# FRIDAY, OCTOBER 17, 1851.

Whitehall, October 17, 1851.

THE following Addresses were presented to Her Majesty on the occasion of Her Majesty's visit to the county of Lancaster, and were received very graciously :

To the QUEEN'S Most Excellent Majesty.

Most Gracious Sovereign,

WE, your Majesty's most dutiful and loyal subjects, the Mayor, Aldermen, and Burgesses of the borough of Salford, humbly avail ourselves of the auspicious occasion of your Majesty's gracious visit to this locality, to tender to your Majesty the tribute of our respectful homage, and to express the joyful gratification we experience in being enabled to welcome your Majesty within the precinct of this your Majesty's ancient manor of Salford.

The deep and lively interest your Majesty has ever taken in those measures of public policy which conduce to the physical and moral improvement of the people, combined with the exemplary virtues by which your Majesty is so pre-eminently distinguished, as well in the private relations of domestic life, as in the higher walks of your exalted station, have justly endeared your Majesty to all classes of your dutiful and affectionate subjects; and we ardently cherish the hope that the large and increasing population of this great manufacturing district, under your Majesty's benign sway, may be so educated and trained up in habits of industry and usefulness, that they may rightly fulfil their various duties to society, and be alike distinguished for their regard for social order, their attachment to the principles of religion and of constitutional loyalty.

In conclusion, we trust that your Majesty will be graciously pleased to accept the expression of our humble but earnest desire for the health and happiness of Yourself, your Royal Consort, and Family; and we fervently and devoutly pray, that under the gracious Providence of Almighty God, your Majesty may be long preserved to us as the guardian of the religious and civil rights and liberties of your subjects, and the Sovereign of a free, prosperous, and happy people.

Signed by me, Mayor of the borough of Salford, in name, and by appointment of the Council in Council assembled.

In testimony whereof, the seal of the said borough is hereunto affixed, this 8th day of October, 1851.

Thos. Agnew, Mayor.

## To the QUEEN'S Most Excellent Majesty.

## May it please your Majesty,

WE, your Majesty's loyal and faithful subjects, the Mayor, Aldermen, and Burgesses of the borough of Manchester, humbly approach your Majesty to offer, as the representatives of the inhabitants at large, the homage of an ardent and devoted attachment to your Majesty's Person and Government; and the assurance that we hail with feelings of heartfelt and grateful delight the august presence amongst us in this your Majesty's ancient County Palatine, of your Majesty, your Royal Consort, and Children.

The sentiments which the public visit of a Sovereign is in itself calculated to inspire, are greatly enhanced and strengthened, when, as on this auspicious occasion, the honourable distinction is conferred, for the first time in the course of centuries, by the gracious condescension of not only a Sovereign, but a Queen, who is not only entitled to the reverence which belongs to illustrious station and to the possession of constitutional authority, but who has also, in the highest degree, those endearing claims which arise from the constant and exemplary, though unostentatious practice of every private virtue.

Whilst we have the happiness thus to recognize the great moral influence which the example of your Majesty exercises over your people in all the social relations of life, it is also our gratifying duty to acknowledge the blessings which, under Divine Providence, have attended the public policy, that, with your Majesty's willing sanction and approval, has been steadily pursued during the whole of your Majesty's beneficent reign.

The effect of that policy, based on the full and eulightened recognition of a wisely regulated freedom, is strikingly manifest in the generally flourishing condition of the realm, and in the increased content and happiness of your Majesty's people. We believe that our country now enjoys more abundant elements of social welfare, and of national prosperity and strength, than at any former epoch of its history; demonstrating that the free institutions under which we live, and the free commercial policy which, under your Majesty's wise and benign auspices, have been recently consolidated in your Majesty's dominions, are the surest means of promoting, and the firmest foundations on which can rest, the progressive happiness, peace, and prosperity of nations.

That your Majesty may long live to witness the continued moral improvement and well-being of your people, and actively to aid in accomplishing this great object of your Majesty's benevolent sympathy and care, and that your Majesty, and all most dear to you, may be rewarded by every blessing of life, is the fervent hope and prayer of those of your Majesty's grateful subjects who have now the honour to address you.

Given under the common scal of the corporation, this 8th day of October 1851.

John Potter, Mayor.

## To the QUEEN'S Most Excellent Majesty.

## May it please your Majesty,

WE, the Mayor, Aldermen, and Burgesses of the borough of Bolton, in the county of Lancaster, in Council assembled, beg leave to approach your Majesty with sentiments of the deepest respect.

We hail with sincere delight, the honour which your Majesty has conferred on this county by your royal visit, and we heartily bid your Majesty the most affectionate welcome.

We are happy in belonging to a county and a town which have always evinced a steady attachment to the Throne, and where, in by-gone days, many precious lives have been devoted to the defence of the royal cause; and we are not in these peaceful times less determined to uphold the rights of the crown, worn, as it is, by a gracious Sovereign, who has long lived and reigned in the hearts of her faithful subjects, and has ever shown an anxious desire to promote the welfare and secure the constitutional liberties of her people, and we fervently pray that the Almighty may pour his abundant blessings upon your Majesty, your illustrious Consort, and the whole of your Royal Family.

We entreat your Majesty's favourable acceptance of this token of our dutiful regard.

William Gray, Mayor.

## To the QUEEN'S Most Excellent Majesty.

### May it please your Majesty,

WE, your Majesty's faithful and loyal subjects, the Mayor, Aldermen, and Burgesses of the borough of Ashton-under-Lyne, in the county of Lancaster, in Council assembled, beg to approach your Majesty to testify our deep sense of the high honour your Majesty has been pleased to confer upon this county, by your royal visit.

upon this county, by your royal visit. We most heartily and sincerely beg to tender to your Majesty the most affectionate welcome; and we take this occasion to assure your Majesty of our veneration for the Constitution of our country, our attachment to the Throne, and our sincere and profound esteem for your Majesty, under whose reign we enjoy those great constitutional liberties which are the pride of our country, and the admiration of the world.

We therefore hail your Majesty's visit to this great and important manufacturing county as an event which will long be remembered by your Majesty's faithful and loyal subjects with feelings of the greatest pride and pleasure.

of the greatest pride and pleasure. We fervently pray that your Majesty's reign may be long and happy; and that the Divine blessing may always attend your Majesty, your illustrious Consort, and your Royal Family.

We humbly beg your Majesty's acceptance of this token of our loyalty and regard.

Given under the corporate common seal of the borough, this 8th day of October 1851.

#### Wm. Heginbottom, Mayor.

## To the QUEEN'S Most Excellent Majesty. Most Gracious Sovereign,

WE, your Majesty's dutiful subjects, the Mayor, Aldermen, and Burgesses of the borough of Oldham, are prompted, by your Majesty's visit to the county of Lancaster, to approach your Majesty with an expression of our loyal attachment to your Majesty's Throne and Person, and of our warmest congratulations on the occasion of your presence in this neighbourhood.

Whilst forming only a very inconsiderable part of the great scene of commercial activity which this county exhibits, and being, in our corporate existence, the most recently created community within it, we yet are anxious to express the loyal sentiments of our town; considering that it presents a remarkable instance of rapid advancement in population, and useful employment, such as could have occurred only in a country ruled by a succession of enlightened and benignant princes.

We pray that your Majesty will graciously accept the humble and imperfect expression of our feelings of respectful admiration of your Majesty's public and private virtues, and our devoted wishes for the welfare of your Majesty, your royal Consort and Family, and our earnest hope that you may long reign over us, enjoying the affection of all your subjects, and the gratification of being the chief promoter of their prosperity and happiness.

Given under the corporate common seal of the said borough, the 8th day of October in the year of our Lord 1851.

A T the Court at Buchingham-Palace, the 7th day of August 1851,

## PRESENT,

The QUEEN's Most Excellent Majesty in Council.

W HEREAS the Ecclesiastical Commissioners for England have, in pursuance of an Act, passed in the session of Parliament held in the third and fourth years of Her Majesty's reign, intituled "An Act to carry into effect, with cer-"tain modifications, the fourth Report of the Com-"missioners of Ecclesiastical Dutics and Revenues," and of another Act, passed in the session of Parliament held in the fourth and fifth years of Her Majesty's reign, intituled "An Act to explain " and amend two several Acts relating to the "Ecclesiastical Commissioners for England," duly prepared and laid before Her Majesty in Council a scheme, bearing date the seventh day of August one thousand eight hundred and fifty-one, in the words following : that is to say:

words following ; that is to say: "We, the Ecclesiastical Commissioners for England, in pursuance of an Act, passed in the session of Parliament held in the third and fourth years of your Majesty's reign, intituled 'An Act 'to carry into effect, with certain modifications, 'the fourth Report of the Commissioners of Ec-'clesiastical Duties and Revenues;' and of another Act, passed in the session of Parliament held in the fourth and fifth years of your Majesty's reign, intituled 'An Act to explain and amend two 'several Acts relating to the Ecclesiastical Com-'missioners for England,' have prepared, and now humbly lay before your Majesty in Council the following scheme relating to the endowment of the first canonry in the cathedral church of Lichfield.

