

Commissions signed by the Lord Lieutenant of the County of Northumberland.

Northumberland and Newcastle Regiment of Volunteer Yeomanry Cavalry.

Cornet John Anderson to be Lieutenant, vice Cresswell, resigned.

Charles Murray Adamson, Gent., to be Cornet, vice Anderson.

George Yeoman Heath to be Surgeon, vice Henry Heath, resigned.

NOTICE is hereby given, that a separate building, named the Baptist Chapel, situated at the Shotley-road, in the parish of Chelmondiston, in the county of Suffolk, in the district of Samford Hundred, being a building certified according to law as a place of religious worship, was, on the 19th day of August, 1854, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 29th day of August, 1854.

E. Lawrance, Superintendent Registrar.
Tower-street, Ipswich.

Patent Law Amendment Act. 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

950. John Goucher, of Worksop, in the county of Nottingham, Machine Manufacturer and Iron-founder, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in propelling ships and other vessels."

As set forth in his petition, recorded in the said office on the 25th day of April, 1854.

952. And Edward Crosland, of Rochdale, in the county of Lancaster, Manager, and Thomas Boardman, of Westhoughton, in the same county, Weaver, have given the like notice in respect of the invention of "improvements in weaving, and in machinery for manufacturing cut pile and other fabrics."

953. And Thomas Griffith Owen, of Shrubland-road, Dalston, in the county of Middlesex, Architect, has given the like notice in respect of the invention of "an improved construction of portable filter."

956. And John Henry Johnson of 47, Lincoln's-inn-fields, in the county of Middlesex, and of Glasgow, North Britain, Gentleman, has given the like notice in respect of the invention of "improvements in polishing and flattening metal plates."—A communication from Henry Beaud, of Paris, in the Empire of France, Manufacturer.

958. And Henry Clarke, of Lincoln, in the county of Lincoln, has given the like notice in respect of the invention of "improvements in fire-arms and ordnance."

As set forth in their respective petitions, all recorded in the said office on the 27th day of April, 1854.

966. And Alexander Mills Dix, of Salford, in the county of Lancaster, Brewer, has given the like notice in respect of the invention of "improvements in apparatus for regulating or governing the supply or pressure of gas as it is conducted from the main to the burners."

As set forth in his petition, recorded in the said office on the 29th day of April, 1854.

971. And Edward Briggs, of Castleton Mills, near Rochdale, in the county of Lancaster, Manufacturer, and William Souter, of the same place, Manager, have given the like notice in respect of the invention of "improvements in treating and preparing silk, and in machinery connected therewith."

973. And William Augustus Archbald, of 37, Stanhope-street, Gloucester-gate, in the county of Middlesex, Gentleman, has given the like notice in respect of the invention of "improvements in the manufacture of concrete cane juice and sugar."

As set forth in their respective petitions, both recorded in the said office on the 1st day of May, 1854.

980. And William Hutton, of Portland-town, St. John's-wood, in the county of Middlesex, Builder, has given the like notice in respect of the invention of "an improved machine for the manufacture of bricks."

981. And Jos Mayer, of Burslem, in the county of Stafford, Manufacturer, and John David Kind, of Birmingham, in the county of Warwick, Manufacturer, have given the like notice in respect of the invention of "an improvement or improvements in attaching door plates, letters and figures made of glass, porcelain, earthenware, or other vitreous, or semi-vitreous substance to doors, and such other surfaces as the same may be required to be attached to."

985. And Carlo Minasi, of Brecknock-place, Camden-town, in the county of Middlesex, Professor of Music, has given the like notice in respect of the invention of "improvements in apparatus for hatching eggs, and for raising or rearing the young when first produced."

989. And Leon Glukman, of Sackville-street, in the city of Dublin, Professor of Natural Philosophy, has given the like notice in respect of the invention of "improvements in effecting electric communications in railway trains and vessels."

As set forth in their respective petition, all recorded in the said office on the 2nd day of May, 1854.

1007. And Adrien Georges Amant Martin, Engineer, and Casimir Lefol, of Paris, Empire of France, and of 16, Castle-street, Holborn (City), London, have given the like notice in respect of the invention of "certain improvements in the manufacture of iron wheels."

1010. And Arthur Warner, of 11, New Broad-street, in the city of London, has given the like notice in respect of the invention of "improvements in the manufacture of metal sheets for sheathing ships and other vessels, and for other uses."

As set forth in their respective petitions, both recorded in the said office on the 5th day of May, 1854.

1024. And Julian Bernard, of Club Chambers, Regent-street, in the county of Middlesex, Gentleman, has given the like notice in respect of the invention of "improvements in machinery or apparatus for sewing, stitching or ornamenting."

As set forth in his petition, recorded in the said office on the 6th day of May, 1854.

1041. And James Ward Hoby, of Renfrew, in the county of Renfrew, North Britain, Engineer, and John Milner, of Stanley-street, Pimlico, in the county of Middlesex, Engineer, have given the like notice in respect of the invention of "certain improvements in steam-engines."

As set forth in their petition, recorded in the said office on the 10th day of May, 1854.
