch Ambassador has had a private Audience of the King, and will part from hence in few days for *Holland*.

*Deale, Jan. 10.* This day, the Wind coming Northerly, His Majesties Ships the *Happy Return* and the *Drake*, and near 400 Sail of Merchant Ships, English and Foreigners, sailed out of the *Downes*. We have had of late very hard Gales of Wind, which forced several Ships from their Anchors in the *Downes*, and among the rest a *Dutch East-India* Man, of whom we have not since had any News. A small *Dutch* Ship bound for *Bourdeaux* was lost on the *Godwyn-Sands* on Wednesday last.

*Whitehall, Jan. 13.* This day Signior *Zeno* and Signior *Giustiniani*, Ambassadors Extraordinary from the Republick of *Venice*, had their Audience of Leave of their Majesties, being Conducted by the Earl of *Pembroke*, and Sir *Charles Courrel*, with the same Ceremonies as at their first Publick Audience; And had afterwards likewise their Audience of Leave of the Queen-Dowager, in the same manner as before.