"Whereas it is by the herein firstly recited Act enacted, that so soon as conveniently may be, and by the authority thereinafter provided (that is to say, by a scheme prepared by us and an Order issued by your Majesty in Council ratifying the same), such annual sums shall be determined on to be paid, and shall be accordingly paid by us, as after due inquiry and calculation shall give to the respective canons of any cathedral or collegiate church in England an average annual income of five hundred pounds:

"And whereas, it is by the herein secondly recited Act declared and enacted that, notwithstanding anything in the said first recited Act contained, it shall be lawful, by the authority aforesaid, to carry the said purposes, or any of them, into effect by any other mode of payment, contribution, augmentation, or endowment which may be deemed fit, as well as by the mode in the same Acts specified:

"And whereas, it has been made to appear to us that the income of the said first canonry in the said cathedral church of Lichfield, now held by the Reverend John Hutchinson, Master of Arts, which is derived from a share of the divisible corporate revenues of the chapter of such church is subject to great fluctuation and uncertainty; and we have satisfied ourselves, after due inquiry and consideration, that it is expedient that the augmentation of the income of the said canonry, as contemplated by the said recited Acts, should be effected in the mode hereinafter proposed:

"Now, therefore, we humbly recommend and propose that we shall be authorized and empowered forthwith, and from time to time, to pay to the said John Hutchinson, as holder of the said first canonry in the said cathedral church of Lichfield, as from the period from which he became entitled to a share of the divisible corporate revenues thereof, and to his successors in the said canonry, such a sum of money as, together with the moneys which, upon inquiry and calculation, shall appear to us to have become due in each year to the holder for the time being of the said canonry, out of such divisible corporate revenues, will make up the annual amount of five hundred pounds.

"And we further recommend and propose, that in every year, so soon as conveniently may be after the annual audit of the accounts of the chapter of the said cathedral church, an account showing the moneys which shall have become due and payable to the holder for the time being of the said canonry, out of the corporate revenues of such chapter for the year ending on the day up to which such account shall have been so audited as aforesaid, shall be rendered to us, verified in such manner as we may require, and that thereupon the amount (if any) which may be necessary to make up the income of such canonry for the same year to the amount herein-before specified, shall be calculated and ascertained, and the sum so ascertained shall forthwith be paid by us to the holder of such canonry accordingly :

"Provided always, and we further recommend and propose, that if in any case the amount of the moneys so payable as aforesaid out of the corporate revenues of the said chapter to the said holder of the said canonry, in respect of any such year, shall exceed the annual income hereinbefore specified, the amount of the surplus shall be retained by the treasurer or other proper officer of such chapter and be carried by him to our credit in the account for the next succeeding year, and so on from time to time until the average income of the said canonry shall again be below the amount so hereinbefore specified.

"And we further recommend and propose, that

A 2

nothing herein contained shall prevent us from recommending and proposing any other mode of augmenting or endowing the said canonry, or any other measures relating to such matter in accordance with the provisions of the said Acts, or of any other Act of Parliament."

And whereas notice of the said scheme has been duly given, and no objection has been made thereto:

And whereas the said scheme has been approved by Her Majesty in Council; now, therefore, Her Majesty, by and with the advice of Her said Council, is pleased hereby to ratify the said scheme, and to order and direct that the same, and every part thereof, shall be effectual in law immediately from and after the time when this Order shall have been duly published in the London Gazette, pursuant to the said Acts; and Her Majesty, by and with the like advice, is pleased hereby to direct, that this Order be forthwith registered by the Régistrar of the diocese of Lichfield. *C. C. Greville.* 

## Manchester, October 10, 1851.

The Queen was this day pleased to confer the honour of Knighthood upon John Potter, Esq. of Buile-Hill, in the county of Lancaster, Mayor of Manchester.

Commission signed by the Lord Lieutenant of the County of Middlesex.

Royal East Middlesex Regiment of Militia.

Lieutenant James Prince to be Captain, vice Carvick, deceased. Dated 7th October 1851.

## REPORT OF VISCOUNT CANNING,

# PRESIDENT OF THE COUNCIL OF CHAIRMEN OF JURIES, ON PRESENTING THE AWARDS OF THE JURIES TO THE **ROYAL COMMISSION.**

HAVING had the honour of acting as President of the Council of Chairmen of the Juries, it falls to me to lay before your Royal Highness and Her Majesty's Commissioners the Reports of the several Juries upon the subjects submitted to them for examination, and the names of the exhibitors whom they have judged entitled to rewards.

In doing so, it will be convenient that I should state briefly the Principle upon which, by the authority of Her Majesty's Commissioners, the Juries were constituted.

The various subjects included in the Exhibition were divided, in the first instance, into Thirty Classes. Of these, two were subsequently found to embrace fields of action too large for Single Juries, and were therefore divided into Sub-Juries. This increased the number of Acting Juries to Thirty-four. Each of these Thirty four Juries consisted of an equal number of British subjects and of Foreigners. The British Jurors were selected by Her Majesty's Commissioners from lists furnished by the Local Committees of various towns, each town being invited to recommend persons of skill and information in the manufactures or produce for which it is remarkable. The Foreign Jurors were appointed by autho-rities in their own countries, in such relative proportion amongst themselves as was agreed upon by the

Foreign Commissioners sent here to represent their respective Governments.

In the event of a Jury finding themselves deficient in technical knowledge of any article submitted to them, they were empowered to call in the aid of Associates. These Associates, who acted as advisers only, without a vote, but whose services were of the greatest value, were selected either from the Jury-men of other classes, or from lists of persons who had been recommended as Jurors, but who had not been permanently appointed to any Jury.

Each Jury was superintended by a Chairman, chosen from its number by Her Majesty's Commis-The Deputy Chairman and the Reporter were elected by the Jurors themselves. sioners.

Such was the constitution of the Thirty-four Juries taken singly. They did not, however, act independently of each other, inasmuch as they were associated into six Groups, each Group consisting of such Juries as had to deal with subjects in some degree of kindred nature; and before any decision of a Jury could be considered as final, it was required that it should be brought before the assembled Group of which that Jury formed a part, and that it should be approved by them. The chief object of this provision was that none of the many Foreign Nations taking part in the

Exhibition should incur the risk of seeing its interests overlooked or neglected from the accident (an unavoidable one in many iustances) of its being unrepresented in any particular Jury.

Each Group of Juries received the assistance of a Deputy Commissioner and of a Special Commissioner, appointed by Her Majesty's Commissioners to record its proceedings, to furnish information respecting the arrangements of the Exhibition, and otherwise to facilitate the labours of the Juries composing the Group.

It was further determined by Her Majesty's Commissioners, that the Chairmen of the Juries, con-sisting of British subjects and of Foreigners in equal numbers, should be formed into a Council; and that the duties of the Council should be, to determine the conditions upon which, in accordance with certain general principles previously laid down by Her Majesty's Commissioners, the different Prizes should be awarded; to frame rules to guide the working of the Juries; and to secure, as far as possible, uniformity in the result of their proceedings.

These are the most important features of the system upon which the Jurors found themselves organized. I will now refer briefly to their course of action.

The Council of Chairmen, in proceeding to the discharge of their duties, were met at the outset by a serious difficulty. Her Majesty's Commissioners had expressed themselves desirous that merit should be rewarded wherever it presented itself; but anxious at the same time to avoid the recognition of competition between individual Exhibitors. They had also decided that the Prizes should consist of three Medals of different sizes; and that these should be awarded, not as first, second, and third in degree for the same class of subjects and merit, but as marking merit of different kinds and character. The Council of Chairmen found, to their regret, that it would be impossible to lay down any rules

for the awarding of the three Medals by which the appearance at least of denoting different degrees of success amongst Exhibitors in the same branch of production could be avoided. Accordingly, after fully explaining their difficulty to Her Majesty's Commissioners, they requested, as a course by which it might be materially diminished, that one of the Medals might be withdrawn.

Of the remaining two, they suggested that one, the Prize Medal, should be conferred wherever a certain standard of excellence in production or workmanship had been attained—utility, beauty, cheapness, adaptation to particular markets, and other elements of merit being taken into consideration according to the nature of the object; and they recommended that this Medal should be awarded by the Juries, subject to confirmation by the Groups. In regard to the other and larger Medal, they suggested that the conditions of its award should be

some important novelty of invention or application, either in material, or processes of manufacture, or originality combined with great beauty of design; but that it should not be conferred for excellence of production or workmanship alone, however eminent: and they further suggested that this Medal should be awarded by the Council of Chairmen upon the recommendation of a Jury, supported by its Group

The principle thus described met the views of Her Majesty's Commissioners, and was subsequently further developed by them in a Minute which they communicated to the Council of Chairmen. APPENDIX C.) Its application, however, was not without difficulties, especially as regarded the Foreign Jurors. Many of these had taken part in the National Exhibitions of France and Germany; and to them the distinctive character of the two Medals, and the avoidance of all recognition of degrees of merit between the recipients of prizes, were novel principles, and at variance with their experience; inasmuch as one of the chief purposes of the National Exhibitions of the Continent has been to distinguish the various degrees of success attained by rival exhibitors.

