

NOTICE is hereby given, that in pursuance of the statutes in that case made and provided, William Thomas, of No. 129, Cheapside, in the city of London, Merchant, intends to apply by petition to Her Majesty in Council, for a prolongation of the term of sole using and vending an invention of "improvements in machinery for sewing or stitching various fabrics," granted to the said William Thomas, for England and Wales, and the town of Berwick upon Tweed, and in all Her Majesty's Colonies and Plantations abroad, and in the islands of Jersey, Guernsey, Alderney, Sark, and Man, by Her Majesty's letters patent, under the great seal of the United Kingdom, bearing date at Westminster the 1st day of December, in the tenth year of the reign of Her said Majesty, being the year 1846. And notice is hereby given, that the said William Thomas intends to apply, by Counsel, to the Judicial Committee of the Privy Council, on the 7th day of July next, or if the said Judicial Committee shall not sit on that day, at the then next sitting of the said Judicial Committee, or as soon after as Counsel can be heard, for a time to be fixed, for hearing the matter of the said petition, and that on or before the said 7th day of July next, caveats must be entered, and that all persons intending to enter caveats against such application as aforesaid, must enter the same at the Council Office, on or before the said 7th day of July next.—Dated this 30th day of May, 1860.

Wilson and Bristows, No. 1, Copthall-buildings, E.C., London, Solicitors for the Petitioner.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for
1318. Inventions.

NOTICE is hereby given, that the petition of Eugène Dufossé, of No. 1 Place Valenciennes, or No. 35, Rue Lafayette, Paris, in the Empire of France, praying for letters patent for the invention of "a system of skeleton or framework with continuous free air currents, applicable to the construction and improvement of seats of any description, mattresses, saddles, and upholstery generally, with a view to render them 'hygienic,'" was deposited and recorded in the Office of the Commissioners on the 29th day of May, 1860, and a complete specification accompanying such petition was at the same time filed in the said office.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for
Inventions.

NOTICE is hereby given, that provisional protection has been allowed

910. To Jules Ferdinand Hillel, of Mark-lane, city of London, Merchant, for the invention of "improvements in the apparatus and in the mode of treating Spanish grass and other fibrous materials, to be used in the manufacture of paper pulp."

On his petition recorded in the Office of the Commissioners on the 11th day of April, 1860.

1018. To Louis Oriard, of Cheviré Lerouge, in the Department of Maine et Loire, in the Empire of France, Clockmaker, for the invention of "improvements in breech loading fire arms, and in their cartridges."

1031. And to Robert Atkinson, of the firm of R. Atkinson and Co., of Southampton-court, Tottenham-court-road, in the county of Middlesex, for

the invention of "an apparatus to give warning to the inmates of a house or apartment, of the attempted entry of thieves or burglars, which may be called a Burglar and Thief Detector."

On both their petitions, recorded in the Office of the Commissioners, on the 24th day of April, 1860.

1058. To James White of Hulme, in the city of Manchester, George White, of the same place, and John White, also of the same place, Millwrights and Engineers, for the invention of "an improvement or improvements in machinery for pressing and cutting tobacco or other substances."

1059. And to Léopold D'Aubréville, of No. 60, Boulevard de Strasbourg, Paris, Civil Engineer, for the invention of "improvements in the manufacture of metallic boxes or vessels used to contain preserved alimentary provisions or other substances, and in the apparatus and machinery employed therein."—A communication to him from Alfred Henry Rémond, a person resident at No. 1, Place Vintimille, Paris.

On both their petitions, recorded in the Office of the Commissioners, on the 27th day of April, 1860.

1114. To Michael Henry, of 84, Fleet-street, in the city of London, Patent Agent, for the invention of "improvements in the mode of, and apparatus for, propelling, turning, and changing the direction of ships, balloons, and other bodies."—A communication to him from abroad by Louis Coignard, of 33, Boulevard Saint Martin, Paris, Artist.

On his petition, recorded in the Office of the Commissioners, on the 3rd day of May, 1860.

1118. To Timothy Railton, of the city of Manchester, Manufacturer, for the invention of "improvements in the apparatus employed in the manufacture of cap or bonnet fronts."

On his petition, recorded in the Office of the Commissioners on the 4th day of May, 1860.

1120. To Charles Stevens, Manager of the British and Foreign Office for Patents, 1B, Welbeck-street; Cavendish-square, in the county of Middlesex, for the invention of "an improved means and apparatus for transporting and preserving live fish, and keeping water fresh for a long period."—A communication to him from abroad by Jean Cyrille Noël, of Paris, in the Empire of France.

On his petition, recorded in the Office of the Commissioners, on the 5th day of May, 1860.

1150. To William Edward Newton, of the Office for Patents, 66, Chancery-lane, in the county of Middlesex, Civil Engineer, for the invention of "improvements in the manufacture of threads and yarns, and in the preparation of fibrous materials for such manufacture."—A communication to him from abroad by George R. Sampson, of Boston, Massachusetts, in the United States of America.

On his petition, recorded in the Office of the Commissioners on the 9th day of May, 1860.

1154. To Henry Wildsmith, Joshua Carter, and James Joshua Carter, of Batley, in the county of York, Wool Extractors, for the invention of "improvements in extracting wool or other animal fibres, from combinations of wool and cotton, or mixtures of other animal and vegetable fibrous substances or fabrics, and in the machinery or apparatus employed therein."

On their petition, recorded in the Office of the Commissioners on the 10th day of May, 1860.
