

Registrar of Friendly Societies in England.
NOTICE is hereby given, that an agrément authorized by 18 and 19 Vict., c. 63, s. 13, for the dissolution of a Friendly Society called the Provident Funeral Friendly Society, held at the Wesleyan Chapel, Beeston, in the county of Nottingham, was transmitted to the Registrar of Friendly Societies in England, on the 13th day of June, 1862.

John Tidd Pratt, Registrar of Friendly Societies in England.
 London, 13th day of June, 1862.

In the Matter of certain Letters Patent granted to John Goucher, formerly of Woodsetts, in the West Riding of the county of York, but now of Churchwalk Iron Works, Worksop, in the county of Notts, Ironfounder, Engineer, and Machinist, bearing date the 25th day of November, 1848, for an invention of "a machine for thrashing corn and other grain."

NOTICE is hereby given, that it is the intention of the above-named John Goucher to present a petition to Her Majesty in Council, praying Her Majesty to grant a prolongation of the term of the above-mentioned letters patent; and notice is hereby further given, that on the 19th day of July next, or on such subsequent day as the Judicial Committee of Her Majesty's Privy Council shall appoint for that purpose, an application will be made to the said Committee for a time to be fixed for hearing the matter of the said Petition, and any person desirous of being heard in opposition to the prayer of the said Petition must enter a caveat to that effect, in the Privy Council Office, on or before the said 19th day of July next.—Dated this 12th day of June, 1862.

Frichard and Collette, No. 57, Lincoln's-inn-fields, London, Solicitors for the Petitioner.

Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

313. Robert Russell, of Derby, in the county of Derby, Stove Grate Manufacturer, has given notice at the Office of the Commissioners of his intention to proceed with his application for letters patent for the invention of "improvements in stove grates and kitchen ranges."

315. And Peter Hyde Astley, 4, Matthews-place, Stratford, Essex, and Crosby Leighton, 3, Manby-grove, Manby-park, Stratford, Essex, have given the like notice in respect of the invention of "improvements in the construction of life boats, applicable also to ship's boats, gun-boats, and other vessels."

As set forth in their respective petitions, both recorded in the said office on the 6th day of February, 1862.

324. And Peter Shaw, of the city of Edinburgh, Gentleman, has given the like notice in respect of the invention of "improvements in lamps."

325. And Hugh Adams Silver, of Silvertown, in the county of Essex, Manufacturer, has given the like notice in respect of the invention of "improvements in the manufacture of trays, cases, and other similar articles, and bottles in ebonite, vulcanite, or other hard india rubber."

As set forth in their respective petitions, both

recorded in the said office on the 7th day of February, 1862.

335. And Frederick Tolhausen, Civil Engineer and Patent Agent, of No. 35, Boulevard, Bonne Nouvelle, Paris, in the Empire of France, has given the like notice, in respect of the invention of "improvements in the manufacture of the tyres of railway wheels, and in apparatus for such purposes."—A communication to him from Antoine Duplay, a person resident at No. 17, Rue du Faubourg Montmartre, Paris.

337. And James Carrington, of Queen's-gate Mews, Kensington, in the county of Middlesex, Groom, has given the like notice in respect of the invention of "improvements in the construction and fitting up of stalls and horse-boxes."

As set forth in their respective petitions, both recorded in the said office on the 8th day of February, 1862.

347. And William Clark, of 53, Chancery-lane, in the county of Middlesex, Engineer and Patent Agent, has given the like notice in respect of the invention of "improvements in reflectors."—A communication to him from abroad by Mr. Louis Jacques Château, of 29, Boulevard Saint Martin, Paris, formerly Notary.

As set forth in his petition, recorded in the said office on the 10th day of February, 1862.

351. And Thomas Fyfe, of 46, Leicester-square, in the county of Middlesex, Engineer, has given the like notice in respect of the invention of "improvements in knapsacks, and in apparatus for supporting them or other similar burdens upon the shoulders."

356. And William Wood, of Monkhill, Pontefract, in the county of York, has given the like notice in respect of the invention of "improvements in the process of manufacturing pomfret or liquorice cakes."

358. And John Brinsmead, of Charlotte-street, Fitzroy-square, in the county of Middlesex, Pianoforte Manufacturer, has given the like notice in respect of the invention of "improvements in pianofortes."

359. And Richard Johnson, of Manchester, in the county of Lancaster, Wire Drawer, has given the like notice in respect of the invention of "improvements in welded wires used for telegraphic and other purposes."

360. And Gustav Lindemann, of Manchester, in the county of Lancaster, Engineer, has given the like notice in respect of the invention of "improvements in applying gas for the purpose of singeing or dressing yarns or threads and woven fabrics, and for obtaining heat for other purposes."

363. And John Hetherington, of Manchester, in the county of Lancaster, Machine Maker, has given the like notice in respect of the invention of "improvements in machinery or apparatus for preparing cotton and other fibrous materials for spinning."

As set forth in their respective petitions, all recorded in the said office on the 11th day of February, 1862.

365. And Frederick Tolhausen, Civil Engineer and Patent Agent, 17, Rue du Faubourg Montmartre, Paris, in the Empire of France, has given the like notice in respect of the invention of "improvements in the construction of vertical steam-boilers."—A communication from Jean Larmanjat, Mechanical Engineer, a person resident at No. 24, Rue du Mail, Paris.
