

**N**OTICE is hereby given, that a separate building, named the Independent Chapel, situated at Sowerby-green, in Sowerby, in the parish of Halifax, in the county of York, in the district of Halifax, being a building certified according to law as a place of religious worship, was, on the 13th day of December, 1856, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 17th day of December, 1856.

*Chas. Barstow*, Superintendent Registrar.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for  
3027. Inventions.

**N**OTICE is hereby given, that the petition of Daniel West, of No. 17, Egremont-place, New-road, in the county of Middlesex, Civil Engineer, Esquire, praying for letters patent for the invention of "an improvement in presses constructed to operate by a combination of iron levers, which presses are employed to compress bales of cotton, hemp, wool, and other articles of merchandize," was deposited and recorded in the Office of the Commissioners on the 22nd day of December, 1856, and a complete specification accompanying such petition was at the same time filed in the said Office.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for  
Inventions.

**N**OTICE is hereby given, that provisional protection has been allowed

2092. To Boniface Sabatier, of Paris, and of the Office for Patents, 4, Trafalgar-square, Charing-cross, in the county of Middlesex, for the invention of "improvements in photography."

On his petition, recorded in the Office of the Commissioners on the 8th day of September, 1856.

2358. To David Joy, of Leeds, in the county of York, Engineer, and William Holt, of the same place, Organ Builder, for the invention of "improvements in hydraulic motive power engines, and the application thereof to certain useful purposes."

On their petition, recorded in the Office of the Commissioners on the 8th day of October, 1856.

2476. To William Edward Newton, of the Office for Patents, 66, Chancery-lane, in the county of Middlesex, Civil Engineer, for the invention of "improved machinery for rolling and forging iron or steel."—A communication.

On his petition recorded in the Office of the Commissioners on the 21st day of October, 1856.

2559. To Didier Elizabeth Ernest Ausset de Chavanon, of Paris, and of 45, Essex-street, Strand, London, for the invention of "improvements in cleaning all sorts of cloth fabrics and skins, by the application of a substance so called Carburine."

On his petition, recorded in the Office of the Commissioners on the 31st day of October, 1856.

2728. To Thomas Gilman, of No. 12, Creed-lane, Ludgate-hill, in the city of London, for the invention of "improvements in boxes or packing cases."

2737. And to James Yearsley, of Saville-row, Saint James', in the county of Middlesex, Member of the Royal College of Surgeons, for the invention of "an improved method of and instrument for applying artificial tympanums."

On both their petitions, recorded in the Office of the Commissioners on the 19th day of November, 1856.

2744. To William Irlam, of the Gibraltar Iron Works, Newton Heath, near the city of Manchester, Engineer, and John Phillips, of the same place, Railway Station Master, for the invention of "improvements in working railway signals or alarms."

On their petition, recorded in the Office of the Commissioners on the 20th day of November, 1856.

2813. To Robert Griffiths, of 69, Mornington-road, Regent's-park, Engineer, for the invention of "improvements in vessels and engines for propelling vessels."

2820. And to Henry Waller, of Lickhill, near Calne, in the county of Wilts, for the invention of "improvements applicable to vessels used in the manufacture of cheese."

On both their petitions recorded in the Office of the Commissioners on the 28th day of November, 1856.

2827. To Lemuel Wellman Wright, of Sydenham, in the county of Kent, Engineer, for the invention of "improvements in machinery for bending plates for the formation of pipes and tubes."

On his petition, recorded in the Office of the Commissioners on the 29th day of November, 1856.

2840. To George Collier, of Halifax, in the county of York, and James William Crossley, of Brighouse, in the same county, for the invention of "improvements in apparatus used in hot pressing, and in the means of manufacturing parts of apparatus used for such purpose."

On their petition, recorded in the Office of the Commissioners on the 1st day of December, 1856.

2862. To James Mizen, of Deptford, in the county of Kent, for the invention of "improvements in apparatus for making gas, partly applicable to culinary or other domestic purposes."

On his petition, recorded in the Office of the Commissioners on the 3rd day of December, 1856.

2894. To William Hadfield Bowers, of Gorton, in the parish of Manchester, in the county of Lancaster, Manufacturing Chemist, for the invention of "improvements in apparatus to be used for the purposes of distillation."

2896. To Christian Schiele, of Oldham, in the county of Lancaster, Engineer, for the invention of "certain improvements in machinery or apparatus for cutting nuts, screws, or bolts, and toothed wheels."

2898. To John Longbottom, of Leeds, in the county of York, Engineer, for the invention of "improvements in generating, surcharging, or superheating steam."

2900. To Henry Twisleton Elliston, of Leamington, in the county of Warwick, Professor of Music, for the invention of "a new or improved method of hanging and closing doors."

2902. And to John Leslie, of Conduit-street, Regent-street, in the county of Middlesex, for the invention of "an improvement in stoves and fire-places."

On their several petitions, recorded in the Office of the Commissioners on the 6th day of December, 1856.

2904. To George Collier, of Halifax, in the county of York, and Edwin Heywood, of Sutton Crosshills, near Leeds, in the same county, for the invention of "improvements in steam-boilers or steam-generators."
