

NOTICE is hereby given, that a separate building, named the Baptist Chapel, situated at Church-street, Sudbury, in the parish of All Saints, in the county of Suffolk, in the district of Sudbury, in the counties of Suffolk and Essex, being a building certified according to law as a place of meeting for religious worship, was, on the 11th day of March, 1859, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 14th day of March, 1859.

Edmd. Stedman, Superintendent Registrar.

In the Matter of Letters Patent, granted to Alexander Theophilus Blakely, of Little Ryder-street, Saint James's, in the county of Middlesex, Captain of the Royal Artillery, for his invention of "improvements in ordnance," bearing date the 27th day of February, 1855.

NOTICE is hereby given, that the said Alexander Theophilus Blakely, formerly of Little Ryder-street, Saint James's, but now of Wilton place, Knightsbridge, in the county of Middlesex, Captain of the Royal Artillery, has applied by petition to the Commissioners of Patents, according to the statutes in that case made and provided, for leave to enter a disclaimer, and memorandum of alteration, of parts of the specification of the said letters patent.

William Brookes, No. 73, Chancery-lane, London, Agent to the said Alexander Theophilus Blakely.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2453. Victor Blumberg, of Bloomfield Lodge, Notting-hill, in the county of Middlesex, Gentleman, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in the construction of slate billiard tables, which improvements are also applicable for other useful purposes."

As set forth in his petition, recorded in the said office, on the 3rd day of November, 1858.

2461. And John Oxley, of Camden Town, has given the like notice in respect of the invention of "improvements in carriages and wheel vehicles."

2467. And Richard Archibald Brooman, of 166, Fleet-street, in the city of London, E.C., Patent Agent, has given the like notice in respect of the invention of "improvements in treating air and gases, and the employment of the same for obtaining motive power."—A communication.

2468. And Isham Baggs, of Kennington, in the county of Surrey, Electrical Engineer, has given the like notice in respect of the invention of "improvements in telegraphing by electricity."

As set forth in their respective petitions all recorded in the said office on the 4th day of November, 1858.

2474. And Ellis Rowland, of Manchester, in the county of Lancaster, Engineer, and John Dewhurst, of the same place, Engineer, have given the like notice in respect of the invention of "certain improvements in steam engines and in the valves connected therewith, which said im-

provements in valves are also applicable to safety valves."

As set forth in their petition, recorded in the said office on the 5th day of November, 1858.

2481. And Herbert Newton Penrice, of Wilton House, near Norwich, has given the like notice in respect of the invention of "improvements in machinery for tunnelling and driving galleries through rock and other strata."

2485. And John Cliff, of the Impérial Potteries, Lambeth, in the county of Surrey, has given the like notice in respect of the invention of "improvements in the construction of kilns for burning stoneware, redclay ware, porcelain, and all other kinds of earthenware."

As set forth in their respective petitions, both recorded in the said office on the 6th day of November, 1858.

2495. And Jonathan Wardill, of Commercial-road, East, in the county of Middlesex, Engineer, has given the like notice in respect of the invention of "improvements in purchases for the raising and lowering of weights by means of chains especially applicable to ships, capstans, and windlasses."

2496. And Thomas Mac Sweney, of 25, Rood-lane, in the city of London, has given the like notice in respect of the invention of "improvements in steering apparatus."

2497. And William Hale, of No. 6, John-street, Adelphi, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in rockets."

As set forth in their respective petitions, all recorded in the said office on the 8th day of November, 1858.

2503. And John Samuel Dawes, of Smethwick-house, near Birmingham, Gentleman, has given the like notice in respect of the invention of "a new or improved machine to be used for cultivating land, and which may be made applicable as a hoe, a skim, a turf, or peat cutter, and a new or improved method of actuating the said machine and other machines used for like operations."

2504. And John Farmerley Dickson, of No. 6, Russel-street, Litchurch, near Derby, in the county of Derby, Engineer, has given the like notice in respect of the invention of "improvements in the construction of railway chairs and other details connected with the permanent way of railways."

2507. And Andrew Henderson, of Gloucester-place, Portman-square, in the county of Middlesex, Master Mariner, has given the like notice in respect of the invention of "improvements in vessels, and in applying rudders thereto."

2515. And Richard Archibald Brooman, of 166, Fleet-street, in the city of London, E.C., Patent Agent, has given the like notice in respect of the invention of "improvements in electric telegraphing."—A communication.

2516. And Rowland Mason Ordish, of Great George-street, Westminster, in the county of Middlesex, Civil Engineer, has given the like notice in respect of the invention of "improvements in constructing the permanent ways of railways."

As set forth in their respective petitions, all recorded in the said office on the 9th day of November, 1858.

2520. And William Garnett Taylor, of Ashby de la Zouch, in the county of Leicester, has given the like notice in respect of the invention of "improvements in removing the fur from skins, and preparing said skins for tanning."