It was to be expected, therefore, that cases would arise in which the Council Medal, as the higher reward, would be asked for Exhibitors whose claims were only somewhat stronger in degree, without differing in kind from those of others to whom the Prize Medal had been awarded. In such cases it became the duty of the Council of Chairmen to refuse their sanction to the award of the Council Medal; without, however, necessarily impugning the alleged superiority of the article for which it was demanded. On the other hand, some instances have occurred in which they have felt themselves called upon to confirm the claim to a Council Medal where the object for which it was claimed showed, in itself, less merit of execution or manufacture than others of its class. It follows, therefore, that the award of a Council Medal does not necessarily stamp its recipient as a better manufacturer or producer than others who have received the Prize Medal. It is rather a mark of such invention, ingenuity, or originality as may be expected to exercise an influence upon industry, more extended, and more important, than could be produced by mere excellence of manufacture.

This is to be borne in mind in considering the List of awards which I have the honour to lay before your Royal Highness; and I trust that it will be found that the Juries have succeeded in doing justice to the Exhibitors of every Nation and Class, and that they have not departed in any important degree from the purpose of Her Majesty's Commissioners.

One of the first instructions addressed to the Juries by the Council of Chairmen was to the effect that the Prizes should be awarded without reference to the country of the Exhibitors, the Exhibition being considered in this respect as recognizing no distinction of Nations.

It is gratifying to add that the Jurors of every country cordially acquiesced in this principle, and that notwithstanding unavoidable differences of opinion, uninterrupted harmony prevailed amongst them throughout the whole course of their labours. It is not too much to hope that the happy influence of

this intercourse may extend and endure far beyond the present occasion. It is not necessary that I should detain your Royal Highness and Her Majesty's Commissioners with a recital of the other instructions framed by the Council of Chairmen for the guidance of the Juries, or with a detailed account of their proceedings in the discharge of their own functions. The number of Prize Medals awarded is 2918. The number of Council Medals is 170.

It is important to observe that no more than one Medal of either denomination has been allotted to one Exhibitor in the same Class, although he may have contributed to that Class more than one article deserving of reward.

The Juries have found it just, in framing their Reports, to make Honourable Mention of certain Exhibitors whose contributions were not such as to entitle them to receive a Medal. Some have supplied specimens of raw materials, which, although curious and instructive, do not imply any great merit of production on the part of the Exhibitor ; and others have furnished articles of manufacture which, with-out reaching a high degree of excellence, are interesting as examples of the processes, or present condition of the trades which they illustrate.

Before concluding, I trust I may be allowed to add that it would be difficult duly to estimate the time and labour expended by the Jurors in their endeavour to discharge faithfully the important duty The number of Exhibitors was about 17,000. Of these many, who were reckoned confided to them. but once in the Catalogue, contributed a large variety of objects, and came within the province of more than one Jury; whilst in other cases, towns, and even whole countries, were counted as single Exhibitors, although they presented for examination every kind of manufacture and raw produce which their inge-nuity and natural resources could furnish. Upon the whole, the task of the Juries involved the conside-ration and judgment of at least a million articles; the difficulties attending it being not a little increased by the want of a uniform system of classification of the subjects in some of the foreign divisions, and by unavoidable imperfections in the Catalogue.

In these circumstances the Juries can scarcely venture to hope that accidental omissions may not have occurred; but they have the satisfaction of feeling that these, if any, are not attributable to a want of care or diligence on their part.

It now only remains for me, in laying the result of our labours respectfully before your Royal Highness and Her Majesty's Commissioners, to offer, on behalf of my Colleagues and myself, our grateful acknowledgment of the honourable confidence which you have placed in us; and to express the hope that we shall be found to have fulfilled our trust in a manner worthy of the noble undertaking in which we are proud to have been called upon to bear a part.

## APPENDIX A.—EXHIBITION OF INDUSTRY.

## DECISIONS REGARDING JURIES.

## GENERAL CONDITIONS.

1. There shall be one Jury to each of the Thirty Classes, into which the Exhibition is divided. 2. The number of Jurors in each Jury is determined by the amount of articles exhibited in each Class, and the greater or less diversity of the subjects included in it, but no abstract idea of the relative importance of the Classes is involved in the numbers attached to them.

3. The following list describes the Thirty Juries, and the number of Jurors to each Jury:-

4. A classified List of subjects under the province of each Jury is prepared, and forms the limitation to each class.

5. The Articles in the Building are arranged as much as possible in the 30 Classes so as to be coincident with the field of action of each Jury, and to facilitate its labours.

6. If Exhibitors accept the office of Jurors, they cease to be competitors for prizes in the class to which they are appointed, and these cannot be awarded either to them individually, or to the firms in which they may be partners.

7. Juries may take evidence when a majority of the Jury deem it advisable, and name the persons to be consulted. Jurors of another class may also be called in aid by a Jury, when a knowledge involved in that class is required.

8. Juries may act in matters of detail by sub committees, but no award can be made except by the majority of the Jury.

9. Before a Jury can finally make its awards, they must be submitted to a meeting of the Juries of allied subjects, as indicated in the groups in the Decision 3. These Meetings of allied Juries will have power to confirm the award of the Juries, and to investigate any disputed decisions. Before, however, the awards are published, they must be submitted to a Council, consisting of the Chairmen of the Juries, in order to secure uniformity of action—and a compliance with the regulations originally laid down by that body.

10. The awards of a Jury, when reported by the Council of Chairmen as being made in conformity to the rules, are final.

11. The Juries will commence their duties on Monday the 12th May, at 10 o'clock, and will be aided in the general transaction of the business by a person to be named by the Royal Commissioners, who by himself, or by a deputy to be approved of by the Commission, may be present at their delibera-

\* The Jury for Agricultural Implements is made exceptional, as the Agricultural Committee, consisting of eminent Members of the Royal Agricultural Society, have undertaken the functions of the Jury. Foreigners may be added to this Committee, if desired. tions, for the purpose of explaning the rules of the Commission. This Nominee of the Commission will not have a vote in any of the Juries, or at all interfere in the adjudication of awards.

## CONSTITUTION OF JURIES.

12. The Jury will in general consist of an equal number of British subjects and of Foreigners.\* 13. If Foreign Commissions do not send a sufficient number of Foreigners to represent one half of the Jurors in each Class, the deficient numbers may be completed by the appointment of British subjects.

14. Country as well as metropolitan districts will be represented on the Jury. 15. Each Jury will be presided over by a Chairman to be nominated by the Commissioners, and

he will be aided by a Deputy Chairman to be elected by the Jury.

16. Juries may appoint one of their own body as a reporter.

## COUNCIL OF CHAIRMEN.

17. The Chairmen of the Thirty Juries will be associated as a body, to be called the "Council of Chairmen.

18. In the absence of a Chairman, the Deputy Chairman will take his seat at the Council.

19. The Council of Chairmen will be constituted, as far as practicable, of British subjects and Foreigners in equal numbers.

20. The first and chief duties of the Council of Chairmen will be to frame the rules for the guidance of the Juries.

21. The Council will also have to determine the conditions under which the 1st, 2nd, and 3rd Class Medals respectively are to be awarded, and to define the general principles to which it will be advisable to conform in the awards in the several departments of the Exhibition. It is the wish of the Commission that Medals should be awarded to articles possessing decided superiority, of whatever nature that superiority may be, and not with reference to a merely individual competition. The three Classes of Medals are intended to distinguish the respective characters of subjects, and not as first, second, and third in degree for the same class of subjects.+

22. The Council of Chairmen must see that the awards of the individual Juries are in accordance with the rules, before they are considered final.

