

in the district of Bolton, being a building certified according to law as a place of religious worship, was, on the said 31st day of December, 1861, duly registered for solemnising marriages therein, pursuant to the Act 6th and 7th Wm. IV., cap. 85, in lieu and in substitution of the said first-mentioned building.

Witness my hand this 23rd day of January, 1862,

J. Woodhouse, Superintendent Registrar.

Eastern Union Railway Company.

**N**OTICE is hereby given, that the Holders of the Shares in the Eastern Union Railway Company described in the Schedule hereunder given, whose respective addresses are unknown to the Directors, having failed to pay the several Calls due upon such shares, with interest thereon, and more than Two Calendar Months having elapsed since the time appointed for the payment of the last of such calls, the Directors of such Company intend, after the expiration of twenty-one days from the day of publication hereof, pursuant to the powers and provisions of the Statute in that behalf, to declare the said shares forfeited, unless the said Holders respectively shall in the meantime pay the amount due for and in respect of such Calls, with interest thereon, at the rate of 5 per cent. per annum, from the day when the same respectively were payable up to the day of such payment.—Dated this 25th day of January, 1862.

Edmund Ayres, Secretary.

Class "A."

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

**N**OTICE is hereby given, that—

2298. Timothy Morris, Robert Weare, and Edward Henry Cradock Monckton, all of 4, Trafalgar-square (Patent Office), in the county of Middlesex, have given notice at the Office of the Commissioners of their intention to proceed with their application for letters patent for the invention of "improvements in batteries for obtaining electric currents and the products therefrom."

As set forth in their petition, recorded in the said office on the 14th day of September, 1861.

2303. And John Reeves, of the city of New York, in the United States of America, now residing in London, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in electro-magnetic engines for obtaining and applying motive power."

2312. And Frederic Maitland Ransome and Ernest Leslie Ransome, both of Ipswich, in the county of Suffolk, have given the like notice in respect of the invention of "improvements in treating

stone, bricks, and other surfaces, and in the manufacture of filters."

As set forth in their respective petitions, both recorded in the said office on the 16th day of September, 1861.

2315. And Francis Wrigley, of the city of Manchester, in the county of Lancaster, Consulting Engineer, has given the like notice in respect of the invention of "improvements in the construction, manufacture, and mode of securing armour for the protection of ships and fortifications against projectiles."

2317. And John Eastwood, of Bradford, in the county of York, Machine Wool Comber, and John Barnett Joyce, of Bradford aforesaid, Machine Maker, have given the like notice in respect of the invention of "improvements in machinery or apparatus for combing wool and other fibrous substances."

As set forth in their respective petitions, both recorded in the said office on the 17th day of September, 1861.

2324. And Joseph Girtton Briggs, of No. 23, Earl-street, Blackfriars, in the city of London, has given the like notice in respect of the invention of "an improved method of making fireproof buildings, ships, and other constructions."

2331. And Edmund Suckow and Edward Habel, of the city of Manchester, in the county of Lancaster, Engineers, have given the like notice in respect of the invention of "improvements in machinery or apparatus for opening and cleaning cotton, and other fibrous materials."

As set forth in their respective petitions, both recorded in the said office on the 18th day of September, 1861.

2333. And Louis Gabriel Auguste Condroy, of the town of Douai, in the Empire of France, Machine Builder, has given the like notice in respect of the invention of "an improved centrifugal apparatus intended for purifying, washing, drying, moulding, or extracting from liquids, substances, or materials of various kinds, which are deposited or poured for this purpose in moveable baskets or boxes fitted in the said apparatus."

2340. And William Clark, of 53, Chancery-lane, in the county of Middlesex, Engineer and Patent Agent, has given the like notice in respect of the invention of "improvements in machinery for the manufacture of fishing and other nets."—A communication to him from abroad by Messrs. Felix Marie Baudouin and Achille Baudouin, Civil Engineers, and Jean Baptiste Francois Jouannin, Mechanician, all of 29, Boulevard St. Martin, Paris.

2348. And Theophilus Redwood, of 19, Montague-street, Russell-square, in the county of Middlesex, has given the like notice in respect of the invention of "an improvement in the manufacture of paper."

As set forth in their respective petitions, all recorded in the said office on the 19th day of September, 1861.

2353. And Joseph Christian Davidson, of Yalding, in the county of Kent, Farmer, has given the like notice in respect of the invention of "improvements in thrashing machines."

2359. And Francis William Wymer, Engineer, of 7, St. Ann's-row, Newcastle-on-Tyne, has given the like notice in respect of the invention of "improvements in apparatus used in sounding the holds of ships or vessels."

As set forth in their respective petitions, both recorded in the said office on the 20th day of September, 1861.
