Milan, April 24.

OUR new Governour, the Count de Fuenalida, arrived here the 22d Instant from Pavia, accompanied with a great many Persons of Quality; The next day the Cardinal Visconti, Archbishop of Milan, made his Excellency a Visit, to compliment him upon his coming to this Government; And all the Great Officers and Ministers of State were likewise to make their Compliments to his Excellency.

Venice, April 27. The last Letters from the Morea give an account, That after the raising the Siege of Chelisa and the taking the Enemies Cannon and Baggage, Captain-General Morosini caused his Troops to Re-embark at Porto Vitulo, and sailed with the Fleet towards the Gulph of Calamata; That a Body of Turkish Horse was encamped near Niezi, a place which the Captain Bassa much delights in, who hearing of the approach of the Venetian Fleet, decamped, and retired in great disorder, leaving behind them several Mules and Wagons with a great deal of Provision, which they were in too much haste to take with them; And that the Maynores pursued the Enemy, and killed and took Prisoners a considerable number of them. We have Advice that the Bassa of Candia having lately taken a Review of the Ottoman Troops in that Kingdom, found they were not 12000, and these, for the most part, raw, undisciplined Men; And that they are in great fear the Venetians will make a Descent in that Island. By a Vessel come from Smirna, we are informed that Nine Men of War of Barbary were arriv'd there under the Command of Babassar, but that they were very ill Manned.

Genova, April 27. We have Advice that the Squadron of Men of War commanded by the Duke of Mircemar, sail'd from Toulon the 9th Instant to the Westward. Two days ago parted from hence one of this States Gallies for Civita Vecchia, to join with the Pope's Gallies that are designed against the Turks. It's said that the Christians will have this Summer in the Levant 55 Gallies, 4 Galeasses, and 30 Men of War; A Force much superior to what the Turks will be able to bring to Sea. It is confirm'd that the Algerines have broke with the Dutch.

Madrid, April 25. The 22d Instant their Catholick Majesties went from hence to the Buen-Retiro, intending to pass some short time there, and to go

afterwards to Aranjuez. Prince Eugene of Savoy, who cover'd before the King the 16th Instant, as Grandee of Spain of the first Rank, parted from hence the 18th for Hungary. They write from Cadix, that 12 Men of War of the Fleet that's to go and meet the Galeons were ready to put to Sea; that the rest were equipping with great diligence, and that they expected three Ships from Holland, where they have been lately built for the Service of this Crown, and six from Biscaye, to join the said Fleet.

Lemburgh, April 12. The King of Poland arriv'd here the 6th Instant, and the next day received by an Expre's from his Ambassadors at Moscow, a Project of the Conditions upon which the Czars are willing to enter into an Offensive and Defensive League against the Turks, the chief of which is; That this Crown shall quit all manner of Pretensions to the Cities of Kicovia and Smolensko; The King having thereupon consulted with the Senators that are here, it was resolv'd to comply therein; and that the said Project should be sent back to the Ambassadors, with directions to hasten the conclusion of this Alliance; By which the Moscovites will be oblig'd to employ a great Army against the Tatars, thereby to divert them from joining with the Turks against this Crown. The King has, since his being here, held several Councils of War. We do not hear that the day is yet fix'd for the general Rendezvous, but it's believ'd 'twill be about the beginning of June. We have an account from Turkey, that the Resident of this Crown at the Port; who has been a Prisoner there ever since the beginning of this War, has at last obtained his Liberty; and is returning home with new Overtures of Peace from the Grand Visier.

Vienna, April 28. The News of Lieutenant-General Scherffenberg's being entred into Transilvania with a Body of 10000 Men, is confirm'd, but what his Orders are, is not yet known; It was report'd upon the first Advice we had of the march of these Forces, that they were to join with those of Transilvania, but by the account we have since; that the Treaty between General Caraffa and the Deputies of Transilvania about settling the Contributions, is broken off; and that the Imperials have thereupon made several Incurfions into that Country, there seems to be more reason to believe that they are gone to treat Prince Abasi as an Enemy, than to join with him as a Friend. The last Letters from the Camp before Monatz told us, they continued their Work for the draining the Ditch, but that the wetness of the Season hinder'd them from making any great progress in it; And it's said here, that General Caprana has Orders to leave the

Conduct of that Siege to the Count de Caraffa, or the Baron de Mercy, the Emperor intending to employ him in some more important Service. The General Rendezvous of the Army near *Barkan* is appointed to be on the 25th of the next Month.