23. Although the Commissioners may be disposed under peculiar circumstances, as set forth in

\* The following list contains the actual number of the Jurors sent by each country :---

+ The following decisions relative to Prizes and Juries already published, are repeated for the purpose of more detailed information

"Her Majesty's Commissioners have had under their consideration the subject of the Prizes to be awarded to exhibitors, and have resolved to take immediate steps for having (three) Medals struck of various sizes and different designs, it being their opinion that this is the form in which it will, generally speaking, be most desirable that the rewards should be distributed. They have decided to select bronze for the material in which the Medals are to be executed, con-sidering that metal to be better calculated than any other for the development of superior skill and ingenuity in the modellie set and at the serve time the metal to be better calculated than any other for the development of superior skill and ingenuity in the medallic art, and at the same time the most likely to constitute a lasting memorial of the Exhibition.

should be distributed. They have declade to select points for the material when the means are to be executed, considering in the metallic art, and at the same time the most likely to constitute a lasting memorial of the Exhibition.
 "With regard to the mode in which the Prizes are to be awarded, the Commissioners think it inceptedient to establish beforehand rules so precise as to fetter the discretion of the Juries upon which the task will ultimately devolve. It will be sufficient for the present to indicate the general principle to which it will probably be advisable to conform in the award of Prizes for successful competition in the several departments of the Exhibition.
 "In the department of RAW MATERIALS AND FRONCCE, for instance, Prizes will be awarded upon a consideration of the value and importance of the article, and the superior excellence of the particular specimens exhibited i and in the case of prepared materials, coming under this head of the Exhibition, the Juries will take into account the novelty and importance of the article, and the superior excellence of the particular specimens exhibited i and in the case of prepared materials, coming under this head of the Exhibition, the Juries will take into account the novelty and importance of the article, so will be given with reference to novelty in the invention, superiority in the execution, increased efficiency, or increased economy, in the use of the article exhibited. The importance, in a social or other point of view, of the purposes to which the article is to be applied, will also be taken into consideration, as will also the amount of MANUPACTURES, those articles will be rewarded which falli in the highest degree the conditions specified in the sectional list, viz. — Increased usefulness, such as permaneny in dyes, improved forms and arrangements in articles of utility, & Superior quality, or superior skill in workmaship. New use of known materials. Use of new materials. New combinations of materials, as

the undermentioned decision,\* to consider the propriety of pecuniary grants to individual exhibitors, they will only take such applications into consideration on the recommendation of the several Juries, sanctioned by the Council of Chairmen.

24. As some of the most important dutics of the Council of Chairmen are preliminary to the action of the Juries, it is necessary that they should meet one week previous to the assembling of the Juries.

The duties of the Council will therefore commence on Monday, the 5th of May. 25. In order to represent the wishes of the Commission, and to explain its rules, a nominee of the Commission will attend the meetings of the Council, and aid it in the transaction of business; but he will not possess a vote, or act as a member of the Council.

## MODE OF APPOINTING ENGLISH JURORS.

26. Those towns which exhibit to a considerable extent in any of the Classes will be invited to send a list of names of persons who would efficiently represent the knowledge of those Classes as Jurors.

27. It will be necessary to state, according to the classified Jury list, the subdivisions of the Class with which the person recommended is specially acquainted; and all nominations must be made in classes, and not in the aggregate.

28. As it is necessary to reduce the lists to the standard number for each Jury, the Commission charges itself with this duty.

29. Those persons who have been recommended as Jurors, but who, from the small numbers of the Jury, are not placed on it, may, on the application of a Jury, be called in on special occasions, to give aid, under the title of Associates, but without a vote.

## MODE OF APPOINTING FOREIGN JURORS.

Note .-- The decisions regarding Foreign Jurors are delayed until the opinions of the Agents of Foreign Commissions are obtained as to the proportions in which each nation should be represented in the respective classes, and as to the principles of nomination most agreeable to the countries which they represent.

## MEETING OF JURIES.

2 31. The Jurors, on being appointed, will receive immediate notice of appointment, and their names will be published.

32. The Chairman will be required to meet on Monday, the 5th May, at 10 o'clock. 33. The Juries will meet for the transaction of business, on Monday the 12th May, at 10 o'clock.

34. Although impossible to set apart special days in which the Juries alone can examine the Articles exhibited, to the exclusion of the public, arrangements will be made to carry on these examinations with as little inconvenience as possible.

35. Jurors, immediately on their arrival in London, are requested to report themselves at the Jury Office, in the Exhibition Building, where they will obtain their Juror's Ticket, and receive all necessary information.

## APPENDIX B.—EXHIBITION OF 1851.

## INSTRUCTIONS FROM THE COUNCIL OF CHAIRMEN TO THE JURIES.

1. In accordance with the decisions of the Royal Commissioners, the Council of Chairmen have met and agreed to the following Instructions as a guide to the Juries.

2. Working of Juries-In regard to the working of the Juries, the Council of Chairmen think it advisable to leave much to the discretion and gradual experience of each Jury; but upon the following points the decisions of the Royal Commissioners are precise, and it will be desirable that the practice of the Juries should be uniform.

3. The Juries will, at their first meeting on Monday, consider the course to be followed in the examination of the subjects confided to them, and arrange generally the time and places for their respective meetings.

4. Deputy Chairman.—The first duty of each Jury will be to elect a Deputy Chairman, who will assist the Chairman, and fill his place in the Jury, or at the Council, in his absence.

5. Reporters.-A Member of the Jury will be appointed to draw up a Report upon the Class of subjects submitted to it. It will be advisable that this appointment should be made as soon as the eligibility and willingness of some Member to undertake that duty can be ascertained. As the Reports will probably be published, they should be drawn up with the care necessary to describe the State of Industry of all Nations, as shown in this Exhibition, and in such a manner as may best form a permanent record of the Exhibition itself.

• "Lastly, the Commissioners in announcing their intention of giving Medal Prizes, do not propose altogether to exclude pecuniary grants, either as Prizes for successful competition, or as awards under special circumstances, accompanying, and in addition to the honorary distinction of the Medal. There may be cases in which, on account of the condition of life of the successful competitor (as for instance, in the case of workmen), the grant of a sum of money may be the most appropriate reward of superior excellence; and there may be other cases of a special and exceptional nature, in which, from a consideration of the expense incurred in the preparation or transmission of a particular article entitled to a Prize, combined with a due regard to the condition and pecuaiary circumstances of the party exhibiting, a special grant may with propriety be added to the honorary distinction. The Commissioners are not prepared, for the present, at least, to establish any regulations on these heads. They consider it probable that a wide discretion must be left to the Juries to be hereafter appointed in respect to the award of Money Prizes, or the grant of money in aid of honorary distinctions; it being understood that such discretion is to be exercised under the superintendence and control of the Commission."

No. 21254.

В

6. Sub-Committee.—The Royal Commissioners have given their sanction to Juries acting in matters of detail by Sub-Committees. How far it may be convenient in each case to adopt this system, and to depute to a Sub-Committee, or to individual Members, the investigation of particular objects, is left to the judgment of each Jury, but it must be borne in mind that no Award can be

made but by a majority of the Jury. 7. Evidence and Associates.—When a Jury may wish to call in the aid of persons of technical knowledge to aid their judgment, they may do so in conformity with the 29th Article of the General Decisions.

8. Jurors of another Class, when knowledge of that Class is required to guide the Jury, may be called in if a majority of the Jury should decide to do so.

9. In both the above cases, however, the persons to be consulted do not possess votes, and only remain associated with the Jury as long as the special occasion for which they were called requires their presence.

10. Juries to carry on their Investigations without delay.—The Juries are expected to carry on their investigation with as little intermission, and to come to their decision with as little delay as possible.

11. Mode of making Awards .- When a Jury has decided upon its Awards, those Awards will be submitted to a Meeting of all the Juries of the same group for confirmation, and for the investigation of any Decision that may be disputed.

12. The Awards will then be submitted to the Council of Chairmen, to secure uniformity of action, and a compliance with the Rules now laid down, or which may hereafter be sanctioned by the Council.

13. The Awards will become final as soon as the Council of Chairmen shall have reported that they are in conformity to those Rules.

14. Secresy.-All the Considerations, Discussions, and Decisions of each Jury and of the Council of Chairmen are to be considered as strictly confidential, and on no account to be divulged until the Award has become final.

15. Medals to be awarded without reference to Nationality .- The Medals will be awarded for excellence only, without reference to countries, the Exhibition being considered as a whole, and not as

consisting of the products of different nations. 16. Individual competition to be avoided.—In making the Awards the Juries will bear in mind that the Royal Commissioners desire that the different Medals should indicate different kinds of merit, and not degrees in the same kind of merit.

17. Two Medals only to be awarded.—The Juries will only have to award the medium size and large Medal. The small Medal will not be given by the Juries, the Commission having withdrawn it as a Prize Medal, at the request of the Council of Chairmen.

18. Conditions for the Award of the Medals .- The medium size (or, as it is proposed to be called, the "Prize Medal"), will be awarded by the Juries in conformity with the decisions laid down in the paper issued by the Royal Commissioners, with the general indications contained in these directions. 19. The great Medal can be finally awarded only by the Council of Chairmen, upon recommenda-

tions made to that body by the allied Juries referred to in Decision 9.

20. Each Jury must obtain the sanction of its own group of Juries to its recommendation of the great Medal, before the Council of Chairmen can take the award into consideration. The grounds on which this recommendation is made must be fully stated. The great Medal will only be given for very pre-eminent and indisputable merit. It is impossible, until the Juries have acquired a know-ledge of the articles exhibited, to define the proportion of the great to the Prize Medal; but the Council of Chairmen have to announce their intention of making the proportion a very small one.

