Voices, June 18.

WE have Advice by a Vessel from Cor-
 fou, that the Auxiliary Gallies, as
 likewise the Convoy that went lately
 from hence, were advised there, And
 that the Captain-General, having taken
 a Review of the Forces of the State, which
 together make 25000 Men, sailed the 25th of
 the last Month from *St. Jago*, with a Fleet
 of above 100 Sail. The Letters from *Dakota*
 give an account, That the Provost for General *Cornaro*
 did assemble what Troops he could with a
 Resolution to fall upon the *Turks*, who were En-
 camped near *Nwenda*. They wrote from the *Ma-
 rca*, that the Parties of the Garrison of *Corn* make
 frequent Incursions upon the Enemy, from which
 they return for the most part with good Booty.
 The Count *de Melchior*, late Governor of *Milan*, is
 still here, preparing for his Embassy to *Rome*. The
 Deputies from *Rogusa* have had Audience; They
 come, it is said, to complain of the Hostilities the
Herdukes have committed upon some of the Sub-
 jects of that Republick.

Genoa, June 18. We have an Account by a Ves-
 sel come in 17 days from *Argiera*, that a *Chiquit*
 was arrived there from the Grand Signior, to re-
 quire that Government to send Ten of their Ships to
 join his Fleet, but that the Dey, with the advice
 of the Divan, had answered, That they could not
 send any of their Ships to the *Levant*, by reason of
 the War they are engaged in against *Tunis*, in fa-
 vour of the two Brothers *Beys*, to whom they are
 obliged to send a new assistance of Ships and
 Troops.

Milan, June 18. The Count *de Pausalida*
 our Governor, parted from hence the 7th Instant
 to go and visit several places in this State, but the
 executive heat obliged him to stay at *Lodi*, from
 whence he returned hither the 5th, having put off
 his visiting those places to some other time. It is
 believed that the Troops which are encamped near
Pavia, will be in few days sent back to their se-
 veral Quarters. The Marquis *de Castel Rodrigo* is
 named to be General of the House in the service
 of this Dutchy.

Marseilles, June 28. We have advice by a Bark
 which arrived here this week, that the two Brothers
Beys have, with the help of the *Alger* Spectors, ta-
 ken the City of *Tunis*. It is said the French Fleet is
 retired from before *Cadix*, and that they have Or-
 dered to go over to the Coast of *Barbary* before they
 return home.

Warsaw, May 28. The Forces of this Crown are

in Marching to the general Rendezvous; Those of
Lithuania, that are about a 6000 Men, assemble
 near *Briscia*. The Train of Artillery is ready to
 march, and all things are ordered for the opening
 of the Campaign about the middle of the next
 Month. We have advice, that the *Turks* have
 drawn their Garrison out of *Spain* with *Miscel*
 to reinforce that of *Cambrai*. The Convoy
 they put lately into this place was thoroughly de-
 stroyed as we heard at first, but they have repaired
 it greater, which they intend to conduct here be-
 fore the Army of this Crown is in the Field. We
 are told that *Prince Bala* is arrived in *Constanti-
 nople*, and that his predecessor has Order'd to go and serve
 in *Hungary*. Some Letters from *Vienna* said
 that the *Polish* Ambassadors have been very spleen-
 dily entertained by order of the *Czar*, and that
 they were preparing for their departure.

Vienna, June 28. The Count *de Straetman*
 Chancellor of *Austria* who went the last week to
 the Army, having had several Conferences with the
 Elector of *Brandenburg*, and the Duke of *Lorraine*, and
 the Resolution being taken to besiege *Buda*, the
 Elector of *Brandenburg* marched the 12th Instant from
Barran at the Head of 24000 Men, towards *Han-
 den* and *Pist*, to hinder, by the taking of those pla-
 ces, the Communication between *Buda* and *Agria*,
 after which his Electoral Highness will pass the *Da-
 nube*, and join the Imperial Army before *Buda*. The
 Duke of *Lorraine* passed the *Danube* over
 the Bridge at *Barran* with the Imperial Forces un-
 der his Command, and marched towards *Buda*, which
 place he will be able to take by this time if not be-
 sieged; The last Letters from the Army were of the
 7th Instant, when was then encamped near the
 City of *Agria*. According to our best Advices,
 there are in *Buda* 6000 *Hungarians*, and 4000 *Span-
 ish*, besides 2 or 3000 of the *Turks* who bear
 Arms, and the Garrison is provided with *Munition*
 and Provisions for six Months. They write
 from *Upper Hungary*, That the Troops which the
 Seraphim assembled between *Temeswar* and *Wra-
 dia*, are to conduct a Convoy of Provisions to *Agria*,
 but that *Cobach* is now abroad with the *Lon-
 ces* under his Command to hinder their design. The
 Deputies that are here from the Prince and States of
Transylvania, were the 7th and 12th of this month
 in Conference with the Commissioners appointed to
 treat with them upon a new Project of a Treaty,
 which, it is said, they received some days before
 by an Expres from Prince *Abasch*. The Duke *de Va-
 rna*, Grandee of *Spain*, the Marquis *de Varna* his
 Brother, and several other Persons of Quality, pas-
 sed lately through this place, going to serve as Vol-
 unteers in *Hungary*.
