

provements in the manufacture of candles and night-lights."

2319. To Frederick Warner, of the house of John Warner and Sons, of the Crescent, Jewin-street, city, and John Shotton, Foreman in the employ of said John Warner and Sons, for the invention of "improvements in the manufacture of large bells."

2321. And to Hugh Lee Pattinson, of Scot's House, near Gateshead, in the county of Durham, Chemical Manufacturer, for the invention of "improvements in the manufacture of sulphuric acid."

On their several petitions, recorded in the Office of the Commissioners on the 10th day of October, 1853.

2323. To Henry Kemp, of Barkam-terrace, Southwark, Gentleman, for the invention of "certain improvements in the preparation of wood for sheathing ships, as a substitute for copper and other metals, also in house, ship, and pier building, &c., &c."

2325. To Louis Alexandre Farjon Demoulin, Engineer, of 17, Rue Sedaine, Paris, Empire of France, for the invention of "improved apparatus applicable to carriages on common roads for the prevention of accidents, and increasing the power of locomotion."

2327. To David Dick, of Paisley, in the county of Renfrew, North Britain, Machinist, for the invention of "improvements in the manufacture of flexible tubes or pipes."

2329. To James Worrall, junior, of Salford, in the county of Lancaster, Dyer and Finisher, for the invention of "certain improvements in the method of dyeing fustians and other textile fabrics, and in the machinery or apparatus connected therewith."

2331. To James Hall Nalder, of Alvescott, in the county of Oxford, Farmer, and John Thomas Knapp, of Clanfield, in the same county, Machinist, for the invention of "improvements in winnowing or dressing corn."

2333. To James Harris, of Hanwell, in the county of Middlesex, Engineer, for the invention of "improvements in apparatus for heating water and other fluids."

2335. To James Webster, of Leicester, Engineer, for the invention of "improvements in water gauges for steam boilers."

2337. And to Bernard Couvan, of Fenchurch-street, in the city of London, for the invention of "improvements in giving signals on railways."

On their several petitions, recorded in the Office of the Commissioners on the 11th day of October, 1853.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

1239. William Edward Newton, of the Office for Patents, 66, Chancery-lane, in the county of Middlesex, Civil Engineer, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent, for the invention of "improved machinery or apparatus applicable for pumping water and supplying steam boilers with water, and maintaining the water therein at a proper level."—A communication.

As set forth in his petition, recorded in the said office on the 19th day of May, 1853.

1281. And William Bauer, of Munich, in the Kingdom of Bavaria, Engineer, has given the like notice in respect of the invention of "improvements in the construction of vessels to be used chiefly at various depths under the surface of the water, and in machinery or apparatus connected therewith, for propelling, balancing, and steering the same, and for carrying on operations of various kinds on or under the surface of the water from within, upon objects without such vessels."

As set forth in his petition, recorded in the said office on the 25th day of May, 1853.

1288. And Alexander Porecky, of Bishopsgate-street Within, in the city of London, Gentleman, has given the like notice in respect of the invention of "improvements in the manufacture of umbrellas and parasols."

As set forth in his petition, recorded in the said office on the 26th day of May, 1853.

And notice is hereby further given, that all persons having an interest in opposing any one of such applications are at liberty to leave particulars in writing of their objections to such application, at the said Office of the Commissioners, within twenty-one days after the date of the Gazette in which this notice is issued.

CONTRACTS FOR NECESSARIES AND BARRACK STORES FOR THE ROYAL MARINES.

Department of the Comptroller for Victualling and Transport Services, Somerset-Place, October 14, 1853.

THE Commissioners for executing the office of Lord High Admiral of the United Kingdom of Great Britain and Ireland do hereby give notice, that, on Thursday the 10th November next, at one o'clock, they will be ready to treat with such persons as may be willing to contract for supplying and delivering into Her Majesty's Victualling Stores at Deptford, for twelve months certain, and further until the expiration of three months' warning, the undermentioned articles for the use of the Royal Marines,

NECESSARIES :

Shirts, Foraging Caps, Worsted Gloves, Clothes, Shoe, and Button Brushes, Button Sticks, Ornaments for Foraging Caps, and Hand Towels.

BARRACK STORES :

Palliasses, Bolsters, Bolster Cases, Sheets, Round Towels, Bed Cords, Sacking Bottoms, and Cabbage Nets.

The conditions of the revised contracts and patterns of the barrack stores may be seen at the said Office, and patterns of the necessaries at the Marine Office, New-street, Spring-gardens, between the hours of eleven and two.

No tender will be received after one o'clock on the day of treaty, nor any noticed, unless the party attends, or an agent for him duly authorized in writing. Parties must attend on Saturday the 12th November next, at one o'clock, to learn the result of their tenders.

Every tender must be addressed to the Secretary of the Admiralty, and bear in the left-hand corner the words "Tender for _____," and must also be delivered at Somerset-place, accompanied by a letter signed by two responsible persons, engaging to become bound with the person tendering, in the sum of £700 for the due performance of the contracts.