21. The Chairmen of the groups of Prizes have had under their consideration the various conditions which it will be advisable to adopt in the award of Prizes in the various classes into which the Exhibition is divided. They do not intend that these conditions should be compulsory on the Juries, as it is probable that they may require modification in particular cases, but they may be useful as indications to show the general grounds on which awards may be made.

#### GROUP A.

Medals are to be awarded for novelty in the mode of obtaining, applying, and adapting Raw Materials and Produce, skill and excellence in known modes of obtaining, applying, or adapting them; comparative excellence in the quality obtained, combined with utility. The value of the instructiveness of any Series exhibited.

## GROUP B.

The Sub-Committee of the Chairmen of this Group, for certain reasons set forth in their Report (see Report), strongly urge that if novelty of invention (as far as regards Machinery) be not altogether excluded, the greatest caution should be used, and the most jealous scrutiny employed by Jurors before any Prize whatever be awarded under such claims for merit.

### CLASS V.—Machines for Direct Use.

Fitness of the work for the object sought to be obtained (which combines almost every merit of Machinery), economy in first cost, durability, economy of maintenance, excellence of workmanship.

## CLASS VA.-Carriages.

Successful application of any new Material, with elegance of design and excellence of workman-ship, strength and lightness, reasonable cheapness.

Note.—These qualities will apply almost exclusively to Carriages of luxury.

For the Public Service.-Lightness, sufficient solidity for safety, durability, cheapness.

## CLASS VI.—Manufacturing Machines and Tools.

Fitness of the Machinery for the objects sought, economy in the first cost, durability, and excellence of workmanship; economy in production, and perfection in articles manufactured; saving in time, and quantity produced; economy of maintenance.

## CLASS VII.—Civil Engineering, Architectural and Building Contrivances.

Science and skill in Design to obtain the object sought with the greatest economy; fitness in the application of Materials, success in the work in which the Model or Drawing is exhibited; perfection of workmanship in the Model or Drawing exhibited.

## CLASS VIII.-Naval Architecture, and Military Engineering, Ordnance, Armour, and Accoutrements.

Merits of combination in the Models or Drawings relating to Military or Naval Engineering; advantages obtained by experiments in carrying out the means proposed either by Models or Drawings. Improvements in Arms, Apparatus, or any articles belonging to Military and Naval Service or Architecture, to Rigging or other branches of Seamanship, to Accoutrements or Equipments of Troops, their fitness and efficacy; economy in production.

## CLASS IX.

In this class actual trial has been found generally necessary for the safe award of Prizes; Field Instruments being tried on the land, and Yard Implements being also set to work, and the results exhibited in Numerical Tables.

## CLASS X.—Philosophical Instruments.

Novelty of inventions, or novelty in the whole or part of the instruments; ingenuity of construc-tion; new application of old principles; application of new principles; improved beauty of form; increased durability, and more extensive application.

## CLASS XA.—Musical Instruments.

Novelty of invention, novel application of old inventions, improvement of mechanical action. Tone, perfection of workmanship, beauty of design combined with general excellence, increased facility of action, cheápness combined with durability.

## CLASS XB.-Horology.

Ascertained or probable accuracy and certainty of performance, whether time-keeping, discharging of striking parts, or registering; stability, strength and durability, simplicity and economy of construction, goodness of execution. High finish to be considered subordinate to the scientific objects.

#### CLASS XC.-Surgical Instruments.

For instruments which possess novelty of a useful character, and giving evidence of originality and inventive power, ingenuity in the application, extension, or modification of principles already known, or for new combinations, mechanical skill, including cheapness, finish, and other qualities of mechanical execution.

## GROUP C .- Manufactures. Textile Fabrics.

In this, those articles will be rewarded which fulfil in the highest degree the conditions specified in the sectional list, namely, increased usefulness, such as permanency in dyes, improved forms and arrangements in articles of utility, &c.; superior quality, or superior skill in workmanship; new use of known materials; use of new materials; new combinations of materials; beauty of design in form or colour, or both, with reference to utility; cheapness relatively to excellence of production.

## GROUP D.-Metallic, Vitreous, and Ceramic Manufacture.

Important inventions and discoveries, or regularity combined with excellence of design; novel application of known discoveries; great utility combined with economy and beauty; excellence of workmanship and quality.

#### GROUP E.-Miscellaneous.

Novelty of material in application, excellence of design, material, workmanship, and cheapness.

### GROUP F.-Fine Arts.

Originality and excellence of design and importance of the work, combined with great merit of execution ; merit in execution, combined with application to useful purposes.

## APPENDIX C.

#### MINUTE OF ROYAL COMMISSION ON THE AWARD OF THE COUNCIL MEDAL.

"With reference to the awards of the Council Medal, the Commissioners think it proper to recapitulate the terms of those Decisions, and to explain with somewhat greater minuteness the exact meaning which they intended to attach to them.

"The 107th of the published Decisions of the Commissioners is as follows :---

"'It is the intention of the Commissioners to reward excellence in whatever form it is presented, "' and not to give inducements to the distinctions of a merely individual competition. Although the "' Commissioners have determined on having three Medals of different sizes and designs, they do not "' commissioners have determined on having three Medals of different sizes and designs, they do not "' consider the Juries to award them as first, second, and third in degree for the same "' consider that the Juries will rather view the three kinds of Medals as a means of appreciating "' distinguishing the Juries of the method of the method and not af method." " 'and distinguishing the respective characters of the subjects to be rewarded, and not of making " 'distinctive marks in the same Class of Articles exhibited.'

not as first, second, and third in degree for the same class of subjects.'  ${f B}~2$ 

"The important feature in these Decisions, and that which distinguishes the mode of granting Medals on the present occasion from that usually adopted in the Exhibitions in Foreign Countries, is the announcement that the Medals are not to be awarded 'as first, second, or third in degree for the same class of subjects.' It is obvious, therefore, that in the case of manufactured Articles, mere excellence of manufacture, being in other words a mere difference in degree between subjects included in the same class, cannot be rewarded with a Council Medal without a deviation from the principle of this decision. If, however, there is any novelty of invention or adaptation, or any peculiarity in the mode of manufacture, which can also be taken into account, and of which the importance and value shall be judged sufficient, the Council Medal may properly be given.

"Thus, for example, if a piece of Linen be exhibited of such remarkable excellence as to be at once and by unanimous consent recognized as greatly superior to any other piece of Linen in the whole Exhibition, yet if the ordinary processes only have been employed in its production, and if it be not distinguished by any originality in the design applied to it, it ought not to have a Council Medal, however great may have been the care and labour bestowed upon it. But if, on the other hand, a piece of Linen of very decided excellence should be produced by a new method, exhibiting advantages not hitherto attained, it would be quite within the spirit of the Decision in question that such method should be rewarded with a Council Medal.

"Or again, if a sample of Sugar of extraordinary fineness should be exhibited, if such fineness were the result only of the application of the ordinary processes, with more than ordinary care and skill, it ought not to have the Council Medal; but if a new chemical agent or a new process had been employed with advantage in its production, the process by which it was produced, if sufficiently important, would be eligible to receive it. "It is not, however, intended to limit the granting of the Council Medal to cases of production by

"It is not, however, intended to limit the granting of the Council Medal to cases of production by a new process: such a rule would, of course, not apply where the question of Fine Art was involved. In judging of works of pure art, the Medal will, of course, be given to those cases were the most remarkable and pre-eminent genius has been displayed; and in cases where design is applied to an article of Manufacture, it may sometimes happen that it will be of sufficient originality and importance to justify the grant of a Council Medal as an acknowledgment of the taste displayed.

"Thus, for instance, a piece of Porcelain or a piece of Tapestry, though they could not receive the Council Medal for the mere excellence of the workmanship, might properly receive it for a very extraordinary and original merit of the design applied to them. And, in like manner, though a Council Medal ought not to be given to a piece of Furniture, of which the principal merit was that it was well made, it might be awarded to it if there were so much beauty in the design as to entitle it to great distinction as a Work of Art.

"The Commissioners must, however, limit themselves by observing that they would not recognize beauty of design as a sufficient title to a Council Medal, unless applied to an object of some importance. Very great merit might be found in the carving of an umbrella or a pipe, yet it might be thought improper to reward such merit with a Council Medal, on account of the comparative insignificance of the subject.

"This last observation naturally leads the Commissioners to offer some remarks upon another point on which its possible that doubts may arise; namely, whether the fact of an Exhibitor having incurred great expense in the preparation of an Article for exhibition should entitle him to a Council Medal: as, for instance, in the case of the Exhibitors of valuable Raw products, of specimens of Manufactured Goods remarkable only for the size of the specimens, of very precious Jewels, or of collections of the productions of particular districts. In these cases the Commissioners are decidedly of opinion that the mere fact of a large outlay of money ought not to be regarded as entitling an Exhibitor to receive a Council Medal, though care should, of course, be taken, that his zealous co-operation in promoting the objects of the Exhibition be properly noticed in the Report of a Jury of his Class.

