#### NOTICE TO MARINERS.

(No. 18.) AFRICA—SOUTH-EAST COAST.

*Fixed Light at Port Elizabeth.*

The Colonial Government at the Cape of Good Hope has given notice, that on and after the 1st June, 1861, a Harbour light will be exhibited from a lighthouse recently erected on the hill over the town of port Elizabeth, Algoa Bay.

The light will be *fixed*, and visible seaward when bearing between N.W. and S.W., one point at each extremity of the arc, viz., from N.W. to N.W. by W. and from S.W. to S.W. by W. will be *red*, and the intermediate six points white. The light will be placed at an elevation of 225 feet above the level of high water, and should be seen

from the deck of a ship in clear weather at a distance of 12 miles.

The illuminating apparatus is dioptric or by lenses, of the sixth order.

The tower which is stone colour and 55 feet from base to vane stands 25 yards S  $\frac{1}{2}$  E. from the Donkin Monument.

*Caution.*—As it is possible that in consequence of its elevation this light may be seen in some states of the atmosphere by vessels coming from the eastward, before the revolving light on Cape Recife: care should be taken not to bring it to the southward of West until Cape Recife light be clearly distinguished; which it will be, immediately it is above the horizon, by its greater brilliancy, as well as by its *revolving* once a minute.

[The bearings are Magnetic. Variation 29° 50' West in 1861.]

By command of their Lordships,

*John Washington*, Hydrographer.

Hydrographic Office, Admiralty, London,  
31st May, 1861.

This Notice affects the following Admiralty Charts:—Algoa Bay, No. 642; Africa, sheet 4, No. 596; Africa, South Coast, sheet 5, No. 2086; Indian Ocean, Nos. 2483, 748a.; and South Africa Lights List, No. 8.

(No. 19.) ENGLAND—WEST COAST.

*Fixed Light on the Smalls Rock.*

THE Corporation of the Trinity House, London, has given notice, that on and after the 1st day of August, 1861, a light will be exhibited from the new lighthouse on the Smalls rock, off the coast of Pembroke, at the south entrance of St. George's Channel.

The light will be a *fixed* white light. It will be placed at an elevation of 125 feet above the mean level of the sea, and will be visible all round the horizon from the deck of a ship at a distance of 15 miles in clear weather.

The illuminating apparatus is dioptric or by lenses, of the first order. The tower is white, and 141 feet high from base to vane.

*Sherries Light—Coal Rock.*

Also, that for the purpose of showing the direction of the Coal rock near Holyhead, a *red* gleam of light will be shown, on and after the 1st July, 1861, from the Sherries lighthouse, on a bearing E.  $\frac{1}{2}$  S., which will strike the said rock.

[All bearings are Magnetic. Variation 24° 15' West in 1861.]

By command of their Lordships,

*John Washington*, Hydrographer.

Hydrographic Office, Admiralty, London,  
6th June, 1861.

This Notice affects the following Admiralty Charts:—Irish Channel, No. 1824; English Channel, General, No. 1598; English Channel, sheet 2, No. 2675b; England West Coast, sheet 5, No. 1410; sheet 7, No. 1412; No. 1488; Holyhead bay, No. 1413. Also English Lights List, Nos. 292, 304.
