

Admiralty, 13th August, 1855.

NAVAL PRIZE MONEY.

NOTICE is hereby given to the officers and crew of Her Majesty's ship, Tribune, and to all other persons interested therein that, in the advertisement published in the London Gazette of the 20th and 24th July, 1855, giving notice of preparations making for the intended distribution of certain Russian Vessels, five in number, captured by Her Majesty's ship, Tribune, one of such vessels the "Fenix" or "Phoenix," was wrongly described as having been captured on the 13th, instead of the 12th April, 1854, which last-mentioned is the correct date of capture.

Patent Law Amendment Act, 1852.
Office of the Commissioners of Patents for
Inventions.

NOTICE is hereby given, that—

731. John Taylor, of Spring-grove, Hounslow, in the county of Middlesex, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "an improvement in the manufacture of covers for books."

As set forth in his petition, recorded in the said office on the 2nd day of April, 1855.

740. And Thomas Prideaux, of Birmingham, in the county of Warwick, Farmer and Hotel Keeper, has given the like notice in respect of the invention of "a new or improved plough for draining and other similar purposes."

744. And William Eathorne Gill, of Totnes, Devonshire, Engineer, and Henry Brinsley Sheridan, of Parsons-green, in the county of Middlesex, Gentleman, have given the like notice in respect of the invention of "treating fish for oil, and utilising the products of such process."

As set forth in their respective petitions, both recorded in the said office on the 3rd day of April, 1855.

756. And Thomas Squire, of Latchford, in the county of Chester, Tanner, has given the like notice in respect of the invention of "improvements in removing hairs from hides and skins."—A communication.

757. And William Goostrey and George Hulme, of Chedderton, in the county of Stafford, Paper Manufacturers, and Charles Hough, of the same place, Manager, have given the like notice in respect of the invention of "improvements in machinery or apparatus for manufacturing paper."

As set forth in their respective petitions, both recorded in the said office on the 5th day of April, 1855.

770. And Alexander Rollason, of Birmingham, in the county of Warwick, Photographic Artist, has given the like notice in respect of the invention of "certain improvements in photography."

772. And Richard Stones, of Kingston-upon-Hull, in the county of York, Brass Founder, has given the like notice in respect of the invention of "improvements in taps or cocks for drawing off fluids."

773. And Joseph Hull, of Liverpool, in the county of Lancaster, has given the like notice in respect of the invention of "improvements in the machinery and apparatus for grinding corn."

As set forth in their respective petitions, all recorded in the said office on the 7th day of April, 1855.

784. And William Ricketts and Thomas Bulley, both of Stepney, in the county of Middlesex, Painters and Grainers, have given the like notice in respect of the invention of "improvements in producing ornamental designs on painted or japanned table-covers."

As set forth in their petition, recorded in the said office on the 10th day of April, 1855.

811. And Isaiah Vernon, of West Bromwich, in the county of Stafford, Manufacturer, has given the like notice in respect of the invention of "an improvement or improvements in the slide valves of steam-engines."

814. And Jules Laleman, of Lille, in the Empire of France, one of the members of the firm Canyn and Company, which consists of Victor Canyn, Crispin Lenty, William Lenty, and Jules Laleman, all of Lille aforesaid, has given the like notice in respect of the invention of "improved machinery for combing flax and other similar fibrous materials."—A communication.

As set forth in their respective petitions, both recorded in the said office on the 12th day of April, 1855.

829. And Thomas Kennedy, of Kilmarnock, in the county of Ayr, North Britain, Gun Manufacturer, has given the like notice in respect of the invention of "improvements in shot or projectiles."

As set forth in his petition, recorded in the said office on the 14th day of April, 1855.

849. And Henry Woodhouse, of Stafford, in the county of Stafford, Engineer, has given the like notice in respect of the invention of "improvements in the construction of crossings for the permanent way of railways."

As set forth in his petition, recorded in the said office on the 18th day of April, 1855.

873. And William Savory, Engineer, of the city of Gloucester, has given the like notice in respect of the invention of "improvements in machinery for crushing grain and other substances, and for cutting chaff."

As set forth in his petition, recorded in the said office on the 19th day of April, 1855.

902. And Alexandre Balan, of Paris, in the Empire of France, Engineer, has given the like notice in respect of the invention of "improvements in transporting passengers and goods."

As set forth in his petition, recorded in the said office, on the 23rd day of April, 1855.

952. And Emile Muller, a Civil Engineer, and Joseph Gilardoni, and Xavier Gilardoni, Brothers, established in Paris, Rue de Provence, No. 12, and Quai de la Gare Prolongée, No. 50, à Ivry, have given the like notice in respect of the invention of "a grooving and clamping hooked tile, by means of which the entire covering of a roof is tied together, a machine for the fabrication of such tile, by which it is continuously delivered from the mould through a peculiar system of delivery applicable to any matter that may be moulded, and a conterminous succession of furnaces for its burning."

As set forth in their petition, recorded in the said office on the 27th day of April, 1855.

1054. And Matthew Allen, of Worship-street, in the county of Middlesex, Builder, has given the like notice in respect of the invention of "an improved valve, particularly applicable for regulating the supply of air to furnaces and fire-places."

As set forth in his petition, recorded in the said office on the 10th day of May, 1855.