"In the foregoing remarks the Commissioners have repeatedly spoken of rewarding inventions and new processes. They think it right, therefore, to guard themselves against being supposed to throw upon the Juries the duty of discovering whether each particular object which they mark for reward is actually the invention of the party claiming the merit of it. They can conceive that, in many cases, such an investigation would, under the circumstances, be impossible. In Machinery, particularly, they presume that the Juries will reward an important machine without undertaking to pronounce whether the novelties exhibited in its construction have been originated by the Exhibitor, or have been borrowed or adapted by him from some one else. The test of invention will be satisfied if the Machine be rewarded for its importance and ingenuity, and not for the mere excellence of workmanship.

"As the Commissioners have referred to the claims of invention, it would appear to be desirable to fix some date beyond which invention should cease to be a claim for the Council Medal. It has not been made a condition in the admission of Articles to the Exhibition that they should be new; but it would be obviously difficult and inexpedient to discuss claims of invention made many years since. It appears to the Commissioners that, as most European States consider from fourteen to fifteen years a proper period for limiting by patents the use of an invention to the discoverer before it becomes the property of the public, this period would form a limit, beyond which the claims of invention should not be admitted.

claims of invention should not be admitted. "In communicating these remarks to the Council of Chairmen, the Royal Commissioners must again repeat that they are only anxious to obviate the danger of their published Decisions being misunderstood. The responsibility of giving effect to those Decisions must rest with the Council of Chairmen, in whom the control of the separate Juries, and more particularly the duty of regulating the distribution of the Council Medal, has been specially vested; and the Royal Commissioners would strongly impress upon them the responsibility under which they lie of exercising that control with care and firmness, according to the opinions which they may personally entertain of the merits of the several cases brought before them,"

••••

## APPENDIX D.

DR. LYON PLAYFAIR, F.R.S., Special Commissioner in Charge of the Department of Juries.

## DEPUTIES.

John Wilson, F.R.S.E., late Principal of	for Group A.	•		Raw Materials.
the Royal Agricultural College.	-

## LIST OF JURORS AND ASSOCIATE JURORS.

## I. MINING, QUARRYING, METALLURGICAL OPERATIONS, AND MINERAL PRODUCTS.

Sir Henry de la Beche, C.B., F.R.S., Chairman, 28, Jermyn Street, Piccadilly; Director-General of the Geological Survey of the United Kingdom, &c. A. Dufrenoy, Deputy Chairman and Reporter, France; Member of the Institute of France, Inspector-

General of Mines, &c. M. Faraday, F.R.S., Royal Institution, Albemarle Street; Professor of Chemistry to the Royal Institution.

Jules Henri Geirnaert, Belgium ; Engineer-in-Chief of the Corps of Miners.

W. E. Logan, F.R.S., 42, Sackville Street; Director of the Geological Survey of Canada. Ferdinand Schreiber, Zollverein; Mining Engineer. Richard Taylor, F.G.S., Truro; Mineral Surveyor to the Duchy of Cornwall. Professor Peter Tunner, Austria; President of Imperial Mining School, Leoben, Styria,

ASSOCIATES,

Gabriel Kameneky," Russia; Councillor of the Administration of Finances,

Juror in Class XXV.

II. CHEMICAL AND PHARMACEUTICAL PROCESSES AND PRODUCTS GENERALLY.

J. Dumas, Chairman, France; Former Minister of Agriculture and Commerce, Member of Institute, &c. Thomas Graham, F.R.S., Deputy Chairman and Reporter, 4, Gordon Square ; Professor of Chemistry, University College.

Jacob Bell, M.P., 15, Langham Place; Pharmaceutist. Michele Galeani, M.D., Sicily; Doctor of Medicine.

George Gossleth, Austria ; Chemical Manufacturer

John Mercer, F.C.S, Oakenshaw, near Accrington, Lancashire; Calico Printer. H. L. Pattinson, F.C.S, 10, Grey Street, Newcastle-on-Tyne; Chemical Manufacturer.

Dr. Varentrapp, Zollverein; Professor of Chemistry.

### ASSOCIATES.

Thomas Anderson, M.D., F.R.A.S., Edinburgh; Chemist to the Highland and Agricultural Society of Scotland.

Balard,\* France; Member of the Institute, &c.

L. L. Bonaparte, France; Member of the National Assembly. William Linton, 7, Lodge Place, St. John's Wood; Artist.

A. Payen, † France; Member of the Institute, Professor at the Conservatory of Arts and Sciences, Member of the Central Jury, &c.

Eugène Peligot, 1 France; Professor at the Conservatory of Arts and Sciences, Member of the Central Jury.

John Percy, M.D., F.R.S., Museum of Practical Geology, London; Professor of Metallurgy.

J. Persoz, France ; Professor of Chemistry at Petersburg, Member of the Central Jury, &c.

Juror in Class XXVIII.

‡ Juror in Class XXIV.

Juror in Class IV

§ Juror in Class XVIII.

## III. SUBSTANCES USED AS FOOD.

Edward de Lode, Chairman, Russia; Member of the Institute for the Administration of the Domains of the Empire. Sir J. P. Boileau, Bart., F.R.S., Deputy Chairman, 20, Upper Brook Street.

Joseph D. Hooker, M.D., R.N., F.R.S., Reporter, Royal Gardens, Kew; Botanist.

Comte Herve de Kergolay, France; Secretary of the Central Jury, &c. Dr. J. Lindley, F.R.S., 21, Regent Street; Professor of Botany, University College. Ashbel Smith, United States; Planter.

No Associates in this Class.

IV. VEGETABLE AND ANIMAL SUBSTANCES CHIEFLY USED IN MANUFACTURES, AS IMPLEMENTS, OR FOR ORNAMENT.

Professor Richard Owen, F.R.S., Chairman and Joint Reporter, College of Surgeons, Lincoln's Inn Fields; Curator to the College of Surgeons.

A. Payen, Deputy Chairman, France; Member of the Institute, Professor to the Museum of Arts and Sciences, Member of the Central Jury, &c. Professor Edward Solly, Joint Reporter, F.R.S., 15, Tavistock Square; Lecturer on Chemistry at

Addiscombe.

Judge E. S. Duncan, United States. Dr. J. F. Royle, F.R.S., Heathfield Lodge, Acton; Professor of Materia Medica, King's College. Ramon de la Sagra, Spain; Corresponding Member of National Institute of France. N. Wallich, M.D., F.R.S., 5 Upper Gower Street, Bedford Square; formerly Curator of the Botanical Gardens, Calcutta.

F. Wehe, Zollverein; Councillor of Home Economy.

## ASSOCIATE.

George Peterson\*, Russia; Member of the Scientific Committee for the Administration of the Domains of the Empire.

Juror in Class XXVIII.

V. MACHINES FOR DIRECT USE, INCLUDING CARRIAGES AND RAILWAY AND NAVAL MECHANISM.

Rev. Henry Moseley, M.A., F.R.S., Chairman and Reporter, Wandsworth; Inspector of Schools, and formerly Professor of Mechanics at King's College.

Colonel A. Morin, Deputy Chairman, France; Member of Institute and of Central Jury, and Director to Museum of Arts and Sciences.

## ANSWER OF HIS ROYAL HIGHNESS PRINCE ALBERT TO LORD CANNING'S REPORT

## My Lord,

THE Royal Commissioners are much indebted to your Lordship, and to the distinguished gentlemen of this and other nations, who have acted on the Juries entrusted with the award of the Prizes in the recent Exhibition, for the zeal with which they have undertaken, and the ability with which they have fulfilled, the task which has been allotted to them. The Commissioners are sensible that the services of these gentlemen have in many instances been rendered at great inconvenience to themselves, and at the sacrifice of very valuable time, and of important avocations. It is with pride and pleasure, that they have noticed in the lists of those who have performed this service to the Exhibition, the names of men of every nation of the most exalted rank, and of the most eminent reputa-tions in statesmanship, in science, in literature, in manufactures, in commerce, and in the fine arts; of men in every respect well calculated not only to form a correct technical judgment upon the merits of the articles submitted to their inspection, but also to maintain the high character which the Commissioners have uniformly striven to impart to the Exhibition.

