

**N**OTICE is hereby given, that a separate building, named Capel-y-Garn, situated at Abercarn, in the parish of Mynyddyslwyn, in the county of Monmouth, in the district of Newport, being a building certified according to law as a place of religious worship, was, on the 30th day of September, 1854, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 4th day of October, 1854.

*Charles Lewis*, Superintendent Registrar.

Patent Law Amendment Act. 1852.

Office of the Commissioners of Patents for Inventions.

**N**OTICE is hereby given, that—

1165. Edward Everall, of 2, Henrietta-street, Brunswick-square, in the county of Middlesex, Gentleman, and Thomas Jones, of the same place and county, Chemist, have given notice, at the Office of the Commissioners, of their intention to proceed with their application for letters patent, for the invention of "water-proofing all kinds of cloth, clothing, silk, and leather, without injury to their respiratory properties, flexibility of fabric, colour, or appearance."

As set forth in their petition, recorded in the said office on the 25th day of May, 1854.

1184. And Thomas Bazley, of the city of Manchester, in the county of Lancaster, Cotton Spinner, has given the like notice in respect of the invention of "improvements in and applicable to furnaces and vessels used in connection therewith, for the manufacture of glass."

As set forth in his petition, recorded in the said office on the 29th day of May, 1854.

1193. And Richard Tomlinson, of Sale, in the county of Chester, Commercial Traveller, has given the like notice in respect of the invention of "the application of a new material or fabric to the manufacture of plasters for medical or surgical purposes."

1200. And Hall Colby, of the city and State of New York, United States of America, has given the like notice in respect of the invention of "improvements in instruments for taking altitudes, levels, and angles which he designates 'Colby's Altimeter, or self-adjusting quadrant or sextant.'"

As set forth in their respective petitions, both recorded in the said office on the 30th day of May, 1854.

1206. And William Edward Wiley, of Birmingham, in the county of Warwick, Gold Pen Manufacturer, and Edward Lavender, of Birmingham aforesaid, Gold Pen Manufacturer, have given the like notice in respect of the invention of "improvements in the manufacture of certain kinds of metallic pens."

1209. And Julian Bernard, of Club Chambers, Regent-street, in the county of Middlesex, Gentleman, has given the like notice in respect of the invention of "improvements in the manufacture or production of boots, shoes, and other protectors for the feet, and in the materials, machinery, or apparatus employed in such manufacture."

As set forth in their respective petitions, both recorded in the said office on the 31st day of May, 1854.

1214. And John Arrowsmith, of Bilston, in the county of Stafford, Engineer, has given the like notice in respect of the invention of "improvements in steam-boilers."

As set forth in his petition, recorded in the said office on the 1st day of June, 1854.

1223. And Charles Maschwitz, of Birmingham, in the county of Warwick, Merchant, has given the like notice in respect of the invention of "a new or improved instrument for paring and slicing apples, potatoes, and other fruits and roots."—A communication.

1229. And John Mason, of Rochdale, in the county of Lancaster, Machinist, and Louis Christian Koeffler, of the same place, Dyer and Bleacher, have given the like notice in respect of the invention of "improvements in scouring and in washing wool, hairs, and yarns, and in machinery or apparatus for effecting the same."

As set forth in their respective petitions, both recorded in the said office on the 2nd day of June, 1854.

1233. And Thomas Lenox, of No. 13, Pigott-street, Limehouse, in the county of Middlesex, has given the like notice in respect of the invention of "a novel mode of reefing topsails, jibs, and other sails, from the decks of ships whilst at sea."

As set forth in his petition, recorded in the said office on the 3rd day of June, 1854.

1247. And Napoléon Néron, of No. 119, Rue St. Lazare, at Paris, in the Empire of France, Gentleman, has given the like notice in respect of the invention of "improvements in muskets, carbines, fowling-pieces, and other fire-arms."—A communication.

As set forth in his petition, recorded in the said office on the 5th day of June, 1854.

1262. And John Wilson, of No. 3, Albert-place, High-street, Stratford, in the parish of West Ham, in the county of Essex, has given the like notice in respect of the invention of "an improved pump, applicable to mines, wells, ships, fountains, and domestic purposes, and raising melted metals in foundaries, so constructed that it cannot lose water, draw grit, draw air, or freeze."

1263. And Joseph Kaye, of Beeston, near Leeds, in the county of York, Spinner, has given the like notice in respect of the invention of "certain improvements in machinery or apparatus for slubbing, roving, spinning, and doubling wool and other fibrous materials."

As set forth in their respective petitions, both recorded in the said office on the 8th day of June, 1854.

1291. And Antoine Louis Pèter, of Lyons, in the Empire of France, and of 16, Castle-street, Holborn (City), London, has given the like notice in respect of the invention of "improvements in treating a certain kind of indigo."

As set forth in his petition, recorded in the said office on the 13th day of June, 1854.

1321. And Joseph Fourdrinier, of 12, Sherborne-street, Islington, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in machinery for washing, boiling, cleaning, and bleaching rags, fabrics, and textile substances."

As set forth in his petition, recorded in the said office on the 17th day of June, 1854.

1337. And Joseph Oliver, of Wapping, in the county of Middlesex, Manufacturer, has given the like notice in respect of the invention of "an improved construction of signal lantern."

As set forth in his petition, recorded in the said office on the 19th day of June, 1854.
