From Monday April 11. to Thursday April 14. 1687.

Rome, March 22.

**T**H E Pope gave yesterday a long Audience to the Cardinal d' *Estrees*, who acquainted his Holiness with the Declaration which the Most Christian King had made, that he will Religiously observe the Truce, and maintain a good correspondence with the Emperor and the Empire. Signior *Impersale* Treasurer of the Chamber is returned from *Civita Vecchia*, where he had been to give Orders for the fitting out his Holinesses Gallies, which are to serve against the *Turks* this Summer.

*Venice, April 4.* We have received this week, Letters from *Napoli di Romania*, which give an Account, That *Sabau Aga* was arrived in the *Morea* from *Constantinople*, with Orders from the Grand Signior for the removing *Ishmael Bassa* from the Command of *Serafquier* of his Forces in the *Morea*, and the establishing in his place, *Mahomet Bassa* a Person of very small Experience in Military Affairs; And that the *Turks* do fortify *Negrepont*, and several Posts in the *Morea*. The *Grecian* Metropolitan of *Napoli di Malvasia*, is fled hither, fearing the *Turks*, for that they suspected him of holding Correspondence with the Officers of the Republick. The next week 12 Men of War will set Sail with part of the new raised Troops, the Money, and Provisions for the *Morea*, and the other Ships will follow with the rest of the Troops which are daily expected. An Express arrived here some days ago from *Brunswick*, with an Account, That the 2600 Men, which the Duke of *Hanouer* has promised to send to the Assistance of the Republick, were ready to begin their march; And that besides these, his Highness had caused Levies to be made for the recruiting the *Lunenburgh* Forces that are already in the Service of this State.

*Dantzick, April 5.* The Letters from *Cracow* of the 23d of the last Month tell us, that the Crown-Generall having received advice, that *Sultan Galga* had passed the *Boristenes* with a Body of *Tartars*, to conduct a new *Bassa*, and a great Convoy of Provisions to *Caminnic*, he had sent out a detachment of 5000 Horse and Dragoons to joyn the Troops quartered on the Frontiers, in order to oppose the Enemies passage. That the *Moscovites* made great provision of Forage in their Frontier places, for the subsistence of their Cavalry; That they continued their preparations for the Campaign with extraordinary application; That the *Sieur Samuelowicz* was already at the head of 100000 *Cossacks*; and that it was believed, the design of the *Moscovites* was to begin the War with the attack of *Ozowa*, a very strong Fortress situate on the Frontiers of the *Crim Tartary*, in which the *Turks* have a Garison. The

Court of *Poland* was according to our last advice still at *Zolkiew*, but intended to remove from thence after the *Easter* Holidays to *Warsaw*.

*Vienna, April 3.* On Saturday last the *Moscovite* Ambassadors had their first Conference with the Emperor's Commissioners, who are Prince *Herman* of *Baden*, President of the Council of War, the Count *de Strasser* Great Chancellor of the Court, the Baron *Herwart*, the Baron *Zierousky*, formerly his Imperial Majesties Envoy to the King of *Poland* and the *Czars* of *Moscovy*, and the two Secretaries of War. In this Conference, which was held in one of the Apartments of the Palace, the operations of the approaching Campaign were chiefly treated of; and it's said, the Ambassadors declared, that the *Czars* their Masters intend to attack the *Crim Tartary* with 500000 Men, divided in several Bodies. The 1st Instant the Bishop of *Primilia*, Ambassador from the King of *Poland*, arrived here to assist at the Consultations that will be held about the prosecution of the War. They write from *Esperies*, that General *Caraffa* had drawn detachments out of the several Garisons in *Upper Hungary*, in order to some considerable Enterprize. And by Letters from *Segedin* we are informed that the *Turks*, *Tartars*, and Rebels, who had assembled near *Temeswaer*, to the number of 7000 Men, were on their march towards the *Theysse*; so that we are expecting to hear of some action on that side. We have advice of the arrival of another Convoy of 900 Wagons with Provisions at *Five Churches*, which was sent from *Croatia*; and that that Garison is now abundantly provided with all things necessary for their subsistence. We have no fresh Letters from *Buda*; but expect to hear by our next, what farther Confession the Lieutenant *Finkenlein* has made upon his being put to the Torture; Half of the Regiment of *Nagrells* has been sent to reinforce that Garison. We have an account from *Croatia* that Count *Francis Erdeudi* having made an incursion into the Enemies Territories with 300 Horse and 400 Foot of the Militia of that Country advanced the 17th of the last Month near to the Castle of *Pedag* on the River *Unna*, where he lay his Men in Ambush, and detached a small party of Horse towards *Zrin* and *Noui*; The *Turks* of those Garisons taking the Alarm, sallied out, and pursued the *Croats*, who drew them into the Ambush, where they were very ill treated, most of them being cut in pieces; and *Mahomet Aga*, with some other considerable Officers being taken prisoners: In this action a great many *Valachians* were joyned with the *Turks*, and these maintained their ground the last. In their return the *Croats* to revenge the death of some Officers of consideration among them, who were killed in this occasion, fell upon the prisoners, and slew the greatest part of them.

*Vienna, April 6.* The Duke of *Lorraine* is expected here this week from *Inspruck*, after whose arrival we shall be able to speak with more certainty
