

denny, and Eglwysilan, all in the county of Glamorgan.

And whereas the Baroness Windsor, the owner of the field in which the said intended branch railway is proposed by the said Bill to terminate, has requested the said Company to continue the same from a point 400 yards, or thereabouts, to the west of its proposed termination as aforesaid, and 250 yards, or thereabouts, east of St. Martin's Chapel, to a field of the said Baroness Windsor, in the occupation of John Llewellyn, at a point therein 150 yards or thereabouts west of a house, formerly called the Vann Toll-gate House, and which last-mentioned field, as well as the whole of the said proposed extension, is and will be in the parish of Eglwysilan.

Now notice is hereby given, that it is proposed to apply to Parliament in the next session, for leave to insert in the said Bill when so introduced into the Honourable the House of Commons, clauses and provisions for enabling the said Company to construct an extension of the said proposed branch railway from the said point, 400 yards or thereabouts to the west of the said heretofore intended termination thereof, and 250 yards or thereabouts east of Saint Martin's Chapel to the said point, 150 yards or thereabouts west of the said house, formerly called the Vann Toll-gate House.

And notice is hereby further given, that duplicate maps, plans, and sections of the said intended extension railway and works, and of the lands proposed to be taken, together with a book of reference to the plans, and a copy of this notice as published in the London Gazette, will, on or before the 27th day of April, 1857, be deposited for public inspection with the Clerk of the Peace for the county of Glamorgan, at his office in Cardiff, and with the parish clerk of the parish of Eglwysilan, at his place of abode.

Dated this 8th day of April, 1857.

W. G. Roy, 28, Great George-street, Westminster.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2869. Julien Denis, of 14, Queenhithe, in the city of London, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in apparatus for corking and uncorking bottles without leaving any air between the liquid and the cork."—A communication.

As set forth in his petition, recorded in the said office on the 3rd day of December, 1856.

2892. And Heth Ogden, of Salford, in the county of Lancaster, Engineer, and Henry Hibbert, of the same place, Engineer, have given the like notice in respect of the invention of "improvements applicable to colliery and locomotive engines, for the purpose of arresting or retarding their motion at required intervals, and of indicating the amount of work done in relation to such intervals."

As set forth in their petition, recorded in the said office on the 5th day of December, 1856.

2901. And Stephen Randall Smith, of Bristol, has given the like notice in respect of the invention of "improvements in anchors."

2902. And John Leslie, of Conduit-street, Regent-street, in the county of Middlesex, has given the like notice in respect of the invention of "an improvement in stoves and fire places."

As set forth in their respective petitions, both recorded in the said office on the 6th day of December, 1856.

2910. And Robert Frederick Miller, of Hammer-smith, has given the like notice in respect of the invention of "a mode of printing tables of fares, advertizements, notices, tablets, ornamental designs, figures, and other like announcements, on painted or other surfaces, to supersede writing."

As set forth in his petition, recorded in the said office on the 8th day of December, 1856.

2912. And Josiah Harris, of Frodsham, in the county of Cheshire, has given the like notice in respect of the invention of "a pneumatic signal apparatus, and mode of working the same."

2920. And Joseph Walton, of Styal, near Wilmslow, in the county of Chester, Licensed Victualler, has given the like notice in respect of the invention of "improvements in tables."

As set forth in their respective petitions, both recorded in the said office on the 9th day of December, 1856.

2926. And William Storey and Thomas Storey, of the town and county of Lancaster, Manufacturers of Oil-cloth and Table Covers, have given the like notice in respect of the invention of "improvements in forming ornamental devices on the surface of paper and certain prepared woven fabrics."

As set forth in their petition, recorded in the said office on the 10th day of December, 1856.

2936. And Thomas Wheatley, of Openshaw, near Manchester, in the county of Lancaster, Engineer, and William Wheatley, of the same place, Pattern Maker, have given the like notice in respect of the invention of "improvements in fog-signals, and in the means of working the same."

2938. And Victor Delperdange, Engineer, of Rue Verte, No. 125, Shaerbeek, near Brussels, in the Kingdom of Belgium, has given the like notice in respect of the invention of "improvements in metallic and elastic packing."

2944. And William Player Miles, of the Patent Lock Factory, near the Forest Hill Station, London and Brighton Railway, has given the like notice in respect of the invention of "improvements in locks and fastenings."—A communication from Monsieur Motheau, of Paris.

As set forth in their respective petitions, all recorded in the said office on the 11th day of December, 1856.

2950. And John Turner Wright, of Birmingham, in the county of Warwick, Manufacturer, and Edwin Payton Wright, of Birmingham aforesaid, Manufacturer, have given the like notice in respect of the invention of "a new or improved manufacture of ropes, cords, lines, twines and mill bandings."

2952. And Edward Paton and Charles Frederick Walsh, of the town and county of Perth, North Britain, Gunmakers, have given the like notice in respect of the invention of "improvements in apparatus for charging and capping the nipples of fire-arms."

As set forth in their respective petitions, both recorded in the said office on the 12th day of December, 1856.