In no department of the vast undertaking which has just been brought to a happy close, were greater difficulties to have been apprehended than in that in which your Lordship and your eminent colleagues have given your assistance. On this, the first occasion on which the productions of the different nations of the globe have ever been brought together for the purpose of comparing their several merits, not only were prejudices and jealousies to have been expected to interfere with the decisions, but the nature of the case presented many difficulties of a formidable character, to the formation of a judgment which should appear satisfactory to all. The names of the Jurors, indeed, when once made known, were of them-selves a sufficient guarantee for that impartiality which was essential to the fulfilment of their task; and from all that has come to the knowledge of the Royal Commissioners during the progress of their labours, they are fully satisfied that every award has been made with the most careful consideration. after the most ample and laborious investigation, and upon grounds most strictly honourable, just, and caudid.

But although the high character of the Jurors would have fully justified the Commissioners in entrusting them with the award of the Prizes without fettering their discretion with any instructions whatever, had nothing more than an impartial decision been required, there were difficulties of a very peculiar nature inherent to the task, which seemed to render necessary the adoption of some regulations that might, at first sight, appear to have been somewhat arbitrary in their character. The differences in the wants of various nations having necessarily impressed their several manufactures with different characteristics, it would seem to be almost impossible for those who have been in the habit of judging the productions of their own country by one standard, to enter fully into merits which can only be properly appreciated by another standard, since the very points which in the one case appear to be excellencies, may in the other, not unnaturally, be taken as defects. This consideration, and a know-ledge of the evils which were to be apprehended from any accidentally erroneous decision, in a matter so intimately connected with the commercial interests of every nation, induced the Royal Commissioners

to lay down, for the guidance of the Juries, those principles to which your Lordship has referred. It would perhaps have been more interesting to the public had the Commissioners instructed the Juries to follow the practice which has usually prevailed in the Exhibitions of individual nations, and to grant medals of different degrees, to mark the gradations of excellence among the Exhibitors; but they feel that they have adopted the safer course, and that which was upon the whole most in accord-ance with the feelings of the majority of the Exhibitors, in directing that no distinction should be made between their merits if their productions came up to the standard requisite to entitle them to a Prize, but that all should without exception take the same rank and receive the same Medal.

The Commissioners, however, considered it right to place at the disposal of the Council of Chairmen a peculiar or "Council" Medal in the cases to which your Lordship has referred. Important discoveries in many branches of science and of manufactures have in this Exhibition been brought under the notice of the public; and it seems just that those who have rendered services of this kind to the world, should receive a special mark of acknowledgment on an occasion which has rendered so conspicuous the advantages which the many have derived from the discoveries of the few

The grant of the Council Medal for beauty of design, and for excellence in the fine arts, as applied to manufactures, though made upon a somewhat different principle, is also compatible with the views of the Commissioners, since in the cases in which it has been given it does not mark any greater comparative excellence of manufacture, or assign to one producer a higher place than is accorded to others, but is to be regarded as a testimony to the genius which can clothe the articles required for the use of daily life with beauty that can please the eye, and instruct and elevate the mind. Valuable as this Exhibition has proved in many respects, it appears to the Commissioners that there is no direction in which its effects will be more sensibly and immediately perceived than in the improvement which it may be expected to produce in taste, and the impulse it has given to the arts of design; and a special acknowledgment is justly due to those who have afforded the best examples of art, whether pure or applied, and led the way in this interesting career of improvement.

It now remains for the Commissioners once more to return to your Lordship and your Colleagues their cordial thanks; and they must not omit to include in these acknowledgments those gentlemen who have in various ways assisted you in your labours, particularly those who have acted with you as Associates or Experts for the purpose of assisting your judgment in matters requiring very minute and special knowledge of particular subjects; and the Commission are well aware that these gentlemen have frequently been of the greatest service. In the hope that the Jurors and Associates might desire to possess a lasting memorial of the Exhibition, a Special Medal has been struck in commemoration of their important services.

It is the intention of the Commissioners to publish not only the names of those to whom the Juries have awarded Prizes, but also the valuable Reports which they have prepared on the state of science, art, and manufactures, in the several branches of the Exhibition with which the Juries have been conversant. The Royal Commissioners fully appreciate the zeal and talent displayed by those Jurors who have accepted the laborious office of Reporters to the Juries ; and they doubt not that their Reports will form most interesting records of this Exhibition, and will afford important materials for ascertaining the progress of human industry, at any future time, when another review of its productions, like the present, may be determined on.

It now becomes my pleasing duty on behalf of the Royal Commissioners, to deliver my most sincere acknowledgments and thanks for the hearty co-operation and support which the Exhibition has constantly received from Foreign Countries. The Foreign Commissioners, who have left their own countries to superintend the illustration of their respective national industries at the Exhibition, have ever shown that desire to aid the general arrangements which alone has rendered possible the success of the undertaking.

To the Society of Arts, which by its exhibition of works of national industry, prepared the way for this international Exhibition, the Royal Commission and the public feel that their acknowledgments are especially duc, and the Commission have to thank that body for having carried out the preliminary arrangements to an extent which justified me as their President in the application which I made to the Crown for the issue of a Royal Commission.

The Commission have also to acknowledge the valuable services afforded by the eminent scientific and professional men who, on the Sectional Committees, aided most materially in founding a scientific basis on which to rear the Exhibition. To the Local Commissioners and members of Local Committees, but more especially to those who

have undertaken the onerous duties of Secretaries, our best acknowledgments are also due. Without their zealous aid it would have been impossible to have obtained an efficient representation of the industrial products of their respective localities.

And finally, we cannot forget that all the labours of those thus officially connected with the Exhibition would have been in vain, had it not been for the hearty good will and assistance of the whole body of Exhibitors, both Foreign and British. The zeal which they have displayed in affording a worthy illustration of the state of the industry of the nations to which they belong, can only be equalled by the successful efforts of their industrial skill. The Commission have always had support and encouragement from them during the progress of the undertaking, and they cannot forget how cheerfully they submitted to regulations essential for their general good, although sometimes producing personal inconvenience to themselves. If the Exhibition be successful in aiding the healthy progress of manufactures, we trust that their efforts will meet with a due reward.

In now taking leave of all those who have so materially aided us in their respective characters of Jurors and Associates, Foreign and Local Commissioners, Members and Secretaries of Local and Sectional Committees, Members of the Society of Arts, and Exhibitors, I cannot refrain from remarking, with heartfelt pleasure, the singular harmony which has prevailed amongst the eminent men representing so many national interests—a harmony which cannot end with the event which produced it. Let us receive it as an auspicious omen for the future; and while we return our humble and hearty thanks to Almighty God for the blessing He has vouchsafed to our labours, let us all earnestly pray that that Divine Providence which has so benignantly watched over and shielded this illustration of Nature's productions, conceived by human intellect and fashioned by human skill, may still protect us, and may grant that this interchange of knowledge, resulting from the meeting of enlightened people in friendly rivalry, may be dispersed far, and wide over distant lands ; and thus, by showing our mutual dependance upon cach other, be a happy means of promoting unity among nations, and peace and good-will among the various races of mankind.

# UNCLASSIFIED COUNCIL MEDALS.

H's Royal Highness Prince Albert .	For the original conception and successful prosecution of the idea of the Great Exhibition of 1851, (Joint Medal with that granted for the Model Lodging House in Class VII)
Chamber of Commerce, Lyons	For the collection which it exhibits, in which it shows the general progress made through their exertions in the Silk Manufactures of Lyons
East India Company, The Honourable	For the very valuable and extensive collection, illustrating the Natural Resources and Manufactures of India
Egypt, The Pacha of	For the very valuable and extensive collection, illustrating the Manufactures and Natural Resources of Egypt
French Minister of War	For the part taken by him in exhibiting the valuable col- lection of Raw Products from Algeria
Spain, The Government of	For the valuable and extensive collection of Raw Products, showing the Natural Resources of Spain
Tunis, The Bey of	For the very valuable and extensive collection, illustrating the Manufactures and Natural Resources of Tunis
Turkey, The Government of	For the valuable and extensive collection of Raw Products, showing the Natural Resources of Turkey

