

NOTICE is hereby given, that in pursuance of the statutes in that case made and provided, William Thomas, of No. 129, Cheapside, in the city of London, Merchant, intends to apply by petition to Her Majesty in Council, for a prolongation of the term of sole using and vending an invention of "improvements in machinery for sewing or stitching various fabrics," granted to the said William Thomas, for England and Wales, and the town of Berwick upon Tweed, and in all Her Majesty's Colonies and Plantations abroad, and in the islands of Jersey, Guernsey, Alderney, Sark, and Man, by Her Majesty's letters patent, under the great seal of the United Kingdom, bearing date at Westminster the 1st day of December, in the tenth year of the reign of Her said Majesty, being the year 1846. And notice is hereby given, that the said William Thomas intends to apply, by Counsel, to the Judicial Committee of the Privy Council, on the 7th day of July next, or if the said Judicial Committee shall not sit on that day, at the then next sitting of the said Judicial Committee, or as soon after as Counsel can be heard, for a time to be fixed, for hearing the matter of the said petition, and that on or before the said 7th day of July next, caveats must be entered, and that all persons intending to enter caveats against such application as aforesaid, must enter the same at the Council Office, on or before the said 7th day of July next.—Dated this 30th day of May, 1860.

Wilson and Bristows, No. 1, Copthall-buildings, E.C., London, Solicitors for the Petitioner.

In the Matter of a Patent granted to Samuel Neville, of Gateshead, in the county of Durham, Glass Manufacturer, for the invention of "improvements in machinery or apparatus employed in the annealing of glass and the firing of pottery ware," bearing date the 21st day of January, 1857 (No. 182).

NOTICE is hereby given, that the Patentee of the said letters patent has applied by petition to Her Majesty's Commissioners of Patents for leave to enter a disclaimer and memorandum of alteration of certain parts of the title and specification of the said letters patent; and any person intending to oppose such application must give notice to that effect, at the office of the Solicitor-General, No. 1, Paper-buildings, Temple, within ten days from the date hereof.

*Brady, Son, and Scott, No. 50, King William-street, City, Agents for
John Alderton Bush, Newcastle-upon-Tyne, Solicitor for the Petitioner.*

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

154. John William Scott, of the city of Worcester, Button Manufacturer, has given notice at the Office of the Commissioners, of his intention to proceed with his application for letters patent for the invention of "improvements in plates for attaching buttons to garments and other articles, in button shanks and in buttons." As set forth in his petition, recorded in the said office on the 21st day of January, 1860.

167. And Murray Anderson, of Tollington Park, Horusey-road, in the county of Middlesex, Surveyor, has given the like notice in respect of the invention of "improved ventilating apparatus."

As set forth in his petition, recorded in the said office on the 23rd day of January, 1860.

179. And Joseph Threlfall Carter, of Sydenham, in the county of Kent, Engineer, has given the like notice in respect of the invention of "improvements in machinery for tiling the soil, and in engines and boilers for driving the same, and other agricultural implements."

As set forth in his petition, recorded in the said office on the 24th day of January, 1860.

195. And Jean Pierre Lamar, of Bush-lane, in the city of London, Merchant, has given the like notice in respect of the invention of "improvements in boots, shoes, and similar foot-coverings, in fixing the heels and soles thereof, and in apparatus for forming and applying screws for the foregoing, and other purposes."—A communication from abroad by Charles Jarrin, of Rue Bourbon Villeneuve, Paris, France.

As set forth in his petition, recorded in the said office on the 25th day of January, 1860.

201. And Peter Effertz, of the city of Manchester, in the county of Lancaster, Engineer, has given the like notice in respect of the invention of "improvements in machinery or apparatus for making bricks."

202. And Thomas William Plum, of Blaenavon Iron Works, in the county of Monmouth, Iron Master, has given the like notice in respect of the invention of "improvements in preparing and fixing iron and other metal plates to ships and other structures."

As set forth in their respective petitions, both recorded in the said office on the 26th day of January, 1860.

212. And James Duncan and Alexander Scott, both of Greenock, in the county of Renfrew, North Britain, Sugar Refiners, and James Dawson, of the same place, Manager, have given the like notice in respect of the invention of "improvements in reburning animal charcoal, and in the application of the products arising therefrom, and in the apparatus employed therein."

As set forth in their petition, recorded in the said office on the 27th day of January, 1860.

220. And Christopher Nugent Nixon, of Ramsgate, in the county of Kent, Gentleman, has given the like notice in respect of the invention of "improvements in the construction of mangles, the same being also applicable to other machinery for the pressure of textile fabrics and other substances."

221. And Thomas Dunn, of Pendleton, near the city of Manchester, Engineer, has given the like notice in respect of the invention of "improvements in machinery and apparatus for altering the position of locomotive engines and carriages, and for preventing injury and accidents on railways."

226. And Julius Jeffreys, of Richmond, in the county of Surrey, has given the like notice in respect of the invention of "improvements in sun blinds."

227. And Thomas Barnabas Daft, of Tottenham, in the county of Middlesex, Civil Engineer, has given the like notice in respect of the invention of "improvements in coating iron."
