

for public religious worship as a Roman Catholic Chapel exclusively, was, on the 1st day of January, 1861, duly registered for solemnizing marriages therein, pursuant to the Act of 6th and 7th Wm. IV., cap. 85.

Witness my hand this 4th day of January, 1861.
Benjn. Seymour, Superintendent Registrar.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

2026. Richard John Cole, of No. 21, Chepstow Villas West, Bayswater, in the county of Middlesex, Esquire, has given notice at the Office of the Commissioners, of his intention to proceed with his application for letters patent for the invention of "improvements in the construction of brushes."

As set forth in his petition, recorded in the said office on the 23rd day of August, 1860.

2086. And Edward Deane, of Arthur-street East, London Bridge, in the city of London, Engineer, has given the like notice in respect of the invention of "improvements in apparatus for facilitating culinary roasting."

2088. And Richard Perrott, junior, of Cork, in the Kingdom of Ireland, Ironfounder, and John Molony, of Cork, Setter of Kitchen Ranges, have given the like notice in respect of the invention of "an improved mode of applying roasting-jacks to kitchen ranges and cooking stoves."

As set forth in their respective petitions, both recorded in the said office on the 29th day of August, 1860.

2091. And William Kirrage, of No. 5, Albion-place, Vauxhall, and Abraham Ripley, of the same place, in the county of Surrey, have given the like notice in respect of the invention of "the amalgamation of certain materials, forming a plastic composition, applicable to works of the fine arts, building purposes, imitations of marbles, ancient carvings, and various other uses."

As set forth in their petition, recorded in the said office on the 30th day of August, 1860.

2103. And Alexander Southwood Stocker, of Clifton, in the county of Gloucester, Manufacturer, has given the like notice in respect of the invention of "improvements in the manufacture of horse-shoes."

As set forth in his petition, recorded in the said office on the 31st day of August, 1860.

2113. And Martin Regul Pilon, Citizen of the United States, residing at Aguas Calientes, in Mexico, but at present in Brussels, in the Kingdom of Belgium, Merchant, has given the like notice in respect of the invention of "improvements in the manufacture and construction of fire-arms, and in the means of loading the same and controlling more effectually the action of the firelock."

2114. And Ward Holroyd, of Halifax, in the county of York, Machine Maker, and Samuel Smith, of the same place, Overlooker, have given the like notice in respect of the invention of "improvements in looms for weaving."

2116. And Charles Weightman Harrison, of Plumstead Common, in the county of Kent, Civil Engineer, has given the like notice in respect of the invention of "improvements in electric telegraphs."

As set forth in their respective petitions, all recorded in the said office on the 1st day of September, 1860.

2132. And Henry John Standly, of 9, Pall-Mall East, in the city of Westminster, in the county of Middlesex, Gentleman, has given the like notice in respect of the invention of "improvements in the production of gas for illumination and other purposes, and the utilization of the products arising therefrom."

As set forth in his petition, recorded in the said office on the 4th day of September, 1860.

2136. And Harold Potter, of the city of Manchester, Gentleman, and Alfred Peek, of the same place, Manufacturing Chemist, have given the like notice in respect of the invention of "improvements in treating or preparing textile materials and fabrics."

2147. And Walter Robert Kinipple, of Limehouse, in the county of Middlesex, Civil Engineer, has given the like notice in respect of the invention of "an improvement in water closets and in flushing tanks or apparatuses."

2148. And John Huggett, of Eastbourne, in the county of Sussex, Engineer, has given the like notice in respect of the invention of "a method of, and apparatus for, regulating the light in street and other lamps, whereby the relighting and extinguishing of the same may be dispensed with."

As set forth in their respective petitions, all recorded in the said office on the 5th day of September, 1860.

2152. And William Henry Burke the elder, and William Henry Burke the younger, of Brompton, in the county of Middlesex, Gentlemen, have given the like notice in respect of the invention of "a method of preparing fabrics composed of or containing caoutchouc, to enable them to resist the action of colours and varnishes containing oil."

2156. And Aaron Lester, of Coventry, in the county of Warwick, Draftsman and Designer, has given the like notice in respect of the invention of "an improvement in looms for weaving."

As set forth in their respective petitions, both recorded in the said office on the 6th day of September, 1860.

2169. And James Spratt, of Camden-road Villas, Camden Town, in the county of Middlesex, Gentleman, has given the like notice in respect of the invention of "improvements in electrical conductors, and their fittings."

As set forth in his petition, recorded in the said office on the 7th day of September, 1860.

2180. And James Wood, of West Smithfield, Type Founder, has given the like notice in respect of the invention of "improvements in stereotyping apparatus."

As set forth in his petition, recorded in the said office on the 8th day of September, 1860.

2218. And Francis Alton Calvert, of the city of Manchester, Engineer, has given the like notice in respect of the invention of "improvements in steam engines and boilers, and in valves for steam and other fluids."

As set forth in his petition, recorded in the said office on the 14th day of September, 1860.
