

cution of the War, are carried on with all the diligence and application imaginable. The Officers have positive Orders to have their respective Regiments compleat by the end of *April*. A great Train of Artillery is preparing, and Magazines are providing, towards the charge whereof the Pope's Nuncio has promised a considerable Sum of Money. The *Cossacks*, commanded by General *Mobilis*, are divided into several Bodies, to have an Eye upon the *Tartars*, but notwithstanding all the care that is taken to secure the Frontier Provinces, they have lately made a great Incurſion into *Ruſſia*, advancing as far as *Lemburg*, and ravaging the Country for many Miles together, from whence they have carried a great number of People into ſlavery. We are expecting with ſome impatience to hear of the arrival of the Ambaſſadors of this Crown at *Moscow*, where we have reaſon to believe they will be very well received, all the Advices we have of late had from that Court aſſuring us, that there is a great diſpoſition to enter into a ſtrict Alliance with this Crown.

Vienna, Jan. 10. The States of the *Lower Auſtria* are now aſſembled here; The 8th Inſtant the Chancellor of the Court demanded of them in the Name of the Emperor, who was there preſent, a Supply towards the ſupporting the great charge of the War, which he told them his Imperial Maieſty was reſolved to proſecute with all the Vigor poſſible; The ſaid States have taken this matter into their deliberation, and it's not doubted but they will give a Supply proportionable to the preſent exigency of Affairs. The Imperial Troops in *Hungary* and *Croatia* are now very quiet in their Winter-quarters, and in all appearance will continue ſo, the laſt Letters from *Zolnocke* aſſuring us, that the *Turks* are under that fear, ſince their late defeat near *Arach*, that they dare not ſtir out of their Garriſons; That of *Gyula* is ſaid to be in a very ill condition, wanting both Proviſions and Ammunition, which is the reaſon that General *Mercy* has ſent hither to deſire a reinforcement of 2000 Men, with which, and the Troops he has already under his Command, he ſeems confident of taking that place. General *Caraffa* has ſettled his Troops in the Quarters they have taken in *Transilvania*, and beſides is treating with Prince *Abaffi*, and the States of that Countrey, concerning the Contributions they are to pay in Money, and the Proviſions and Forage they are to provide for the ſubſiſtence of the ſaid Troops. The Ambaſſadors which that Prince is ſending hither, are daily expected; It ſeems their Journey has been retarded, by the Indispoſition of one of them, but we hear they are now on their way hither; in the mean time there are various Reports concerning the Errand they are ſent upon, ſome ſaying it is only to ſolicit an Exemption of Winter-quarters, others, that they come to make Propoſals of Peace, and others again, that they are to negotiate an Alliance with the Emperor. General *Starembergh* will, it's ſaid, part from hence the next Month for *Croatia*, to give the neceſſary Orders on that ſide, the Emperor having appointed him to command his Forces there the next Campaigne. The Advices from *Turky* tell us, great preparations are made for the War, and that the *Turks* give out, they ſhall have much greater Armies in the Field this Summer than they had the laſt.

Hamburgh, Jan. 18. The Letters from *Berlin* give an account, that the Elector of *Brandenburgh* has already named the principal Officers that are to command the 6000 Men with which he is to aſſiſt the Emperor, and that his Electoral Highneſs intends to ſend with them a good Train of Artillery; They will begin their march about the latter end of the next Month, and will be compoſed of 4000 Foot, and 2000 Horſe and Dragoons. The *Lunenburgh* Forces that ſerved in *Hungary* the laſt Campaigne, have taken their Winter-quarters in the Countreys of *Pinebourg* and *Tecklenbourg*, notwithstanding the oppoſition of the Inhabitants, who reſuſed to receive them. The Count *de Noſtitz*, the Imperial Miniſter, is arrived at *Stockholm*; And we are told that there is a Treaty on foot between the Emperor and the King of *Sueden*. The Letters from *Zolkiew* tell us, that the King of *Poland* hath declared to the Pope's Nuncio at his Court, that he intends to be in the Field at the Head of his Army in the beginning of the Month of *May*.

Hague, Jan. 20. The Treaty of deſenſive Alliance, which, we are told, is renewed for twenty years, between the Crown of *Sueden* and this State, hath been ſent to the ſeveral Provinces, in order to have their conſent to the Ratification of it. The Heer *Van Odyke* will part from hence the next Week, to be preſent at the Aſſembly of the States of that Province, who are to meet the 26th of this Month. The Deputies of the Admiralties are gone home, after having had ſeveral Conferences with thoſe of the *States General*.
