Patent Law Amendment Act, 1852.

Office of the Commissioners of Patents for Inventions.

NOTICE is hereby given, that—

1768. Thomas Williams, of 14, Red Lion-street, Clerkenwell, in the county of Middlesex, and of Aberdaron, in the county of Carnarvon, Smith and Engineer, and Henry Cox, of 22, Lower-street, Islington; in the county of Middlesex, Gas Engineer, have given notice at the Office of the Commissioners of their intention to proceed with their application for letters patent for the invention of "improvements in churns, partly applicable to washing machine." As set forth in their petition, recorded in the said office on the 14th day of June, 1862.
1785. And Samuel Hazard Huntly, of No. 50, Upper Baker-street, Regent's Park, in the county of Middlesex, has given the like notice in respect of the invention of "improvements in the construction of furnaces for effecting the more perfect combustion of the fuel."
1789. And Alexander Woodlands Makinson, of Westminster, in the county of Middlesex, Civil Engineer, has given the like notice in respect of

- the invention of "improvements in locomotive and stationary engines."
1792. And Mansfield Turner, of Wigston, in the county of Leicester, Lieutenant-Colonel in Her Majesty's Volunteers, and Edward Thomas Loseby, of Wood-street, in the city of London, and of Leicester, in the county of Leicester, Horologist, have given the like notice in respect of the invention of "improvements in small arms and ordnance, and in sights for the same, part of which may be used for measuring distances." As set forth in their respective petitions, all recorded in the said office on the 17th day of June, 1862.
1808. And Richard Stansfield, Iron Founder and Machinist, and John Dodgeon, Mechanic, both of Todmorden, in the county of Lancaster, have given the like notice in respect of the invention of "improvements in looms for weaving." As set forth in their petition, recorded in the said office on the 19th day of June, 1862.
1816. And Jean Baptiste Theophile Detuncq, of Quesnoy le Montant, in the Department of the Somme, in the Empire of France, Farmer, has given the like notice in respect of the invention of "improved apparatus or machinery for treating flax or hemp."