Vizna, May 2. Their Imperial Majesties parted from hence this day for *Newstadt*. The Imperial Troops are on their march to the General Rendezvous near *Barkan*; And all the General Officers that are here, will be going in few days for *Hungary*. *Teckley* has again written to the chief of the *Hungarians* that are in the Emperor's Service, to persuade them to enter into new Engagements with him, but they have sent the Letters to General *Caprara* without opening them. There passes little of moment before *Mongatz*, nor is it expected that the Besiegers will be able to carry on their Attacks with better Success than they now do, till the weather is more favourable. Our Advices from the *Turkish* Quarters say, That the *Asiatick* Troops which are to serve this Campaign in *Hungary*, and against the *Poles*, Rendezvoused the first of the last Month near *Adrianople*, being about 50000 Men; And that the greatest part of these were sent towards *Belgrade*, where the Grand Visier is expected the 10th of this Month; It is still said, that he will command in Person the *Ottoman Army* in *Hungary*, but at the same time we are assured that it will not be composed of above 60000. The *Turks*, we are told, have reinforced the Garrison of *Buda* to 9000 Men, and supplied the place with Provisions and Ammunition.

Strasburgh, May 6. The last week three Battalions marched from hence to *Saar-Louis*, and were followed yesterday by two more, and several others will take the same way, so soon as those that are to supply their places here, are arrived. The *Sieur de Berillac* will begin his march in few days with three or four Regiments of Horse to the Camp that's appointed on the *Saar*. The *Margrave of Baden Dourlach* came hither some days ago, and went from hence to *Biswiler*, where he had a long Conference with Duke *Christian* of *Birkenfeld*, but we know not the Subject of it.

Hamburg, May 7. All the Endeavors that have been used to compose the Differences between the Duke of *Zell* and this City, have hitherto been unsuccessful. The *Lanesburghers* continue in the Isle of *Marwerder*, and the other Posts they are still possessed of within the Territories of this City; And on the other side, their Magistrates have resolved to send out a Detachment of Foot and Dragoons, with four pieces of Cannon, to oblige them to dislodge; but it's hoped that by the interposition of the Imperial Ministers things will be kept from farther Extremities. The *Electors of Brandenburg* returned the 2d Instant to *Berlin* from *Crossen*, where he had been to take a Review of his Troops which are to serve this Campaign in *Hungary*.

Brussels, May 14. Our Letters from *Vizna* of the 2d Instant, give an Account, That the Imperial Court was removed from thence to *Newstadt*, where the *Electors* and *Electores* of *Bavaria* were expected the 10th of this Month; That the Emperor's Forces were marching to the General Rendezvous which was fixed for the 25th Instant, but that it was not yet declared who shall command the Army under the *Electors* of *Bavaria*; That *Count Teckley*, who still feeds the *Turks* with hopes that the *Hungarians*, who were formerly of his Party, will abandon the Emperor's Service, and return to him, had written particular Letters to *Peterhafi*, and all the principal *Hungarian* Officers, offering them great Sums of Money, and other Advantages,

if they would again join with him; And, for farther Inducement thereunto, assuring them that the *Turks* will have a great Army in *Hungary* this Summer.

Whitehall, May 8. The *French* Ambassador having by a Memorial complained to His Majesty, That a Book intituled, *Les Plaintes des Protestants cruellement opprimes dans le Royaume de France*, was sold and dispersed in this Kingdom, in which Book are many Falsities, and scandalous Reflections upon the Most Christian King; And that the said Book was likewise Translated into *English*, and Printed here, His Majesty was pleased to Order, That diligent Enquiry should be made after the Translator and Printer of the same, that they may be prosecuted according to Law: And that a printed Copy of the said Book in *French*, and another in *English*, should be Publickly burnt by the hands of the Common Hangman; which was accordingly put in execution on Wednesday last before the *Royal Exchange*.

Whitehall, May 9. Count *Salazar*, Envoy from the Governor of the *Spanish Netherlands*, has had his Audience of Leave of their Majesties, being Conducted by Sir *Charles Cottrell* Master of the Ceremonies.

His Majesty having been pleased to give Leave to Mr. *Gringling Gibbons*, and Mr. *Parry Waiton* (Two of His Majesties Servants in Ordinary) to sell their Pictures in the Banqueting-House at *Whitehall*, These are to give Notice, That the said Pictures (being a Collection of the best Italian Masters, both Ancient and Modern) will be exposed to Sale on Tuesday next, being the 11th Instant, at Nine of the Clock in the Forenoon, and at Three in the Afternoon, and so to continue from Day to Day, till the whole Collection be sold off. Catalogues will be delivered at the Place.