Nation.	Number in Catalogue.	Name of Exhibitor.	Objects Rewarded.
United Kingdom	244	Reeves, Greaves, and Reeves	Swords and other Side-arms, artistically embellished
Belgium	141	Renkin, Brothers .	Numerous collection of Sporting and Trade Guns
United Kingdom .	290 -	Rhind, W. G	Deck Seat to form Raft. This seat can be readily formed into a safety raft, capable of sustaining eight people
United Kingdom .	240	Richards, Westley .	Best Guns and Sporting Guns
United Kingdom	236	Rigby, W. and J.	Guns, Pistols, and Rifles, and Barrels of Damasque
United Kingdom .	291	Rigmaiden, Lieut. J. R.N.	Model of improved mode for setting up the standing rigging of ships
United Kingdom .	193	Robinsons and Russell (Placed in Class V)	Models of Steam Boats, designed and built by them
France	991	Rocher, M	Distilling and Cooking Galley
United Kingdom .	336	Rodger, Lieut. W	Models of improvements in form of Anchors
United Kingdom .	294	Royal Thames Yacht Club	Models of Vessels belonging to their Club
United Kingdom .	•••	Saunders, J. E (Placed in Class XXIX)	Model of a Welled Smack for fishing, fitted with auxiliary screw propeller. A novel application to vessels of this description
United Kingdom .	•••	Semmens, J. and T. W.	Model of Mounts Bay Fishing Boat. A fine description of boat for the purpose
France		Schneider, — .	Specimen and plans of steam-boat "L'Ocean," for the River Rhone, which vessel has attained great speed, and rendered much service to the commerce on that river
France	•••	Sochet, —	Distilling Apparatus
Switzerland	68	Sauerbrey, V	Target Rifle
United Kingdom .	125	Smith, S	Model of a Spring Machine, for modelling ships of any form or dimensions; an in- genious and ready means of setting up a design in model
United Kingdom .	305	Smith, Thomas and Wil- liam	Specimen Model of Fine Merchant Ves- sels, designed and built by them, for the East India trade
United Kingdom .	136	Teasdell, Wm	For a good specimen of a Life-Boat
Belgium	155	Tourey, —	An ornamental Double Gun, Guns and Arms
United Kingdom .	222	Trulock, E. and Son .	Guns, Pistols, and Rifles, and Barrels of good Damasque
United Kingdom .		Tutt, G (Placed in Class XXIX)	Model of a Hastings Fishing Lugger, a very fine description of boat for the purpose
United Kingdom .	36	White, J	Models of vessels for Merchant Service, and Yachts, designed and built by him

Nation.	Number in Catalogue.	Name of Exhibitor.	Objects Rewarded.
United Kingdom .	364	White, T. J. and R.	Models of fine Sailing and Steam Vessels, and Yachts
United Kingdom .	56	Wigram, M. and Sons .	Models of Sailing and Steam Vessels, both paddle and screw; designed and built for various merchants' services
United Kingdom .	200	Wilkinson and Son .	Guns, Rifles, Pistols, and Swords. Swords highly ornamented
Spain	264	Zulaga, D. E	Fire-arms and Swords

United Kingdom .	434	Bain, A	Electric Telegraph
United Kingdom	433	Bakewell, F	Copying Electric Telegraph
United States	463	Bond, Wm. and Son .	For the invention of a new mode of observing Astronomical Phenomena, &c.
France	1108	Bourdon, E	For the invention of Metallic Barometers, and for his Manometers
United Kingdom .	429	Brett, J.	Printing Telegraph
United Kingdom .	144	Brooke, C	For the invention of a means of self-regis- tering Natural Phenomena, by Photo- graphy
United Kingdom .	301	Buckle, S (Class XXX)	For his Photographs on paper
France	443	Buron	For his good Telescopes, the object glass being of Rock Crystal
United Kingdom .	22	Chance, Brothers . (Class XXIV)	A Disc of Flint Glass, 29 inches diameter
United Kingdom .	296	Claudet, A. F	For his several inventions based upon ex- periments in the practice of Photo- graphy; and for his non-inverted pictures
Switzerland	75	Daguet, T	For the superiority of Glass for optical purposes, good specific gravity, clear; crown-glass as clear as flint
France	160	Deleuil, L. J	For his balance Air Pump; and for the invention of an arrangement to keep the charcoal points in Electric Light at a constant distance
United Kingdom .	145	Dolland, G	For Atmospheric Recorder, by means of which the reading of the barometer, those of the thermometer evaporator, fall of rain, direction of the wind, its strength, electric state of the air, &c. are simultaneously registered
France and the second	1197	Dubosq-Soleil, J	For a very ingenious Heliostat, on a new construction, by Silberman; the inven- tion of an apparatus for fixing the char- coal points for electric light; a Saccha- rometer of delicate structure, and much ingenuity, and an elegant and novel instrument, by Brevais, for exhibiting the phenomena of polarized light
United Kingdom	210a	Dunin, Count E	For the extraordinary application of mechanism to his steel expanding figure of a man
France	1609	Froment, G	For the goodness of the work of his Theo- dolites, and divided metre
Tuscany.	57	Gonnella, Professor T	Planometer, a Machine for measuring plane surfaces
United Kingdom .		<b>"Ĝriffith, J. , , ,</b>	For his Barometer, with a vacuum capa- ble of complete restoration by an air trap at the top

and Exclusive of Duty, Is Twenty four Shillings and Two Pence Three Farthings per Hundred Weight;

The AVERAGE PRICE of the three foregoing Descriptions of SUGAR, jointly,

Computed as above, and Exclusive of Duty, Is Twenty-two Shillings and Ten Pence Halfpenny per Hundred Weight.

By Authority of Parliament,

HENRY BICKNELL Clerk of the Grocers' Company.

Grocers'-Hall, October 17, 1851.

Borough of Quinborowe, Kent.

HEREAS, under the provissions of an Act passed in the 9th year of the reign of Her Majesty Queen Victoria, intituled "An Act to make provision for the payment of the debts of the Mayor, Jurats, Bailiffs, and Burgesses of the borough of Quinborowe, in the county of Kent, and for other purposes," I have been appointed under the hands of the Lords Commissioners of Her Majesty's Treasury to ascertain and settle in manner therein mentioned, the claims of the several persons mentioned and included in the first schedule to the said Act annexed, I do hereby give notice that I shall attend for that purpose at the Sun Hotel at Chatham, in the said county of Kent, on Tuesday, the 25th day of November next, at 12 o'clock at noon, when all persons claiming to be creditors of the said Mayor, Jurats, Bailiffs, and Burgesses are to come and prove the amount of their respective debts before me, and all persons claiming to be such creditors who shall not so prove their debts, shall be for ever deprived of any remedy at law or in equity for the recovery of their respective debts, or any part thereof.

# Francis Offley Martin, Arbitrator.

# Registration District of Hartismere.

NOTICE is hereby given, that a separate building, named Rishangles Chapel, situate in the parish of Rishangles, in the county of Suffolk, in the district of Hartismere, in the said county, being a building certified according to law as a place of religious worship, was, on the 13th day of October instant, duly registered for so-lemnizing marriages therein, pursuant to the Act of the 6th and 7th William IV., cap. 85.

Witness my hand this 14th day of October 1851. Charles Fisher Costerton, Superintendent Registrar.

**NOTICE** is hereby given, that a separate building, named the Petworth Congregational Church, situated in Golden-square, in the town No. 21254.

and parish of Petworth, in the county of Sussex, in the district of Petworth, being a building certified according to law as a place of religious worship, was, on the 8th day of October 1851, duly substituted and registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85, in lieu of Petworth Independent Chapel, the registry of which had been cancelled in consequence of the same having been disused as a place of worship by the Congregation on whose behalf it had been previously registered.

Witness my hand this 11th day of October 1851. Arthur Daintry, Superintendent Registrar.

UBLIC notice is hereby given, that a Meet-ing of the Commissioners of Property and Income Tax, for the division or district of Blackheath and Little and Lessness, in the county of Kent, is appointed to be held at the Public Rooms, on Crooms Hill, in the parish of Greenwich, in the said county, on Friday, the 24th day of October instant, at eleven o'clock in the forenoon precisely, on the subject of the neglect of George Bowman, one of the Collectors of the said tax for the parish of St. Paul, Deptford, in the said division and county, to pay certain moneys due from him as such collector; and for the purpose of selling and disposing of the estates of the said George Bowman, to satisfy the same, under and in pursuance of the Statutes in that behalf provided.

By order, Charles Augustin Smith,

Clerk to the said Commissioners.

Crooms Hill, Greenwich,

October 11, 1851.

## TAKE NOTICE.

1. If any Creditor intends to oppose a Prisoner's discharge, notice of such intention must be given, by entry thereof in the proper page and columns of the book kept for that purpose at the Office of the Court, between the hours of Ten in the Forenoon and Four in the Afternoon, two clear days before the day of hearing above mentioned, exclusive of Sunday, and exclusive both of the day of entering such notice and of the said day of hearing; but in the case of a Prisoner, for the removal of whom for hearing in the country an order has been obtained, but not carried into effect by the Creditors, notice of opposition will be sufficient if given one clear day before the day of hearing.

N.B. Entrance to the Office in Portugal-street.

2. The petition and schedule, and all books, papers, and writings filed therewith, will be produced by the proper Officer for inspection and examination until the last day for entering op-position inclusive; and copies of the petition and schedule, or such part thereof as shall be required, will be provided by the proper Officer, according to the Act 1 and 2 Vict. c. 110, sec. 105.

3. Notice to produce at the hearing any books or papers filed with the schedule must be given to the Officer having the custody thereof, within the hours above mentioned, on any day previous to the day of hearing.

4. Opposition at the hearing can only be made by the Creditor in person, or by Counsel appearing for him.

Pursuant to the Acts for the Relief of Insolvent Debtors in England.

### See Notice at the End.
