

*Somerset House, London, September 22, 1860.*

NOTICE.—By order of the Commissioners of Inland Revenue, the place for the receipt of Corn Returns at Exeter, in Exeter Collection, will, in future, be in Queen's-street-road, Exeter.

*Thos. Dobson, Secretary.*

Hampshire Lieutenancy.

NOTICE is hereby given, that a General Meeting of the Lieutenancy of the county of Southampton will be holden at the Grand Jury Chamber, in Winchester, on Monday, the 15th day of October next, immediately after the disposal at the Quarter Sessions of the County business, for the purpose of carrying into execution the laws relating to the Militia of the said County and the provisions of an Act passed in the last Session of Parliament, intituled "An Act to amend the Laws relating to the Ballots for the Militia in England, and to suspend the making of Lists and Ballots for the Militia of the United Kingdom."

By order of the Most Noble the Marquess of Winchester, Her Majesty's Lieutenant.

*Henry Earle, Clerk of the General Meetings of Lieutenancy.*

Andover, 22nd September, 1860.

Registrar of Friendly Societies in England.

NOTICE is hereby given, that an agreement authorized by 18 and 19 Vict., cap. 63, sec. 13, for the dissolution of a Friendly Society called the Loyal Welshmen's Society, held at the Shoulder of Mutton Inn, Brynmawr, in the county of Brecon, was transmitted to the Registrar of Friendly Societies in England, on the 20th day of September, 1860.

*John Tidd Pratt, Registrar of Friendly Societies in England.*

London, 20th day of September, 1860.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

1157. Alexander Wilson, of the city and county of Edinburgh, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patents for the invention of "improvements in the construction of railway carriages, waggons, and trucks, which improvements are also applicable to vehicles for common roads."

As set forth in his petition recorded in the said office on the 10th day of May, 1860.

1161. And James Uttley, Machinist, and Joseph Bray, Overlooker, both of Staley Bridge, in the county of Chester, have given the like notice in respect of the invention of "improvements in machinery or apparatus for spinning cotton, wool, silk, flax, and other fibrous materials."

As set forth in their petition, recorded in the said office on the 11th day of May, 1860.

1178. And John Chatterton, of Highbury-terrace, and Willoughby Smith, of Pownall-road, Dalston, both in the county of Middlesex, have given the like notice in respect of the invention of "improvements in electric telegraph conductors."

As set forth in their petition, recorded in the said office on the 12th day of May, 1860.

1181. And Henry Louis Lilley, of Stand-lane, in the county of Lancaster, Manager, has given the like notice in respect of the invention of "improvements in machinery or apparatus for scraping starch."

As set forth in his petition, recorded in the said office on the 14th day of May, 1860.

1190. And Alphonse Sax, of Paris, France, Musical Instrument Maker, has given the like notice in respect of the invention of "a new mode of obtaining motive power, by the effect of weights and springs, or by springs only, in combination with proper connecting parts."

1193. And George Harman Barth, of 217, Piccadilly, in the parish of St. James, in the county of Middlesex, Operative Chymist, has given the like notice in respect of the invention of "improvements in processes for aerating or super-saturating water and other fluids with oxygen or compounds of oxygen or other gas or gases."

1195. And James Higgins, of Salford, in the county of Lancaster, Machine Maker, and Thomas Schofield Whitworth, of the same place, Manager, have given the like notice in respect of the invention of "improvements in machinery or apparatus for preparing and spinning cotton and other fibrous materials."

As set forth in their respective petitions, all recorded in the said office on the 15th day of May, 1860.

1209. And Claude Marie Guillemin, of No. 7, Rue Madame, Paris, M.D., has given the like notice in respect of the invention of "improvements in submarine electric telegraphs."

As set forth in his petition, recorded in the said office on the 16th day of May, 1860.

1210. And William Krutzsch, of Chamber-street, Goodman's-fields, E., Engineer, has given the like notice in respect of the invention of "improvements in mortars."

1219. And Silas C. Salisbury, of Essex-street, in the city of Westminster, Gentleman, has given the like notice in respect of the invention of "improvements in machinery and apparatus to be employed in weaving."

1220. And James Cole, of Coventry, in the county of Warwick, Pattern Designer and Draughtsman, has given the like notice in respect of the invention of "improvements in looms for weaving."

1221. And Alfred Buckingham Ibbotson, of Sheffield, in the county of York, Steel and File Manufacturer, has given the like notice in respect of the invention of "improvements in vices, part of which improvements is applicable to screw wrenches, spanners, turning lathes, and other tools and machines."—A communication to him from abroad, by Hiram Powers, of Florence.

As set forth in their respective petitions, all recorded in the said office on the 17th day of May, 1860.

1228. And Hilary Nicholas Nissen, of Mark-lane, in the city of London, Engraver and Stationer, has given the like notice in respect of the invention of "improvements in the preparation of paper, in order to prevent the extraction or alteration of writings thereon without detection."
