Number 2144

Published by Authority.

From Thursday June 3. to Monday June 7. 1686.

Lisbonne, May 7.

**T**HE King returned hither the 28th past from *Sabaterra*; The next day He had a Fit of an Ague, but it lasted not long, and his Majesty is at present perfectly well again. The 5th Instant the *Mareschal de Schomberg* arrived here from *France*, he went directly to a Countrey House not far from this City. We have Advice from *Fernambouque*, that the *Indians* have burnt several Villages belonging to the *Portuguese*, and that the Governor of *Fernambouque* was gone out to suppress them.

*Florence*, May 17. The 11th Instant, the Prince and Princess of *Hanover* arrived here from *Rome*, and were lodged in the Palace of the Duke of *Salvati*, which was prepared for them. They would not receive the Honors the great Duke had ordered to be shewn them, being *Incognito*. The 13th their Highnesses parted again from hence for *Bologna*, intending to go from thence to *Venice*, to be present at the Ceremony that's observed there on *Ascension-day*.

*Venice*, May 17. We have Advice by Letters from the *Proveditor General* of *Dalmatia*, that the *Bassa* of *Aregovina* having drawn together 6000 Foot, and 1000 Horse, and being on his march with them towards *Hungary*, had in his way attacked the Tower of *Nariva*, situate on the River *Narenta*, which was defended by a small Garrison of *Morlaques*; These, after a Siege of four days, finding they could no longer defend themselves, the Enemy, with two pieces of Cannon they had with them, having quite ruined all their Works, quitted the said Fort, and embarked the Night, retiring to another Fort called *Opulch*, about two Miles from *Nariva*; The *Turks* left 200 Men before this considerable place. Captain General *Moravini*, according to our last Advices, was gone to *St. Maura*, where he had appointed the General Rendezvous of his Ships and Gallies. On Monday last parted from hence a Convoy of 14 Ships with Provisions and Ammunition for the Fleet, Count *Charles Cominofmarke*, who has a Regiment in *France*, is arrived here from *Paris*, intending to go and serve in the *Morea* under General *Cominofmarke*'s Uncle. This week arrived here in a Vessel from *Ragusa*, a Person that came lately from *Belgrade*, he reports, that before he left that place, a Fire hapned there, which consumed above 3000 Houses, with the *Bassa*'s Palace, and several Mosques. The Senate have made choice of Signior *Gov Pisano*, to go Ambassador from this Republick to the King of *Spain*.

*Jarvislaw*, May 7. The King and Queen of *Poland* came to this place the 29th of the last month, where his Majesty intends to stay about 10 days or a Fortnight, and then to go to the Army, which he is still resolved to command in Person. The Proops in the mean time, are marching from their several Quarters to the four places of Rendezvous, from

whence they are to march to the General Rendezvous near *Sivaria*. We have Advice from *Valachia*, that the *Turks* are again preparing a great Convoy of Provisions for *Cambes*, which the King has given Orders for the posting several Troops on that side, to hinder their design. We begin to despair of the Success of our Ambassadors Negotiation at *Macon*, notwithstanding all the Offers that have been made by them; The *Turks* are perswaded the *Czars* to a Neutrality, promise to take off the Tribute they pay yearly to the *Tartars*, to be freed from their Incursions.

*Carlsbad*, May 14. The first Instant Count *Theobald Erdedi*, Son of the Viceroy of *Croatia*, marched from hence at the Head of 1600 *Croats*, and took his march towards *Costantiz*, with design to ravage the Enemies Countrey, and to draw that Garrison into an Ambush, for which purpose having posted himself in a Wood, he sent a Party of 60 Men towards the Town to seize the Cattle that was feeding near it, but the *Turks*, whether they had notice of his Number, or that they were quite discouraged by the ill Success that has attended all their Enterprises, did not offer to make any Sally, but suffered the *Croats*, without the least disturbance, to carry away several hundred Head of Cattle from their Neighborhood. We have Advice that the Town of *Macedon*, one of the chiefest and richest of *Bosnia*, was burnt the 28th of the last month by Lightning.

*Vicenna*, May 23. The Elector of *Bavaria* being somewhat indisposed at his Arrival here, went not to *Neustadt* till the 20th Instant; Two days before passed by this place for *Hungary* 70 Vessels with the *Bavarian* Infantry, the Horse and Dragoons marching by Land; The Duke of *Lorraine* continues at *Oedenburg*, not being yet well enough to proceed on his Journey. The General Rendezvous is appointed for the 30th of this month near *Barkau*; And the Count *de Staremberg*, who is to command the Army under the Duke of *Lorraine*, will part from hence tomorrow. Prince *Eugene* of *Saxony* is arrived here from *Spain*, and will be likewise going for *Hungary* in a day or two, having the Command of several Battalies. The Volunteers arrive here daily in great Numbers; There are some above 600 from *Catalonia*, and the neighbouring Countries, who will be formed into a Body under Officers from among themselves. We have Advice from *Zobacke*, that Lieutenant General *de Mercy* being informed that the *Prince Peterz*, having got together 5 or 600 Men, was marching to join with *Tockelen* against him, the *Sieut Peterz* with 700 *Hungarians*, who coming up with *Petrozzi*, about two Miles from *Gauls*, charged him with that Vigor, that they put him to flight, most of his Men being killed or taken Prisoners. The 21 Instant arrived here an Express from *Transylvania*, with the News that Prince *Abashi* had declared, with the consent of the States of that Countrey, that in pursuance
