

- twisting cotton, and other fibrous substances."—
A communication.
As set forth in his petition, recorded in the said office on the 9th day of June, 1853.
1430. And Joseph Spencer, of Bilston, in the county of Stafford, Iron Founder and Engineer, has given the like notice in respect of the invention of "a new or improved cupelo."
As set forth in his petition, recorded in the said office on the 13th day of June, 1853.
1439. And Joseph H. Penny, and Thomas B. Rogers, of the city and state of New York, America, has given the like notice in respect of the invention of "a new and useful improvement in the manner of constructing machinery for propelling vessels, and other machinery which they term a crank propeller."
As set forth in his petition, recorded in the said office on the 14th day of June, 1853.
1445. And Arthur Parsey, of No. 3, Crescent-place, Burton-crescent, in the parish of St. Pancras, in the county of Middlesex, has given the like notice in respect of the invention of "a revolving engine to be worked by steam, air, gases, or water."
As set forth in his petition, recorded in the said office on the 15th day of June, 1853.
1468. And Peter Armand le Comte de Fontaine Moreau, of the Patent Office for Inventions, No. 39, Rue de l'Echiquier, Paris, and No. 4, South-street, Finsbury, London, Patent Agent, has given the like notice in respect of the invention of "improvements in the preparation of certain vegetable and alimentary substances."
—A communication.
As set forth in his petition, recorded in the said office on the 16th day of June, 1853.
1527. And Noel Natalis du Chastaingt, of Rue Rochechouart, Paris, France, Chemist, and of No. 4, South-street, Finsbury, London, has given the like notice in respect of the invention of "an improvement in bread making."
As set forth in his petition, recorded in the said office on the 23rd day of June, 1853.
1534. And Joshua Horton, Junior, of Brierly Hill, in the county of Stafford, Engineer and Boiler Manufacturer, has given the like notice in respect of the invention of "an improvement or improvements in steam boilers."
As set forth in his petition, recorded in the said office on the 24th day of June, 1853.
1569. And John Imray, of Bridge-road, Lambeth, in the county of Surrey, Engineer, has given the like notice in respect of the invention of "improvements in obtaining motive power."
As set forth in his petition, recorded in the said office on the 29th day of June, 1853.
1583. And Richard Bradley and William Craven, of Westgate Common Foundry, in Wakefield, in the county of York, Engineers and Iron-founders, have given the like notice in respect of the invention of "improvements in the moulding, forming, and compressing of clay for the manufacture of bricks, tiles, and other earthenware."
As set forth in their petition, recorded in the said office on the 1st day of July, 1853.
1633. And Philippe Poirier de St. Charles, of Fulham, in the county of Middlesex, Engineer, has given the like notice in respect of the invention of "improvements in apparatus for measuring and indicating the distance travelled by cabs and other vehicles."
As set forth in his petition, recorded in the said office on the 8th day of July, 1853.
1702. And James Naylor, of Hulme, near Manchester, in the county of Lancaster, Surveyor, has given the like notice in respect of the invention of "improvements in lamps."
As set forth in his petition, recorded in the said office on the 16th day of July, 1853.
2171. And Charles Collins, of the city and county of Hartford, in the state of Connecticut, and United States of America, Manufacturer, has given the like notice in respect of the invention of "the manufacture by machinery of tubes from leather or other suitable flexible substance, chiefly for covering the drawing rollers of spinning machinery, but also applicable to other purposes."
As set forth in his petition, recorded in the said office on the 19th day of September, 1853.
2189. And Thomas Smedley, of Holywell, in the county of Flint, Gentleman, has given the like notice in respect of the invention of "an improved railway train signal, communicating between the guard and engine driver."
2195. And George White, of No. 5, Laurence Pountney-lane, in the city of London, Agent, has given the like notice in respect of the invention of "an improvement in paddle-wheels."—
A communication.
As set forth in their respective petitions, both recorded in the said office on the 22nd day of September, 1853.
2218. And Robert Brisco, of Low Mill House, in the parish of Saint Bees, in the county of Cumberland, Esq., and Peter Swires Horsman, of the parish of Saint John's, Beckermeth, in the same county, Gentleman, have given the like notice in respect of the invention of "certain improvements in the preparation of flax and other vegetable fibrous substances."
As set forth in their petition, recorded in the said office on the 27th day of September, 1853.
2225. And William Edward Newton, of the Office for Patents, 66, Chancery-lane, in the county of Middlesex, Civil Engineer, has given the like notice in respect of the invention of "improved machinery for cutting metal or other substances."
—A communication.
As set forth in his petition, recorded in the said office on the 28th day of September, 1853.
2239. And Robert Brisco, of Low Mill House, in the parish of Saint Bees, in the county of Cumberland, Esq., and Peter Swires Horsman, of the parish of Saint John's Beckermeth, in the same county, Gentleman, have given the like notice in respect of the invention of "certain improvements in machinery for heckling flax, hemp, China grass, and other fibrous substances."
As set forth in their petition, recorded in the said office on the 30th day of September, 1853.
2249. And Isaac Ambler of Manningham, near Bradford, in the county of York, has given the like notice in respect of the invention of "improvements in preparing or combing wool and other fibrous substances."
2251. And Robert Halliwell, of Bolton-le-Moors, in the county of Lancaster, Mechanic, and William Johnson, of Farnworth, in the same county, Manager, have given the like notice in respect of the invention of "improvements in machinery for spinning and doubling cotton and other fibrous substances, and for grinding cards."
As set forth in their respective petitions, both recorded in the said office on the 1st day of October, 1853.
