

*Ratisbonne, June 24.* The Colledge of Princes assembled extraordinarily the 18th of this month, the Subject of their Debate, we are told, related to the Conference which will begin in few days at *Ausbourg*. In the mean time the Electoral Colledge have renewed their Instances to the Princes and States of the Empire, to deliberate concerning the Execution of the Treaty of Truce, the Regulating the Limits, and other important Points which concern the Peace and Security of the Empire. The Ministers residing at the Dyet on the part of the Kings of *Spain* and *Sweden*, and the Elector of *Bavaria*, are gone to the meeting at *Ausbourg*. The last Advices from the Imperial Army, commanded by the Duke of *Lorraine*, left them Encamped not far from *Buda*, which, it's believed, was invested the 17th or 18th of this month; There is a very good Garrison in the place, and the *Turks* have not been wanting to provide all things necessary for the defence of it. There is yet no News of the Grand Visier's arrival at *Belgrade*, which makes People begin to believe, that the Reports of his intention to command the *Ottoman* Army in Person this Campaign, have been only spread abroad to encourage the Soldiers, and to prevent the Disorders which were feared at *Adrianople* and *Constantinople*. We are told from *Upper Hungary*, That the Garrison in *Mongatz* is very much weakened, the *Hungarians* as well as *Germans* (who find Provisions grow very scarce, and that *Teckely* is not able to make good his promises to relieve them) deserting daily.

*Frankfort, June 20.* There will be a Meeting the next week at *Ausburgh* of the Deputies of *Bavaria*, *Sualia*, *Franconia*, and the *Upper Rhine*, at which will be present the Ministers of *Spain* and *Sweden*, and the Count de *Hohenloos* on the part of the Emperor.

*Cologne, June 26.* The Imperial Sub-Commissioners are still here; but it's believed they will now in a short time have finished their Commission. The Letters from *Hungary* say, that the Imperial Army was before *Buda*.

*Hamburg, June 24.* The Baron *Herwart*, the Imperial Minister, is come hither from *Zell*, where he has been several months, endeavouring to compose the differences between the Duke of *Zell* and this City. He has, since his Arrival, had a Conference with these Magistrates, to whom, it's said, he has made some new Proposals, but we do not hear with what success. There remain still great difficulties which hinder an Accommodation, though we are not without hopes, that by the good offices of the Princes who employ their Mediation, they will be at last removed, and all matters amicably composed. The Letters from *Berlin* of the 22d Instant tell us, That the Elector of *Brandenburgh* had declared his Resolution to part from thence the first of the next Month for *Cleves*. We are told from *Crancomb*, That the King of *Poland* was gone from *Jarroway* to *Soye*, where part of the Forces of that Crown were drawn together, and that the General Rendezvous would be held the 15th of this month near *Smalain*. The Advices from *Moscow* confirm what we told you in our last, of the *Czars* having sent Orders to the *Cossacks*, subject to them, to make War upon the *Tartars*.

*Paris, July 6.* The differences between the Two Crowns being adjusted, as we have already told you, the Baron *Dewal*, Envoy from the King of *Spain*, has obtained an Order for the taking off

the Seizures upon the Estates which the Subjects of that Crown have within the *French* Conquest. And he intends to go this week for *Brussels*, to give the Governor of the *Spanish Netherlands* an account of his Negotiation at this Court. The *French* Fleet that was before *Cadix* has orders to return home, except some Ships that are to cruize in the *Mediterranean*. The King's journey to *Maintenon* is put off till the next week. The Troops of the King's Household began to encamp on Wednesday last.

*Whitehall, June 28.* On Thursday last the Sieur *Sarotti*, Resident of *Venice*, had Audience of the Queen Dowager; On Saturday of her Royal Highness the Princess *Ann*, and yesterday of Prince *George*, of *Denmark*, being Conducted by Sir *Charles Cottrell* Master of the Ceremonies.
